as well as the challenges and pitfalls of social work one of the fastest growing professions in East Asia *Health Care Systems in Developing Countries in Asia* Christian Aspalter, Kenny Teguh Pribadi, Robin Gauld, 2017-07-14 For the last two decades major Asian economies have successfully kept their economic growth momentum going Now as these economies are entering a new phase of economic growth more attention is being paid to their respective states of social development especially the provision and the expansion of social security and in particular health care Academic study of the development of health care in developing countries has been for the most part neglected by the literature and in depth country case studies that are directly comparable on a one to one basis have not yet been conducted in a systematic manner This book volume also proposes a new stance on health policy and the health care policy paradigm one that focuses on saving lives from premature death as well as illness accidents misery and poverty based on the normative theory of developmental social policy DSP This groundbreaking book will therefore serve as a valuable reference volume for health policy social policy and public policy experts social development experts health and development economists health sociologists social workers government administrators as well as other medical and health professionals and academics
