Katsikides,2018-11-06 Published in 1998 This text is concerned with research issues within the context of the emerging information age The book draws together research which is devoted to key questions examining the relationship between the various and widely discussed developments of technological systems and their societal impacts Increasing interest and research into the information society and their euphorical assumptions is creating a wide spectrum of societal criticism Computer supported work for instance has led to the development of innovative organizational processes based on technological developments and communications paradigms In particular the focus is centred on the perspectives of such Networking Entities and their many varied implications The book links sociology with technology and aims to lead it to wider discussions of the above issues **Techno-Societal 2016** Prashant M. Pawar,Babruvahan P. Ronge,R. Balasubramaniam,Sridevi Seshabhattachar,2017-06-16 This volume originates from the proceedings of a multidisciplinary conference Techno Societal 2016 in Maharashtra India that brings together faculty members of various engineering colleges to solve Indian regional relevant problems under the guidance of eminent researchers from various reputed organizations The focus is on technologies that help develop and improve society in particular on issues such as the betterment of differently abled people environment impact livelihood rural employment agriculture healthcare energy transport sanitation water education This conference aims to help innovators to share their best practices or products developed to solve specific local problems which in turn may help the other researchers to take inspiration to solve problems in their region On the other hand technologies proposed by expert researchers may find applications in different regions This back and forth process for local global interaction will help in solving local problems by global approach and help in solving global problems by improving local conditions Ecology, Sustainable Development and Accounting Seleshi Sisaye,2015-08-11 Accounting literature has viewed sustainability in terms of social economic and environmental performances There have been concerns that the relationship between sustainability accounting and organizational performance cannot be explained unless we can deduce patterns of administrative behaviour that chronicle management practices Ecology Sustainable Development and Accounting argues that despite the broader social and economic development dimensions of sustainability and the limitations of its extension to corporate and organizational behaviour an ecological framework is capable of providing the overall societal and community chronologies that describe

corporate sustainable operations Drawing examples from international development and federal government organizations this book documents the link between ecology corporate sustainable development and sustainability accounting and reporting It draws together the literature from several disciplines to elaborate the contribution of the ecological approach to sustainable development in the accounting literature This book will be of particular interest to students academics and practitioners in the areas of environmental studies ecological economics sustainable development studies and social and environmental accounting The sociological and anthropological perspectives make this book the first of its kind to apply the population ecology of sociology to both the sustainability and accounting literature
