**Worldviews, Science And Us: Redemarcating Knowledge And Its Social And Ethical Implications** Diederik Aerts,Nicole Note,Bart D'hooghe,2005-07-18 This publication features an interdisciplinary group of contributors which questions aspects of today s worldviews and science that are often taken for granted and tacitly determine the boundaries of what is generally conceived of as the world and science Some authors stress that existing demarcations are obsolete and often prevent new insights Others show how they influence the way people perceive themselves and believe the world ontologically to be determining people s actions and the social fabric There are yet others who point out how a redemarcation may stimulate the development of knowledge acquisition and social well being Examples of how bridging knowledge between different fields leads to new crucial insights while identifying the pattern of too strict a demarcation preventing such insights are also analyzed in this volume *Applied Social Science Research in a Regional Knowledge System* Hans Christian Garman Johnsen,Elisabet S. Hauge,May-Linda Magnussen,Richard Ennals,2016-10-04 This book illustrates how applied social scientists and their research are integrated with stakeholders and practitioners in a local regional setting and how knowledge development is a mutual concern made in and dependent on ongoing dialogue Focusing on the Agder region the southernmost region in Norway researchers and contributors question what impact the changing economic environment will have on applied researchers around the world Applied research is seen as a vital part of the infrastructure for economic and social development in the Agder region and beyond The chapters are divided into four parts the spatial dimension of knowledge development understanding regional practice explaining regional practice influencing regional social practice A useful resource for both policy makers and researchers the book helps readers reflect on the type of mutual competence building that applied social science research implies and depends on in a regional knowledge development process It represents a voice on how to understand the development of the knowledge society at regional and global levels **Knowledge Horizons** Charles Despres,Daniele Chauvel,2012-05-23 Knowledge Horizons charts the feasible future for knowledge management This practical and provocative resource presents the work of many of the leading voices in knowledge management and related disciplines who explore the current trends and offer pragmatic and authoritative thinking on applied knowledge management from a variety of positions Knowledge management is the new frontier for businesses organizations and institutions of all kinds For those that hope to conquer this new territory establishing a better understanding of current and future knowledge management trends and adoption of the most effective practices is imperative There are numerous options for executives intranets extranets groupware and core competencies are continually being refined New entities and rules in terms of intellectual capital and the Chief Knowledge Officer are emerging Knowledge Horizons addresses these issues by exploring current and future knowledge management trends gauging the future value of knowledge management investments and how they will drive new business initiatives and integrates the experience and

insights of managers and cutting edge research from experts in the field      *Everyday Knowledge, Education and Sustainable Futures* Margaret Robertson, Po Keung Eric Tsang, 2016-06-01 Everyday knowledge offers opportunities for better understanding of significant issues of our times Reflecting these themes this book places emphasis on community wisdom The underpinning argument is that our instinctive urge for survival may not be enough if we do not share our collective knowledge and learn more about the everyday habits beliefs and actions of communities spread across the region Contributions from researchers active within local communities help build knowledge capacity and support for collaborative research      *Transforming Theological Knowledge* Rian Venter, Francois Tolmie, 2012-01-01 A number of outstanding public intellectuals such as Jonathan Jansen Crain Soudien and Lis Lange have been invited to present papers to clarify the conceptual challenge and what this might entail for theology Well known theologians such as Conrad Wethmar Allan Boesak and Martin Prozesky reflect on the nature of theology and religion at universities amidst social exigencies Two international theologians Harold Attridge from the prestigious Yale Divinity School and Bram van de Beek from the Free University of Amsterdam share their experiences of institutions that exemplify excellence and ecumenical openness      **Knowledge and Society** Talcott Parsons, 1968      Encyclopedia of Knowledge Management Schwartz, David, 2005-09-30 This encyclopedia is a research reference work documenting the past present and possible future directions of knowledge management Provided by publisher      *New Horizons for Policy Practice* Richard Hoefer, 2013-09-13 This book provides fresh perspectives on the state of policy practice Leading scholars explore such vital conceptual topics such as how to impact social justice what the strengths based perspective means to policy practitioners and how to bridge the all too common gap between community organizing and direct practice in social work Other esteemed academics address topics including how to use technology to impact social justice what the impacts of the recent changes in the United States Supreme Court will be how to conceptualize the impact of ex prisoners re entry into society and how to better include marginalized populations in the policy practice The volume closes with two pieces relating to students using service learning to increase knowledge of macro interventions and integrating social capital analysis into policy practice Each topic is thoroughly covered by experts using the latest scholarly material available The reader will come away with a new perspective on the many areas where social work is involved needed and effective in making positive change in the world This book was published as a special issue of the Journal of Policy Practice      The Global and the Local Arndt Sorge, 2005-03-17 there is no lack of ambition in this book And yet unlike much of what today comes as sociology it is fun to read written in a way that combines the very abstract and the very concrete the principles of general theories and the anecdotes of specific histories in ways that are enlightening and entertaining at the same time Those who take the book to heart will find themselves in possession of a language that can speak about globalization in a non sensationalist manner without however in any way detracting from its significance in fact quite to the contrary They will much better and more systematically understand the lasting significance of the local in a

world whose horizons of action are expanding From the Foreword by Wolfgang Streeck Max Planck Institute for the Study of Societies Cologne The rhetoric of internationalization and globalization often suggests an inexorable move away from domestic cultural and institutional differences Yet the development of internationalization within individual nations has been shaped by those very domestic institutions and cultures as best practice or other kinds of international learning have been translated into established practice and knowledge In this important study Arndt Sorge presents a sociological theory of the development of human societies to explain how business systems evolve and change and how internationalization works to specify and change societal identities within nations Examining changes in work organization corporate governance and human resources Sorge shows how this interaction is a pattern that has been followed over centuries Indeed amongst the cases Sorge presents he concentrates on the example of Germany a supposedly highly homogeneous and closed society as evidence for the universality of shifting borders expanding horizons local adoption and adaptation of global practices and the hybridization of systems and standards as the normal course of social evolution Arndt Sorge s analysis of globalization combines rigorous theoretical reasoning with empirically grounded analysis and deliberately adopts a general social science approach drawing on research from Business and Management Studies Sociology Political Science and History

**ECIC2016-Proceedings of the 8th European Conference on Intellectual Capital** Carlo Bagnoli, Chiara Mio, Andrea Garlatti and Maurizio Massaro,2016-04-21 *Maori and Pasifika Higher Education Horizons* Clark Tuagalu,Fiona Cram,Hazel Phillips,Pale Sauni,2014-04-07 Rarely have Pasifika writers come together to share their experiences in this field Focusing on the past current and future status and success of Maori and Pasifika peoples in tertiary education within Aotearoa New Zealand this volume covers diverse issues from the countries colonial history to student engagement with new technology **Biotechnology in the Public Sphere** Martin W. Bauer,John Durant,George Gaskell,1998 A comprehensive assessment of European public opinion and biotechnology It brings together comparative research on policy making media coverage and public perceptions This book is the major output from a three year research initiative undertaken by an international multidisciplinary team of social scientists Following an introductory conceptualisation of biotechnology in the public sphere Part Two brings together information on the policy activity media coverage and public perceptions of biotechnology in European countries Part Three is a detailed analysis of a major European survey of public perceptions Part Four brings together the three elements of the research and provides a synthetic overview of the development of public perceptions of biotechnology in Europe The Sociology of Knowledge in a Time of Crisis Onofrio Romano,2014-06-27 The speed of social dynamics has overtaken the speed of thought Adopting a dialectical perspective towards reality social theory has always detected faults in the dominant social pattern foreseeing crises and outlining in advance the features of new social models Thought has always moved faster than reality and its ruling models ensuring a dynamic equilibrium during modernity Despite any dramatic social crisis theory has always provided exit routes The tragedy of current crisis lies in the

fact that its social implications are exasperated by the absence of alternative views This book identifies the causes of this mismatch between thought and reality and illustrates a way out      **Segregation and Singularity** Peter Stewart,2021-11-15 As a political sociology of whites in the last years of apartheid in South Africa this book provides an analysis of the social origins and social context of political attitudes among a sample of middle class English speaking whites in selected suburbs in the city of Johannesburg Gauteng Province It reveals that such attitudes emanated in the context of acute and continuing political polarisation principally between black and white in the twilight of apartheid and before the first democratic elections The book adds another dimension to the interpretation of class dynamics in the study of apartheid South Africa In contrast to other studies that have concentrated on the working class and on very restricted political and economic elites which gives an incomplete picture of class dynamics this book considers the impact of the middle classes in shaping the history of apartheid South Africa      **Classical Horizons** George E. McCarthy,2012-02-01 2003 CHOICE Outstanding Academic Title This work relocates the origins of nineteenth century social theory in classical Greece and focuses on three figures Karl Marx Max Weber and mile Durkheim all of whom wrote dissertations on the culture and structure of ancient society Greek philosophy art and politics inspired their ideas stirred their imaginations and defined their intellectual horizons McCarthy rediscovers the forgotten dreams and classical horizons of these European social theorists and uncovers the close connections between sociology and philosophy offering new insights into the methods theories and approaches of modern social science      **New Horizons in Sociological Theory and Research** Luigi Tomasi,2020-07-24 This title was first published in 2001 This book tackles the important issue of the tasks that confront sociology in the third millennium It examines the sociological interpretations of the World Wide revolution which amid unprecedented scientific and technological progress and the globalization of markets has generated new inequalities poverty structural unemployment and mass conditionings A number of the most distinguished living sociologists including Boudon Beck Eisenstadt Tiryakain Wieviorka furnish profound and innovative interpretations of changes in world society while outlining the frontiers of sociological research for the 21st Century The contributions to the book not only prompt reflection on the structure and organization of sociological research but also revitalize sociological inquiry by conducting original and stimulating analysis of theoretical and methodological issues an undertaking essential for the survival of the discipline itself      Constructivism and International Relations Stefano Guzzini,Anna Leander,2005-12-12 This book addresses both Wendt s social theory and international relations theory exploring a variety of constructivist debates without reducing constructivism to one single position      *Making Sense of Teaching in Difficult Times* Penny Burke,Suellen Shay,2017-10-02 Thinking about teaching in educational terms has become increasingly difficult because of the conceptions of higher education that predominate in both policy and public debate Framing the benefits of higher education simply as an economic good poses particular difficulties for making educational sense of teaching Moreover the assumptions about social mobility usefulness and the economic advantages of higher

education upon which these conceptions are based can no longer be taken for granted The chapters in this book all wrestle with understandings of education and teaching experiences in changing global national and institutional contexts They explore questions of difference and privilege the social transformation of teaching through transforming teachers contestations of global citizenship and interculturality learning and sensibilities of self in the world the relationship between programme content and student decision making divergent conceptions of learning in international education and subject centred approaches to embodied teaching The book considers the value of disciplinary tools of analysis in addressing contextual challenges in developing societies connections between pedagogies autonomy and intercultural classrooms and ways of countering the marketization of higher education through online teaching communities This book was originally published as a special issue of Teaching in Higher Education
