The Child's World Jan Horwath, 2009-09-15 This new and updated edition of the best selling book on assessing children in need and their families integrates practice policy and theory to produce a comprehensive and multidisciplinary guide to all aspects of assessment. The Child's World not only provides an explanation of the Framework for the Assessment of Children in Need and their Families but also offers a wealth of information on how to use it sensitively and effectively. The Child's World explores the implications of recent legislation including the Children Act 2004 and national guidance for assessment practice. The contributors have drawn on the latest research, best practice and lessons learnt over the past decade of Framework implementation to equip practitioners from different disciplines to identify the developmental needs of children, assess parental capacity and evaluate the impact of family economic and environmental factors on the carer's ability to meet the needs of the child. This book is essential reading for all practitioners, managers, trainers and educators in children's and adult services who use the Framework and will also be a valued source of knowledge and guidance for those assessing children's needs in legislative contexts outside of England.

Anti-Oppressive Practice Jane Dalrymple, Beverley Burke, 2006-12-16 Praise for the new edition: This revised text should be read by all practitioners in health and social care settings who support people with complex needs and who aim to promote anti-oppressive and person-centred practice. A variety of activities is presented in each chapter to stimulate readers to reflect on the cases and concepts under discussion. This text represents a valuable companion for professionals involved in learning disability practice. Learning Disability Practice: This new edition proves to be a substantial updating of the 1995 edition. The coverage is analytical and clearly related to anti-oppressive practice. It is important to persuade students of the necessity of action to put their values into practice; this book is a real boon and should be required reading up and down the country. Mark Baldwin, University of Bath. In the new edition of this bestselling text, the authors challenge the notion that anti-oppressive practice has lost its potency or become commodified into a professional response to inequalities. Retaining a commitment to the principles and values of anti-oppressive practice, discussion about contemporary practice is guided by a critical understanding of personal values and the context of practice. Some key questions are explored: How is anti-oppressive practice relevant in contemporary practice? How can the law be used as an empowering tool? How can the law be used to develop and inform anti-oppressive practice? The second edition is substantially revised and updated to take account of policy and legislative changes, with a new chapter addressing critical practice in social work as well as additional activities, chapter summaries and further reading at the end of each chapter. The authors draw on their own experiences and those of practitioners, service users and carers to understand

issues of power and oppression demonstrating how the law can be used to inform the development of critical anti oppressive practice The book therefore points the way to practice that is both empowering to service users and ultimately liberating for practitioners Anti Oppressive Practice is an essential text for students practitioners lecturers service users and carers
