The Social context of conduct Vernon L. Allen, Theodore R Sarbin, Karl E. Scheibe, 1982 Includes indexes *The Storied Nature of Human Life* Karl E. Scheibe, Frank J. Barrett, 2017-10-23 This book sheds new light on the life and the influence of one of the most significant critical thinkers in psychology of the last century Theodore R Sarbin 1911 2005 In the first section authors provide a comprehensive account of Sarbin s life and career The second section consists in a collection of ten publications from the last two decades of his career The essays cover topics such as the adoption of contextualism as the appropriate world view for psychology the establishment of narrative psychology as a major mode of inquiry and the rejection both mechanism and mentalism as suitable approaches for psychology The book is historically informed and yet focused on the future of psychological theory and practice It will engage researches and scholars in psychology social scientists and philosophers as well general readership interested in exploring Sarbin s theories **Theories of Hypnosis** Steven J.

Lynn, Judith W. Rhue, 1991-10-04 It has been said that hypnosis is a collection of techniques in need of a unifying theory James A Hall Hypnosis A Jungian Perspective While the varied substrates of these techniques preclude the formation of any one theory of hypnosis this volume presents a state of the science view of existing theories of hypnosis Written by eminent scholars and researchers this uniquely authoritative resource also provides a wealth of information about the history of hypnosis clinical and research perspectives on hypnosis and the strengths and weaknesses of empirical methods used to address crucial theoretical questions The streamlined organization of the volume facilitates the reader s ability to contrast and compare research findings and concepts across theories In the introductory chapters the editors describe hypnosis paradigms and schools of thought including major points of convergence and divergence as well as a broad vista of different perspectives on the history of hypnosis The theoretical chapters that follow present definitive statements by an international array of eminent scholars who are at the forefront of conceptual advances in the realms of clinical and experimental hypnosis Their contributions written in lively first person narratives explore current thinking about hypnosis and represent important clinical and research traditions that extend beyond the territory of hypnosis to mainstream psychology Providing a thorough discussion of hypnotic phenomena the book tackles tough questions such as whether hypnosis evokes an altered state of consciousness whether hypnotic behavior is involuntary whether hypnotizability is stable trait like and modifiable and whether hypnotic and non hypnotic behavior can be distinguished in meaningful ways The diversity of viewpoints including competitive ones illuminates the debates which have expanded the frontiers of knowledge about hypnosis In the concluding section the editors compare and contrast these theories discuss pertinent research issues and lay out an agenda for future research Given its stellar list of contributors and the unique niche it occupies as the first authoritative survey of its kind THEORIES OF HYPNOSIS is of value to anyone interested in the topic The editors ten years of experience teaching hypnosis to psychology and medical students has resulted in a book with enormous appeal to students and instructors as well as

clinicians and researchers A wide variety of professionals academics clinical psychologists psychiatrists social workers dentists will find it an authoritative introduction and invaluable reference to this still growing ever fascinating field

Narrative Psychology Theodore R. Sarbin, 1986-05-15 This book features essays by the major supporters of the narrative metaphor They approach the subject from philosophical religious anthropological and historical perspectives as well as from the psychological point of view Psychologists psychiatrists and literary theorists will find the book provocative and a convenient reference source to the narrative approach *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), 1971 Biographical Dictionary of Psychology Noel Sheehy, Antony J. Chapman, Wendy A. Conroy, 2002 This volume is a comprehensive collection of critical essays on *The Taming of the Shrew* and includes extensive discussions of the play's various printed versions and its theatrical productions Aspinall has included only those essays that offer the most influential and controversial arguments surrounding the play The issues discussed include gender authority female autonomy and unruliness courtship and marriage language and speech and performance and theatricality **Narrative Identities** George Yancy, 2005 The contributors address challenging questions about identity in relation to personality development language and socialisation They demonstrate how their cultural and historical contexts influenced their theoretical approaches to the nature of self and how these ideas in turn shaped how they perceive their personal histories **Emotions in Ideal Human Development** Leonard Cirillo, Barnard Kaplan, Seymour Wapner, 2014-01-14 Derived from a conference sponsored by the Heinz Werner Institute for Developmental Analysis at Clark University these papers consider the role emotions play in ideal human development Contributors from the fields of psychology philosophy and sociology discuss the place that feelings affect passion and emotion should ideally occupy in human existence and how realization of this goal can be fostered The conference organizers focused the discussions by asking the participants to consider six questions each of which was intended to touch upon some aspect of the relationship between emotions and ideal human development Chapters contain the papers presented and a summary of the discussions that followed the presentations **Emotion and Adaptation** Richard S. Lazarus, 1994-06-09 In this landmark work Richard Lazarus one of the world's foremost authorities offers a comprehensive treatment of the psychology of emotion its role in adaptation and the issues that must be addressed to understand it The work provides a complete theory of emotional processes explaining how different emotions are elicited and expressed and how the emotional range of individuals develops over their lifetime The author's approach puts emotion in a central role as a complex patterned organic reaction to both daily events and long term efforts on the part of the individual to survive flourish and achieve In his view emotions cannot be divorced from other functions whether biological social or cognitive and express the intimate personal meaning of what individuals experience As coping and adapting processes they are seen as part of the ongoing effort to monitor changes stimuli and stresses arising from the environment After defining emotion and discussing issues of classification and measurement Lazarus turns to the topics of motivation cognition and

causality as key concepts in this theory Next he looks at individual emotions both negative and positive and examines their development in terms of social influences and individual events Finally he considers the long term consequences of emotion on physical health and well being and the treatment and prevention of emotional dysfunction The book draws together the relevant research from a wide variety of sources and distills the author's pioneering work in the field over the last forty years As a comprehensive treatment of the emotions the book will interest students clinicians and researchers involved in personality social and clinical psychology as well as cognitive and developmental psychology It may also be used as a supplemental textbook in courses on the psychology of adjustment emotion and feeling

Environment and Behavior

Studies Irwin Altman, Kathleen Christensen, 2012-12-06 This eleventh volume in the series departs from the pattern of earlier volumes Some of those volumes addressed research design and policy topics in terms of environmental settings for example homes communities neighborhoods and public places Others focused on environmental users for example children and the elderly The present volume examines the field of environment and behavior studies itself in the form of intellectual histories of some of its most productive and still visible senior participants In so doing we hope to provide readers with a grand sweep of the field its research and design content methodology institutions and past and future trajectories through the experiences and intellectual histories of its participants Why intellectual histories Several factors led to the decision to launch this project For one 1989 was an anniversary and commemorative year for the Environmental Design Research Association perhaps the major and most long standing interdisciplinary organization of environment and behavior researchers and practitioners Established in 1969 this organization has been the vehicle for generations of researchers and practitioners from many disciplines to come together annually to exchange ideas present papers and develop professional and personal relationships It held its first and twentieth meetings in North Carolina with the twentieth conference substantially devoted to discussions of the past present and future of the field a taking stock so to speak Thus it seemed appropriate to launch a volume on intellectual histories at this significant juncture in the life of the field

The Drama of Everyday Life

Karl Scheibe, 2002-03-15 Psychologists say the old joke know everything there is to know about the college sophomore and the white rat But what about the rest of us older than the former bigger than the latter with lives more labyrinthine than either In this ambitious book Karl E Scheibe aims to take psychology out of its rut and bring it into contact with the complex lives that most people quietly live Drama Scheibe reminds us is no more confined to the theater than religion is to the church or education to the schoolroom Accordingly he brings to his reflection on psychology the drama of literature poetry philosophy history music and theater The essence of drama is transformation the transformation of the quotidian world into something that commands interest and stimulates conversation It is this dramatic transformation that Scheibe seeks in psychology as he pursues a series of suggestive questions such as Why is boredom the central motivational issue of our time Why are eating and sex the biological foundations of all human dramas Why is indifference a natural condition caring a dramatic

achievement Why is schizophrenia disappearing Why does gambling have cosmic significance Writing with elegance and passion Scheibe asks us to take note of the self representation performance and scripts of the drama that is our everyday life In doing so he challenges our dispirited senses and awakens psychology to a new realm of dramatic possibility **Stress, Appraisal, and Coping** Richard S. Lazarus, Susan Folkman, 1984-03-15 The reissue of a classic work now with a foreword by Daniel Goleman Here is a monumental work that continues in the tradition pioneered by co author Richard Lazarus in his classic book Psychological Stress and the Coping Process Dr Lazarus and his collaborator Dr Susan Folkman present here a detailed theory of psychological stress building on the concepts of cognitive appraisal and coping which have become major themes of theory and investigation As an integrative theoretical analysis this volume pulls together two decades of research and thought on issues in behavioral medicine emotion stress management treatment and life span development A selective review of the most pertinent literature is included in each chapter The total reference listing for the book extends to 60 pages This work is necessarily multidisciplinary reflecting the many dimensions of stress related problems and their situation within a complex social context While the emphasis is on psychological aspects of stress the book is oriented towards professionals in various disciplines as well as advanced students and educated laypersons The intended audience ranges from psychiatrists clinical psychologists nurses and social workers to sociologists anthropologists medical researchers and physiologists **Literature and Fascination** Sibylle Baumbach, 2015-07-30 Exploring literary fascination as a key concept of aesthetic attraction this book illuminates the ways in which literary texts are designed presented and received Detailed case studies include texts by William Shakespeare S T Coleridge Mary Shelley Bram Stoker Oscar Wilde Joseph Conrad Don DeLillo and Ian McEwan Routledge International Handbook of Charisma José Pedro Zúquete, 2020-11-29 The Routledge International Handbook of Charisma provides an unprecedented multidimensional and multidisciplinary comparative analysis of the phenomenon of charisma first defined by Max Weber as the irrational bond between deified leader and submissive follower It includes broad overviews of foundational theories and experiences of charisma and of associated key issues and themes Contributors include 45 influential international scholars who approach the topic from different disciplinary perspectives and utilize examples from an array of historical and cultural settings The Handbook presents up to date concise thought provoking innovative and informative perspectives on charisma as it has been expressed in the past and as it continues to be manifested in the contemporary world by leaders ranging from shamans to presidents It is designed to be essential reading for all students researchers and general readers interested in achieving a comprehensive understanding of the power and potential of charismatic authority in all its varieties subtleties dynamics and current and potential directions **Designing Alcohol and Other Drug Prevention Programs in Higher Education** ,1997 **Current Catalog** National Library of Medicine (U.S.), 1983 First multi year cumulation covers six years 1965 70 **Folklore Concepts** Dan Ben-Amos, 2020-09-01 By defining folklore as artistic communication in small groups Dan Ben Amos led the discipline of

Folklore in new directions In *Folklore Concepts* Henry Glassie and Elliott Oring have curated a selection of Ben Amos's groundbreaking essays that explore folklore as a category in cultural communication and as a subject of scholarly research Ben Amos's work is well known for sparking lively debate that often centers on why his definition intrinsically acknowledges tradition rather than expresses its connection forthright Without tradition among people there would be no art or communication and tradition cannot accomplish anything on its own only people can Ben Amos's focus on creative communication in communities is woven into the themes of the theoretical essays in this volume through which he advocates for a better future for folklore scholarship *Folklore Concepts* traces Ben Amos's consistent efforts over the span of his career to review and critique the definitions concepts and practices of Folklore in order to build the field's intellectual history In examining this history *Folklore Concepts* answers foundational questions about what folklorists are doing how they are doing it and why
