Reading(s) / across / Borders ,2020-03-23 This collection emphasizes a cross disciplinary approach to the relevance of borders and bordering as a spatial paradigm in Anglophone studies It sets out to provide a critical counter narrative to the 1990s globalization argument of a borderless world by insisting on the significant roles borders play The essays range in subject matter from geography history British and American literature to painting and Reggae music and map out different conceptualisations of the border place line process contact zones etc The volume s cross border narrative serves as a point of communication between the local and the global between Europe and America between different literary and artistic genres thus challenging the divides of geography and literature between real territorial borders and their fictional counterparts

Curriculum Renewal for Islamic Education Nadeem A. Memon,Mariam Alhashmi,Mohamad Abdalla,2021-05-10 This book demonstrates why and how it is necessary to redesign Islamic Education curriculum in the K 12 sector globally From Western public schools that integrate Muslim perspectives to be culturally responsive to public and private schools in Muslim minority and majority contexts that teach Islamic studies as a core subject or teach from an Islamic perspective the volume highlights the unique global and sociocultural contexts that support the disparate trajectories of Islamic Education curricula Divided into three distinct parts the text discusses current Islamic education curricula and considers new areas for inclusion as part of a general renewal effort that includes developing curricula from an Islamic worldview and the current aspirations of Islamic education globally By providing insights on key concepts related to teaching Islam case studies of curriculum achievements and pitfalls and suggested processes and pillars for curriculum development contributors present possibilities for researchers and educators to think about teaching Islam differently This text will benefit researchers doctoral students and academics in the fields of secondary education Islamic education and curriculum studies Those interested in religious education as well as the sociology and theory of religion more broadly will also enjoy this volume **Applied Linguistics**

Made Easy Sitara Nambeesan, 2025-01-03 Applied Linguistics Made Easy was written to spread knowledge about language and applied linguistics In our daily lives we strive to achieve our goals and our greatest asset is our pursuit of knowledge and wisdom This book provides essential insights into the communication barriers we face and offers practical solutions to overcome them and excel If you encounter communication challenges at work or in personal relationships and want to improve this book is the right choice It is also a great resource for university students needing a quick revision as it is straightforward easy to understand and fact based In this book you will learn about language usage mastering new languages developing international relations and enhancing communication skills We also explore the cultural backgrounds and origins of various languages Additionally this book helps you determine if you want to major in applied linguistics and pursue a career in the field highlighting its scope and opportunities

Conceptualising Comparative Politics Anthony Petros Spanakos, Francisco Panizza, 2015-07-16 Comparative politics often involves testing of hypotheses using new methodological approaches without giving sufficient attention to the concepts which are fundamental to hypotheses particularly the ability of these concepts to travel Proper operationalising requires deep reflection on the concept not simply establishing how it should be measured *Conceptualising Comparative Politics* the flagship book of Routledge's series of the same name breaks new ground by emphasising the role of thoroughly thinking through concepts and deep familiarity with the case that inform the conceptual reflection In this thought provoking book established academics as well as emerging scholars in the field collect and invite scholarship in the tradition of conceptual comparative politics The book posits that concepts may be used comparatively as lenses building blocks and scripts and contributors show how these conceptual tools can be employed in original comparative research Importantly contributors to *Conceptualising Comparative Politics* do not simply use concepts in one of these three ways but they apply them with careful consideration of empirical variation The chapters included in this volume address some of the most contentious issues in comparative politics populism state capacity governance institutions elections secularism among others from various geographic regions and model how scholars doing comparative politics might approach such subjects Concepts make possible scholarly conversations including creative confrontations across paradigms *Conceptualising Comparative Politics* will challenge you to think of how to engage in conceptual comparative inquiry and how to use various methodologically sound techniques to understand and explain comparative politics

Resources in Education, 1999-04 Identifying and addressing the impact of exposure to maltreatment and experience in children and child serving systems of care Melissa Kimber, Wynne Morgan, Jeanette Scheid, 2024-04-29

Turn Down the Heat A Report for the World Bank by the Potsdam Institute for Climate Impact Research and Analytics., 2013-06-19 This report focuses on the risks of climate change to development in Sub Saharan Africa South East Asia and South Asia Building on the 2012 report Turn Down the Heat Why a 4 C Warmer World Must be Avoided this new scientific analysis examines the likely impacts of present day 2 C and 4 C warming on agricultural production water

resources and coastal vulnerability It finds many significant climate and development impacts are already being felt in some regions and that as warming increases from present day 0.8 C to 2 C and 4 C multiple threats of increasing extreme heat waves sea level rise more severe storms droughts and floods are expected to have further severe negative implications for the poorest and most vulnerable The report finds that agricultural yields will be affected across the three regions with repercussions for food security economic growth and poverty reduction In addition urban areas have been identified as new clusters of vulnerability with urban dwellers particularly the urban poor facing significant vulnerability to climate change In Sub Saharan Africa under 3 C global warming savannas are projected to decrease from their current levels to approximately one seventh of total land area and threaten pastoral livelihoods Under 4 C warming total hyper arid and arid areas are projected to expand by 10 percent In South East Asia under 2 C warming heat extremes that are virtually absent today would cover nearly 60-70 percent of total land area in northern hemisphere summer adversely impacting ecosystems Under 4 C warming rural populations would face mounting pressures from sea level rise increased tropical cyclone intensity storm surges saltwater intrusions and loss of marine ecosystem services In South Asia the potential sudden onset of disturbances to the monsoon system and rising peak temperatures would put water and food resources at severe risk Well before 2 C warming occurs substantial reductions in the frequency of low snow years is projected to cause substantial reductions in dry season flow threatening agriculture Many of the worst climate impacts could still be avoided by holding warming below 2 C but the window for action is closing rapidly Urgent action is also needed to build resilience to a rapidly warming world that will pose significant risks to agriculture water resources coastal infrastructure and human health

The Value of Work since the 18th Century Massimo Asta, Pedro Ramos Pinto, 2023-07-27 Beginning in the 18th century a turning point in labour history as work encountered an industrialising modernity this book explores how different forms of work have been valued up to the present day Focusing on the cultural intellectual social and political implications of wages the chapters in this collection historicise the labour market conceiving it as complex system of social relations which evolve through time and differ according to space They show how the level of wages and other forms of remuneration reflect not only marginal productivity and scarcity but also the nature of work relations and wider political social and economic circumstances With examples ranging across several centuries and different parts of the globe it shows how wages are influenced by the specific organization and processes of work conflict and power social status and hierarchies between workers custom and identity family structure and professional ethics ideology politics and policy Combining quantitative and qualitative approaches *The Value of Work since the 18th Century* also addresses two interlinked questions how did theoretical interpretations and techniques of wage measurement emerge and evolve and to what extent does this matter in understanding the social and political history of work
