

Generalist Social Work Practice: Features of the Approach

Generalist practice is generally considered

- **To be Integrative**, through which students learn to see beyond boundaries of separate cases, client populations and troubles, fields of practice, and levels of intervention.
- **To cross system levels and practice methods**, based on assessment to improve the person in environment interface, in which "person is a metaphor for the various size client systems."
- **To be a common base of knowledge, practice principles, and general stages of practice** used by practitioners in working with diverse populations, fields, and settings across systems and intervention levels.
- **To require complementary expertise**, including specific knowledge and skills related to particular contexts of social work practice.
- **To be nonprescriptive, nondeterministic**, including clear demand for adaptation and flexibility in its use, using critical approaches to understanding needs, contexts, and objective.
