Practicing Social Work in Deprived Communities Ana Opačić, 2021-04-12 This contributed volume offers a holistic understanding of social work practice in deprived communities through its thematization of understanding deprived communities globally the development of competencies for social work practice in and with deprived communities social work education as a community development tool and the empowerment of social workers in deprived communities Inequality as a globally recognized challenge is extensively elaborated within the UN Sustainable Development Goals SDGs and the Global Agenda program for social work making this a timely and important contribution to the literature Deprived communities used in this book to mean slums ghettos favelas and low income remote underserved vulnerable impoverished underdeveloped disadvantaged or less favoured communities exist worldwide and are conceptualized under different terms and concepts For that reason social work specifically in deprived areas is not

sufficiently recognized as a specific field of practice within community work. As a result, this volume features contributions that provide a conceptual clarification of many different terms that are used for describing deprived communities and offer a systematic literature review on community processes and effects on well-being in underdeveloped communities, map different fields of social work involvement in deprived communities with concrete practice examples, and stress why social work as a profession needs support and how it can be empowered to improve its capacities in deprived communities. With international authorship and perspectives on social work approaches for deprived communities from India, Sub-Saharan Africa, North and Central Europe, and North America, *Practicing Social Work in Deprived Communities* is an essential resource for social workers, social work educators, and community development practitioners. The text also should be of interest to students of social work as well as other professionals and researchers working within community development and deprived communities. *Social Work Practice with Families and Children* Anthony Maluccio, Barbara Pine, Elizabeth M.

Tracy, 2002-09-11 This book emphasizes family-centered social network and school-based interventions in the preparation of social workers for direct and indirect practice with clients from vulnerable populations, especially the poor people of color and recent immigrant groups. With an eye to recent changes in social work practice and service delivery, including the impact of welfare reform and managed care on vulnerable families and children, *Social Work Practice with Families and Children* helps social work students and practitioners understand the increasingly complex needs of their clients. Three valuable appendixes include information about tools and instruments to support practice, child welfare resource centers, and electronic resources pertaining to the field. **An Empowering Approach to Managing Social Service Organizations** Donna
