## **Social Decay And Transformation A View From The Left:**

*Social Decay and Transformation* Samuel Farber, 2000-01-01 In *Social Decay and Transformation* social and political critic Samuel Farber presents an analysis of social decline that has been missing from the contemporary scene a view from the Left one which draws from the ideas and traditions of the Enlightenment's left wing Using a comparative approach to situate his theoretical conclusions in historical circumstances Farber looks at the working class and temperance movements civil rights rebellions and the Black Panthers and the cultural revolutions of 1920s Russia and the Bolsheviks Providing carefully reasoned interrogations of contemporary thinkers such as James C Scott and Robin D G Kelley Farber clarifies the discussions on social decay currently taking place adding an important voice of the Left to the current debate

*Ethics and Social Survival* Milton Fisk, 2016-05-20 When speaking of society's role in ethics one tends to think of society as regimenting people through its customs *Ethics and Social Survival* rejects theories that treat ethics as having justification within itself and contends that ethics can have a grip on humans only if it serves their deep seated need to live together It takes a social survival view of ethical life and its norms by arguing that ethics looks to society not for regimentation by customs but rather for the viability of society Fisk traces this theme through the work of various philosophers and builds a consideration of social divisions to show how rationalists fail to realize their aim of justifying ethical norms across divisions The book also explores the relation of power and authority to ethics without simply dismissing them as impediments and explains how personal values such as honesty modesty and self esteem still retain ethical importance Finally it shows that basing ethics on avoiding social collapse helps support familiar norms of liberty justice and democracy and strives to connect global and local ethics

*The Cultural Memory of Africa in African American and Black British Fiction, 1970-2000* Leila Kamali, 2016-12-10 This book offers a new approach to reading the cultural memory of Africa in African American fiction from the post Civil Rights era and in Black British fiction emerging in the wake of Thatcherism The critical period between the decline of the Civil Rights Movement and the dawn of the twenty first century saw a deep contrast in the distinctive narrative approaches displayed by diverse African diaspora literatures in negotiating the crisis of representing the past Through a series of close readings of literary fiction this work examines how the cultural memory of Africa is employed in diverse and specific negotiations of narrative time in order to engage and shape contemporary identity and citizenship By addressing the practice of remembering Africa the book argues for the signal importance of the African diaspora s literary interventions and locates new paradigms for cultural identity in contemporary times

Cuba Since the Revolution of 1959 Samuel Farber, 2011 Uncritically lauded by the left and impulsively denounced by the right the Cuban Revolution is almost universally viewed one dimensionally Farber one of its most informed left wing critics provides a much needed critical assessment of the revolution s impact and legacy

**Ernst Fischer and the Left Opposition in Austrian Social Democracy** Anson Rabinbach, 1973 **Children in Moral Danger and the Problem of Government in Third Republic France** Sylvia Schafer, 2015-03-08 By exploring how children and their families became unprecedented objects of governmental policy in the early decades of France s Third Republic Sylvia Schafer offers a fresh perspective on the self fashioning of a new governmental order In the aftermath of the Franco Prussian War social reformers claimed that children were increasingly the victims of their parents immorality Schafer examines how government officials codified these claims in the period between 1871 and 1914 and made the moral status of the family the focus of new kinds of legislative juridical and administrative action Although the debate on moral danger in the family helped to articulate the young republic s claim to moral authority in the metaphors of parenthood the definition of moral endangerment remained ambiguous Schafer shows how public authorities reshaped their agenda and varied their remedies as their schemes for

protecting morally endangered children broke down under the enduring weight of this ambiguity Drawing on insights from feminist theory literary studies and the work of Michel Foucault Schafer reveals the cultural complexity of civil justice and social administration in both their formal and everyday incarnations In demonstrating the centrality of ambivalence as a condition of liberal government and governmental representations she fundamentally recasts the history of the early Third Republic and more widely issues a powerful challenge to conventional views of the modern state and its history Originally published in 1997 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

**Choice** ,2000      **Modernism from Right to Left** Alan Filreis,1994-07-29 A study of relations between American radicalism and modernism in the 1930s focusing on Wallace Stevens      Potentiating Health and the Crisis of the Immune System S. Fulder,A. Mizrahi,N. Sheinman,2013-06-29 With all the enormous resources that are invested in medicine it is sometimes a mystery why there is so much sickness still in evidence Our life span though higher than at any time in history has now leveled off and has not significantly increased in the last two generations There is a one third increase in long term illness in the last 20 years and a 44% increase in cancer incidence which are not related to demographic issues In some modern countries the level of morbidity defined as days off work because of sickness has increased by two thirds in this time Despite 1 trillion spent on cancer research in 20 years the War On Cancer has recently been pronounced a complete failure by the u s President s Cancer Panel Evidently we still have a long way to go The goal of Health for All by the Year 2000 as the World Health Organization has put it is another forgotten dream As ever the answer will be found in breaking out of the old philosophical patterns and discovering the new as yet unacceptable concepts The problems of medicine today require a Kuhnian breakthrough into new paradigms and new ways of thinking And these new ways will not be mere variations of the old but radical departures This book and the conference upon which it was based is part of a search for these new pathways

European integration has been immersed in a deep economic and institutional crisis for more than a decade. This difficult situation is also threatening to erode one of its most original and valuable elements: the establishment of a supranational rule of law among the Member States of the European Union that provides a solid framework for their peaceful, ordered and fair relations. This book, which is based on the general course given at the Academy of European Law in Florence in July 2015, puts the innovative initial choices made by the drafters of the Treaties and by the Court of Justice of the Union in their proper historical perspective, understanding Union law as a tool of civilisation. Its current decline is explained as a consequence of the waning of the initial impetus behind integration, of the growing complexity and challenges of the Union system and of the ambivalent attitude of the Member States regarding their common creation. These themes are explored, focusing on a number of fundamental structural issues: the principle of primacy, the national limits to it and the theory of constitutional pluralism; the state of health of the preliminary rulings procedure; Union citizenship, equality and human dignity; the scope of the Charter of Fundamental Rights and the standard of protection of those rights; and the rigidity and fragmentation of the Union system in connection with the increasing use of international law as a softer alternative to Union law. In all these areas, the book presents a fascinating story of decay and resistance, a story that is unfolding at present and whose fate is closely linked to the future political shape of Europe.
