The Balham Group How British Trotskyism Began:

The Balham Group Reginald Groves, 1974 *James P. Cannon and the Emergence of Trotskyism in the United States, 1928-38* Bryan D. Palmer, 2021-10-25 Bryan D Palmer reinterprets the history of labour and the left in the United States during the 1930s through a discussion of the emergence of Trotskyism in the most advanced capitalist country in the world Focussing on James P Cannon the founder of American Trotskyism Palmer builds on his previously published and award winning book *James P Cannon and the Origins of the American Revolutionary Left 1890 1928 2007* with a deeply researched and elegantly written study of Cannon and the Trotskyist movement in the United States from 1928 38 Situating this dissident communist movement within the history of class struggle both national and international Palmer examines how Cannon and others fought to revive a combative trade unionism thwart fascism and the drift to war refuse Stalinism s many degenerations and build a new Party and a new International both of which would be dedicating to reviving and realizing the possibilities of revolutionary socialism The result is a study that provides a definitive account of the largest and most influential Trotskyist movement in the world in the 1930s a mobilization whose history recasts understandings of the more extensively studied experience of United States working class militancy and the place of the Comintern affiliated Communist Party within it *Fighting fascism: the British Left and the rise of fascism, 1919-39* Keith Hodgson, 2013-07-19 In the years between the two world wars fascism triumphed in Italy Germany Spain and elsewhere coming to power after intense struggles with the labour movements of those countries This book available in paperback for the first time analyses the way in which the British left responded to this new challenge How did socialists and communists in Britain explain what fascism was What did they do to oppose it and how successful were they In examining the theories and actions of the Labour Party the TUC the Communist Party and other smaller left wing groups the book explains their different approaches while at the same time highlighting the common thread that ran through all their interpretations of fascism The author argues that the British left has been largely overlooked in the few specific studies of anti fascism that exist with the focus being disproportionately applied to its European counterparts He also takes issue with recent developments in the study of fascism and argues that the views of the left often derided by modern historians are still relevant today *International Trotskyism, 1929-1985* Robert Jackson Alexander, 1991 In a work of encyclopedic scope *International Trotskyism 1929 1985* is sure to become the definitive reference work on a movement that has had a significant impact on the political culture of countries in every part of the world for more than half a century Renowned scholar Robert J Alexander has amassed from disparate sources an unprecedented amount of primary and secondary material to provide a documentary history of the origins development and nature of the Trotskyist movement around the world Drawing on interviews and correspondence with Trotskyists newspaper reports and pamphlets historical writings including the annotated writings of Trotsky in both English and French historical memoirs of Trotskyist leaders and documents of the Fourth International Alexander recounts the

history of the movement since Trotsky's exile from the Soviet Union in 1929. Organized alphabetically in a double column country by country format, this book charts the formation and growth of Trotskyism in more than sixty-five countries, providing biographic information about its most influential leaders, detailed accounts of Trotsky's personal involvement in the development of the movement in each country, and thorough reports of its various factions and splits. Multiple chapters are reserved for countries where the movement was more active or fully developed, and various chapters are organized around crucial thematic issues such as the Fourth International. The chapters are followed by extensive name organization, publication, and subject indexes which provide optimal access to the wealth of information contained in the main body of the work.

Sources in British Political History 1900-1951 P. Jones, J. Sinclair, C. Cook, Jeffrey Weeks, 1985-04-25

The British Communist Party and Moscow, 1920-43 Andrew Thorpe, 2000. The relationship between the British Communist Party and Soviet Communism is one of perennial fascination. In this text, Thorpe makes extensive use of available sources to offer a new view of this most controversial of topics.

Entryism and the Revolutionary Socialist Left in Britain Nicolas Sigoillot, 2023-12-01. This book examines entryism in the context of the revolutionary socialist left in Britain from the inception of the Communist Party of Great Britain in 1920 to the departure of Militant from the Labour Party in 1992. Entryism is a tactic of penetration of a political party by another aimed at accomplishing objectives the nature of which can change depending on the type of entry. This work shows to what extent there is not one type of entryism but several. The adopted methodology is chronological with introductory chapters that study the context and the previous partial attempts to define entryism. The first part of the volume is dedicated to the relationship between the Communist Party of Great Britain and the Labour Party up until the middle of the 20th century. The following two parts are dedicated to British Trotskyists before and after the Second World War. In total, 17 organisations that have practiced entryism are examined. Through their objectives, practices, and results, this work intends to formulate an exhaustive typology of the tactic which fills a definitional gap in political science and covers an aspect of Labour's History that has only been partially covered. This volume will be of use to students and scholars interested in the history of the Labour Party and the Far Left in the United Kingdom.

History of British Trotskyism Ted Grant. This book by Ted Grant is a unique contribution to the history of British Trotskyism. It begins with the debate on Trotskyism in the British Communist Party in 1924 and ends with the break up of the Revolutionary Communist Party in 1949 and the beginning of more than thirty years of work within the Labour Party. Ted Grant was the founder and political leader of the Militant Tendency which haunted the Labour leadership and was eventually expelled along with the Militant editorial board in 1983. A postscript by Rob Sewell, who was the national organiser for the Militant throughout the 1980s, brings this unique history up to date.

The Longman Companion to the Labour Party, 1900-1998 Harry Harmer, 2014-09-25. A timely reference guide to the Labour Party which brings together the essential facts and figures about the Party since its foundation through to the New Labour of the 1990s. It is the essential reference book.

for anyone wanting reliable information on the Labour Party **Conversations with Trotsky** Bruce Nesbitt, 2017-05-09 This collection presents all of Earle Birney's known published and unpublished writings on Trotsky and Trotskyism for the very first time. It includes their correspondence as well as a selection of Birney's letters and literary writings. Before he became one of Canada's most influential and popular twentieth-century poets, Earle Birney lived a double life. To his students and colleagues, he was an engaging university lecturer and scholar. But for seven years, from 1933 to 1940, the great Russian revolutionary Leon Trotsky was the focus of his writing and much of his life. During his years as a Trotskyist in Canada, the United States, and England, Birney wrote extensively about Trotsky, corresponded with him, organized Trotskyist cells in two countries, and recruited on behalf of Trotskyism; he also lectured on Trotsky and interviewed him over the course of several days. One of his two novels is based on some of these activities. The collection traces the origins of Trotsky's mistrust of the British to his experiences in Canada, shows Birney's influence on a major shift in Trotsky's policy of entrism in British politics, includes the largest body of Trotskyist criticism in Canadian literary history, and demonstrates the need for a radical re-reading of Birney's poetry in light of his Trotskyism.

International Communism and the Communist International, 1919-43 Tim Rees, Andrew Thorpe, 1998 The Communist International was formed in Moscow in 1919 as a factory of world revolution but was dissolved in 1943 without having led a single successful working-class uprising. This book offers a reappraisal of the body.

Internationalism in the Labour Movement 1830-1940 Holthoon, Marcel van der Linden, 2025-02-10

The Twilight of World Trotskyism John Kelly, 2022-10-28 The Twilight of World Trotskyism analyzes the reasons behind the historic failure of the Trotskyist movement around the world. The book begins this assessment by briefly recapitulating the origins of Trotskyism as a political current within the communist movement and elaborating its major elements before describing the historical development of Trotskyism in the four countries where it has sunk the deepest roots and which house the clear majority of the world's Fourth Internationals: Argentina, Britain, France, and the USA. It then proceeds to map the current state of the global Trotskyist movement. Whatever their current size and status, Trotskyist organizations aspire to become mass political parties and lead revolutionary seizures of power. It is therefore appropriate to examine them through the metrics applied to mainstream parties: namely, organization, membership, and political influence. The author looks at the dynamics of the Trotskyist movement, focusing in particular on the supposedly harmful effects of the communist movement before then turning to examine the role of Trotskyist organizations in the many revolutionary situations that have appeared since the 1920s and in the various cycles of protest that have occurred in the latter half of the 20th century and the early years of the 21st century. The final section examines the two success stories frequently cited in Trotskyist literature: namely, the cases of Bolivia and Sri Lanka. The book concludes by setting out and examining a wide variety of explanations for the chronic and sustained weaknesses of the Trotskyist movement, including its flawed appraisals of contemporary politics and economics, ultra-radical programmes and policies, failures in understanding

the dynamics of protest and the baleful legacy of Soviet communism It is argued that these weaknesses are rooted in Trotskyist doctrine and are therefore integral not peripheral features of world Trotskyism This volume will be essential reading for activists and scholars interested in the transnational history and politics of the radical left

The Political Trajectory of J.T. Murphy Ralph Darlington, 1998-01-01 J T Murphy was one of the most important worker intellectual figures of early twentieth century British labor history Using completely new and previously unpublished material from the British Communist Party 2s archives and the Russian Centre for the Preservation and Study of Recent History in Moscow this book not only tells the fascinating story of Murphy 2s political trajectory but also provides a critical re examination of the historical and social significance of the early British revolutionary movement in which he played such a prominent role Darlington adeptly details the formation and intricacies of Murphy 2s political thought and rightly acknowledges Murphy 2s contribution to the British Labour movement Labour History Review

Encyclopedia of British and Irish Political Organizations Peter Barberis, John McHugh, Mike Tyldesley, 2000-01-01 This major authoritative reference work embraces the spectrum of organized political activity in the British Isles It includes over 2 500 organizations in 1 700 separate entries Arrangement is in 20 main subject sections covering the three main p

The Communist Party of Great Britain Since 1920 J. Eaden, D. Renton, 2002-05-10 A new single volume history of the Communist Party of Great Britain examining the party from its foundations in 1920 to its demise in the early 1990s Drawing on original research and a reading of specialist texts the authors analyze the rise and fall of the party and evaluate its role on the left of British politics Whilst sympathetic to the ideals and commitment of many British communist activists the book is sharply critical of much of the actual practice of the party

The Radical Left in Britain James Jupp, 2005-07-27 This title available in eBook format Click here for more information Visit our eBookstore at www.ebookstore.tandf.co.uk

Contemporary Trotskyism John Kelly, 2018-03-14 Almost 80 years after Leon Trotsky founded the Fourth International there are now Trotskyist organizations in 57 countries including most of Western Europe and Latin America Yet no Trotskyist group has ever led a revolution or built an enduring mass political party Contemporary Trotskyism looks in detail at the influence resilience and weaknesses of the British Trotskyist movement from the 1970s to the present day The book argues that to understand and explain the development resilience and influence of Trotskyist groups we need to analyse them as bodies that comprise elements of three types of organization the political party the sect and the social movement It is the properties of these three facets of organization and the interplay between them that gives rise to the most characteristic features of the Trotskyist movement frenetic activity rampant divisions inter organizational hostility authoritarian and charismatic leadership high membership turnover and ideological rigidity Trotskyist groups have been involved in a wide range of important social movements including trade unions student unions anti war anti racist and anti fascist groups While their energy and activity in civil society have had some success their influence has never been reflected in votes or seats at elections even after the financial crisis Drawing on

extensive archival research as well as interviews with many of the leading protagonists and activists within the Trotskyist milieu this is essential reading for students activists and researchers with an interest in the far left social movements and contemporary British political history **The Popular Front and the Progressive Tradition** David Blaazer,2002-08-22 This book is an in depth exploration of the Popular Front and United Front campaigns in Britain in the late 1930s Dr Blaazer aims to dispel the myth that these campaigns can be understood largely as a ruse engineered by the Communists into which non Communists were blindly drawn Instead he searches for the idea of progressive unity in earlier episodes in the history of the British progressive tradition By re assessing the significance of these episodes and by reconsidering the role of seminal progressive thinkers he shows that the relationships between liberals and socialists reformists and revolutionaries had long been both intimate and fluid Indeed the reasons and assumptions behind individual decisions to support the struggle for progressive unity show that the Popular Front was a reasoned and culturally familiar response to a major political crisis

Dictionary of Labour Biography K. Gildart,D. Howell,N. Kirk,2016-04-29 Volume XI of the Dictionary of Labour Biography maintains the strengths of earlier contributions to this well established and authoritative series It incorporates many scholarly and original studies of Labour movement figures from a variety of periods and backgrounds together with special notes on related and neglected topics Volume XI pays particular attention to the role and contributions of women and the multi nationality of the British Labour movement Each entry is accompanied by a thorough bibliography and incorporates the most recent historical scholarship in the field
