The Backward Look:

Seamus Heaney Helen Vendler, 1998 The most astute and eloquent critic of poetry at work today Michiko Kakutani New York Times A renowned American critic charts the creative evolution of the greatest Irish poet since Yeats If other books on Nobel laureate Seamus Heaney have dwelled on the biographical geographical and political aspects of his writing Helen Vendler looks squarely and deeply at his poetic art Tracing the eminent poet's development from his beginnings in *Death of a Naturalist* 1966 through *The Spirit Level* 1996 Seamus Heaney is an inspired and nuanced portrait of an Irish chronicler of public as well as private life whose work has given voice to his troubled times With characteristic discernment and eloquence Vendler considers an often neglected but crucial part of Heaney's evolving talent self revision Here we see how later poems return to the themes or genres of the earlier works and reconceive them in light of the poet's later attitudes or techniques Vendler surveys all of Heaney's efforts in the classical forms genre scene elegy sonnet parable confessional poem poem of perception and brings to light his aesthetic and moral attitudes Seamus Heaney's development as a poet is inextricably connected to the violent struggle that racked Northern Ireland during his lifetime Vendler shows how in each volume Heaney strived to find a precise language for the turbulence he was living through symbols adequate for our predicament as he once said The worldwide response to those discovered symbols suggests that their relevance extends far beyond their original context *The Temperance Spectator*, 1864 **Christian Advocate**, 1911 [The New Philosophy of Criminal Law](#) Chad Flanders, Zachary Hoskins, 2015-12-16 There is no more vivid example of a state's power over its citizens than the criminal law By criminalizing various behaviours the state sets boundaries on what we can and cannot do And the criminal law is in many ways unique in the harshness of its sanctions But traditional criminal law theory has for too long focussed on the questions what is a crime and what is the justification of punishment The significance of the criminal law extends beyond these questions indeed critical philosophical questions underlie all aspects of the criminal justice system The criminal law engages us not just as offenders or potential offenders but also as victims suspects judges and jurors prosecutors and defenders and as citizens The authors in this volume go beyond traditional questions to challenge our conventional understandings of the criminal law In doing so they draw from a number of disciplines including philosophy history and social science [Punishment](#) Ted Honderich, 2005-12-20 Ted Honderich's *Punishment* is the best known book on the justifications put forward for state punishment This enlarged and developed edition brings his writing to a new audience With new chapters on determinism and responsibility plus a new conclusion the book also remains true to its original realism about almost all talk of retribution and proportionality Honderich investigates all the commonsensical notions of why and when punishment is morally necessary engaging with the language of public debate by politicians and other public figures Honderich then puts forward his own argument that punishment is legitimate when it is in accord with the principle of humanity Written in a clear sharp style and seasoned with a dry wit this is the most important work on the reasoning behind

our penal systems It is a pleasure to read for philosophers and non philosophers alike **The Elson Readers. Readers, Books 1-8** William Harris Elson,1920 *The Ethics of Technology* Sven Ove Hansson,2017-03-08 Our daily lives are affected by new technologies at an ever increasing rate It is becoming more and more important to assess future technologies from an ethical point of view and to do this before they are introduced on a massive scale Such assessments require systematic use of many different kinds of knowledge In this important new book an international team of leading experts in the field provides the first comprehensive treatment of the methods available for ethical assessments of technologies and their social introduction The book explores how information from empirical research can be used in ethical analyses of technology and includes chapters showing how ethical analysis can shed light on topics such as privacy risk sustainability dual use gender issues justice international technology transfer and the responsibility of engineers It provides an invaluable resource for students in the philosophy and ethics of technology science and technology studies applied ethics bioethics business ethics and the ethics of computing **Rethinking Political Institutions** Ian Shapiro,Stephen Skowronek,Daniel Galvin,2006-05 Institutions shape every dimension of politics This volume collects original essays on how such institutions are formed operated and changed both in theory and in practice Ranging across formal institutions of government such as legislatures courts and bureaucracies and intermediary institutions such as labor unions and party systems the contributors show how these instruments of control give shape to the state articulate its relationships and express its legitimacy Rethinking Political Institutions captures the state of the art in the study of the art of the state Drawing on some of the leading scholars in the field this volume includes essays on issues of social power public policy and programs judicial review and cross national institutions Rethinking Political Institutions is an essential addition to the debate on the significance of political institutions in light of democracy social change and power Contributors Elisabeth S Clemens Jon Elster John Ferejohn Terry M Moe Claus Offe Paul Pierson Ulrich K Preuss Rogers M Smith Kathleen Thelen Mark Tushnet R Kent Weaver Margaret Weir Keith E Whittington **Quarterly Review of the Methodist Episcopal Church, South** ,1920 **Retrospection and Revision in Modern and Contemporary Art, Literature and Music** Mette Gieskes,Mathilde Roza,2024-01-03 This interdisciplinary book investigates the various ways in which North American and European modern and contemporary artists authors and musicians have returned to earlier works of their own engaging in inventive revivals and transformations of the past in the present The book is distinctive in its focus on such revisits as well as in the diversity of art forms under review in addition to visual art the book explores fiction poetry literary criticism film rock music and philosophy This scope together with the time span covered in the book from the 1850s to the twenty first century allows for a broad view on retrospection and revision The case studies presented here offer a multifaceted exploration of the widely different goals to which practitioners of the arts have made retrospection and revision functional against the background of cultural social political and personal forces **Seamus Heaney** Henry Hart,1993-10-01 Seamus Heaney widely considered

the most gifted living poet in Ireland and Britain is the first Irish poet since Yeats to gain an international reputation In this remarkable study Henry Hart discusses Heaney's poems his creative and personal situations and his assimilation of contemporary literary theory From Heaney's Ulster background to poetic influences as diverse as Dante and Wordsworth Yeats and Bly Hart offers sophisticated lucid insights Hart argues that the best way into Heaney's poetic world is in seeking to understand him as with Blake and Yeats in terms of oppositions and conflicts progressions and syntheses At the root of all his work is a multifaceted argument with himself with others with sectarian Northern Ireland with his Anglo Irish heritage with his Roman Catholicism and with his Nationalist upbringing on a farm in County Derry For each volume of poems from *Door into the Dark* to *The Haw Lantern* Hart identifies and works with a specific problem in the text while developing its intellectual and creative implications He covers aspects as diverse as Heaney's incorporation of antipastoral attitudes in his poems his fascination with how etymology recapitulates ancient and modern history and apocalypticism in *North* Placing his trust in art's ability to confront conflicts between freedom and responsibility between private craft and public involvement Heaney is shown nonetheless to chastise himself for failing to have a greater impact on the situation he left behind in Northern Ireland In pursuing the literary religious and political themes in his books of poetry Hart shows that Heaney is no provincial bard as some critics have suggested but is as intellectually informed and astute as any postmodernist writer Any reader of Seamus Heaney's poetry and any poet poetry scholar critic of contemporary poetry or student of Irish literature will gain much from reading this book

Christian Theology and African Traditions Matthew Michael, 2013-10-31 In this compelling work the evangelical theologian Matthew Michael sets out to reveal the unique nature of African Christianity and understand Christian theology in the context of the African worldview and traditions which have given African Christianity its unique religious stamp Michael addresses the crucial obligation of Christianity to engage with African culture as a prerequisite to transforming African theology He points out that a major flaw of Western missionary Christianisation was its failure to engage with African traditions as a meaningful and vigorous Christianity cannot flourish within the African context without serious engagement with these traditions Michael reinterprets traditional Christian doctrine with careful consideration of Scripture to best

engage modern African understanding His exploration of African Christianity goes beyond the classical Western experience and interpretations of Christian dogmas found in the works of Augustine Aquinas and Western missionaries and reclaims the rich and ancient heritage of Christianity in Africa a heritage so venerable and pervasive that it is as much African as Western This thought provoking work reveals Michael s maturing theological reflections upon the crucial subject of Christian Systematic Theology in the African context and will be of great interest to any individual interested in the dynamic field of African theology

Responsibility for Negligence in Ethics and Law Verónica Rodríguez-Blanco, 2025-04-01 Negligent or inadvertent action in both law and ethics is a matter of agency The pre-theoretical and philosophical views agree that we are responsible for things that we do intentionally but it is less clear whether we are responsible for inadvertent or negligent actions The law of negligence in tort law attributes responsibility for inadvertent acts while in ethics there is deep and serious scepticism about the responsibility for negligent or inadvertent action How can we be responsible for things that happen beyond the realm of our knowledge or control Positioned at the intersection of law and ethics *Responsibility for Negligence in Ethics and Law* Aspiration Perspective and Civic Maturity responds to these fundamental questions by advancing the idea that the

underpinning feature of negligent or inadvertent acts is the phenomenon of akrasia the lack of integration of character and intelligent thinking When we act akratically we are acting contrary to our deliberated intention due to an uneven development of character and thoughts about what is right dutiful and good Using an Aristotelian inspired model of deliberation the book illustrates how legal decisions in negligence invite citizens to adopt a deliberative aspirational perspective This perspective encourages them to reshape redescribe and rethink their duties of care to meet the aspirational standard of the reasonable person Consequently the book argues that the purpose of negligence law is to promote values of citizen engagement and civic maturity Combining tort law theory Aristotelian conceptions of deliberation and theories of practical rationality responsibility and action this book invites us to rethink private law s purpose and methodology
