The Last Shaman Andrew Gray,2003-08-01 The Arakmbut are an indigenous people who live in the Madre de Dios region of the southeastern Peruvian rain forest Since their first encounters with missionaries in the 1950s they have shown resilience and a determination to affirm their identity in the face of many difficulties During the last fifteen years Arakmbut survival has been under threat from a goldrush that has attracted hundreds of colonists onto their territories This trilogy of books traces the ways in which the Arakmbut overcome the dangers that surround them their mythology and cultural strength their social flexibility and their capacity to incorporate non indigenous concepts and activities into their defence strategies Each area is

punctuated by the constant presence of the invisible spirit which provides a seamless theme connecting the books to each other The death of a shaman in 1980 had an enormous spiritual and political consequences for one of the Arakmbut communities resulting in a shift in its social organization from comparative hierarchy to a more egalitarian system The author uses this case as an illustration to challenge the idea that indigenous peoples live in fossilized static worlds He shows that political activities in conjunction with shamanic communication with the spirit world provide the impetus and context for change Journal of Education for Social Work ,2002 Social Work Education Reporter ,1998 **Neoliberalism, Nordic Welfare States and Social Work** Masoud Kamali,Jessica Jönsson,2018-04-17 How have three decades of neoliberalism affected the Nordic welfare states as well as the organisation education and practices of social work in those countries During recent decades the welfare states of Denmark Finland Norway and Sweden have gone through dramatic changes influenced by the political triumph of neoliberalism This has led to both the electoral success of extreme right and mainstream neoliberal parties and to the neoliberal ideological transformations of social democratic parties The neoliberal doctrine of making governance cheaper has thus been made the focus of governance and has led to increased marginalisation and social problems This is the first book to comparatively explore the role of neoliberal reforms on social work and social policy across the Nordic welfare states The richly theoretical and empirical chapters explore and illustrate the consequences of the dominance of neoliberal policies and provide an analysis of the effects of globalisation glocalisation welfare nationalism symbolic violence and forced migration The book provides valuable insights into the shortcomings of retreating welfare states in a time of increasing glocal social problems Neoliberalism Nordic Welfare States and Social Work should be considered essential reading for critical social work education Students scholars educators and researchers of Nordic countries and beyond have much to learn from this book Letting Them Die Catherine Campbell,2003-09 Based on interviews examines the barriers and constraints to prevention programmes carried out in the mining community of Summertown Focuses on the mobilization of sex workers young people and stakeholders
