San Diego's Hysterical History Herbert Lockwood, 2003 Readers will enjoy these tales of eccentric kooks and the many other oddball men and women whose antics made San Diego the superior attraction it is today *Skeleton's Closet* Herbert Lockwood, 1967 **Skeletons in Our Closet** Clark Spencer Larsen, 2020-09-01 The dead tell no tales Or do they In this fascinating book Clark Spencer Larsen shows that the dead can speak to us about their lives and ours through the remarkable insights of bioarchaeology which reconstructs the lives and lifestyles of past peoples based on the study of skeletal remains The human skeleton is an amazing storehouse of information It records the circumstances of our growth and development as reflected in factors such as disease stress diet nutrition climate activity and injury Bioarchaeologists by combining the methods of forensic science and archaeology along with the resources of many other disciplines including chemistry geology physics and biology read the information stored in bones to understand what life was really like for our human ancestors They are unearthing some surprises For instance the shift from hunting and gathering to agriculture approximately 10 000 years ago has commonly been seen as a major advancement in the course of human evolution However as Larsen provocatively shows this change may not have been so positive Compared to their hunter gatherer ancestors many early farmers suffered more disease had to work harder and endured a poorer quality of life due to poorer diets and more marginal living conditions Moreover the past 10 000 years have seen dramatic changes in the human physiognomy as a result of alterations in our diet and lifestyle Some modern health problems including obesity and chronic disease may also have their roots in these earlier changes Drawing on vivid accounts from his own experiences as a bioarchaeologist Larsen guides us through some of the key developments in recent human evolution including the adoption of agriculture the arrival of Europeans in the Americas and the biological consequences of this contact and the settlement of the American West in the eighteenth and nineteenth centuries Written in a lively and engaging manner this book is for anyone interested in what the dead have to tell us about the living *Empire Builder* Sandra E. Born a Slave, Died a Pioneer Seth Mallios, 2019-11-01 Spectacular recent discoveries from the Nathan Harrison cabin site offer new insights and perspectives into the life of this former slave and legendary California homesteader. In many ways it is a quintessential American story because of the fact that slavery was the American story. Julia A. King, St. Mary's College of Maryland. Few people in the history of the United States embody ideals of the American Dream more than Nathan Harrison. His is a story with prominent themes of overcoming staggering obstacles, forging something from nothing, and evincing gritty perseverance. In a lifetime of hard won progress, Harrison survived the horrors of slavery in the Antebellum South, endured the mania of the California Gold Rush, and prospered in the rugged chaos of the Wild West. From the introduction, according to dozens of accounts, Harrison would routinely greet visitors to his remote Southern California hillside property with the introductory quip, "I'm Nate, the first white man on the mountain." This is by far the most common direct quote in all of the extensive Harrison lore. If it is possible to get past current day shock and outrage over the inflammatory racial epithet, one can begin to contextualize and appreciate the ironic humor, ethnic insight, and dualistically crafted identities Harrison employed in this profound statement.

This fully revised second edition expands the geographic representation of the first edition by including chapters from practitioners in South Africa and Colombia and adds exciting new chapters on the International Commission on Missing Persons and on forensic work being done to identify victims of the Battle of Fromelles during World War I.
