**Planning for Community-based Disaster Resilience Worldwide** Adenrele Awotona, 2016-10-14 We are witnessing an ever increasing level and intensity of disasters from Ecuador to Ethiopia and beyond devastating millions of ordinary lives and causing long term misery for vulnerable populations Bringing together 26 case studies from six continents this volume provides a unique resource that discusses in considerable depth the multifaceted matrix of natural and human made disasters It examines their bearing on the loss of human and productive capital the conduct of national policies and the setting of national development priorities and on the nature of international aid and bilateral assistance strategies and programs of donor countries In order to ensure the efficacy and appropriateness of their support for disaster survivors international agencies humanitarian and disaster relief organizations scholars non governmental organizations and members of the global emergency management community need to have insight into best practices and lessons learned from various disasters across national and cultural boundaries The evidence obtained from the numerous case studies in this volume serves to build a worldwide community that is better informed about the cultural and traditional contexts of such disasters and better enabled to prepare for respond to and finally rebuild sustainable communities after disasters in different environments The main themes of the case studies include the need for community planning and emergency management to unite in order to achieve the mutual aim of creating a sustainable disaster resilient community coupled with the necessity to enact and implement appropriate laws policies and development regulations for disaster risk reduction the need to develop a clear set of urban planning and urban design principles for improving the built environment s capacities for disaster risk management through the integration of disaster risk reduction education into the curricula of colleges and universities the need to engage the whole community to build inclusive governance structures as prerequisites for addressing climate change vulnerability and fostering resilience and sustainability Furthermore the case studies explore the need to link the existence and value of scientific knowledge accumulated in various countries with decision making in disaster risk management and the relevance and transferability from one cultural context to another of the lessons learned in building institutional frameworks for whole community partnerships

*Management of Natural Resources, Sustainable Development and Ecological Hazards III* C. A. Brebbia, S. S. Zubir, 2012 This book contains the proceedings of the third in a now biennial series organized by the Wessex Institute of Technology around the urgent need to determine solutions regarding sustainable development before our planet reaches a point of irreversibility The aggressive search for new sources of energy and materials the rapid rate at which natural resources are being consumed and the destructiveness of the resulting pollution are all having a negative impact on the planet that needs to be stopped if not reversed As at the first two participants at this conference will take stock of our situation and try to facilitate constructive

principles and policies for a way forward something that can only be done by transdisciplinary cooperation Thus papers will examine ethical political and social issues health safety and risk lessons from nature planning and development and new technologies

**Sociological Abstracts** Leo P. Chall, 2002 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers      *Sociological Abstracts* , 1990      **Reintroducing Marcel Mauss** Christian Papilloud, 2023-11-24 This reintroduction to the life and work of Marcel Mauss highlights his coherent and original thought both as an academic and an engaged intellectual of his time Since his work regained attention in social sciences in the later 20th century Reintroducing Marcel Mauss also emphasises the progression of research on Mauss s thought bringing to light various neglected aspects of his scientific project including his political commitment and writings With a review of the contemporary research on Mauss s legacy it offers a fuller understanding of the questions with which he was concerned questions which converged in the challenge of working out alternative ways for a social life that promotes a genuinely social society inspired by socialist and cooperative values It will therefore appeal to scholars of sociology and anthropology with interests in the history and development of sociology and the contemporary importance of classical social theory

Paperbound Books in Print , 1991      Alfred Schutz, Phenomenology, and the Renewal of Interpretive Social Science Besnik Pula, 2024-04-16 In recent decades the historical social sciences have moved away from deterministic perspectives and increasingly embraced the interpretive analysis of historical process and social and political change This shift has

enriched the field but also led to a deadlock regarding the meaning and status of subjective knowledge Cultural interpretivists struggle to incorporate subjective experience and the body into their understanding of social reality In the early twentieth century philosopher Alfred Schutz grappled with this very issue Drawing on Edmund Husserl's phenomenology and Max Weber's historical sociology Schutz pioneered the interpretive analysis of social life from an embodied perspective However the recent interpretivist turn influenced by linguistic philosophies discourse theory and poststructuralism has overlooked the insights of Schutz and other phenomenologists This book revisits Schutz's phenomenology and social theory positioning them against contemporary problems in social theory and interpretive social science research The book extends Schutz's key concepts of relevance symbol relations theory of language and lifeworld meaning structures It outlines Schutz's critical approach to the social distribution of knowledge and develops his nascent sociology and political economy of knowledge This book will appeal to readers with interests in social theory phenomenology and the methods of interpretive social science including historical sociology cultural sociology science and technology studies political economy and international relations

Economics and Performativity Nicolas Brisset, 2018-07-27 Economists do more than merely describe an external economic world They shape it in the image of their theories and models This idea following the philosophy of language puts forward that economic theories are performative and not only descriptive This idea has become a powerful critique of the scientificity of economics since it removes the idea of an external world against which our description could be evaluated as truth If any theory can become true there are no true theories per se because there is no such thing as a pre-existing economy to describe Is such a relativist stance a fatality This is the question at stake in this book Furthermore the author asks if any theory is able to perform the social reality or are there actually some limits to performativity For philosophers a performative statement is a statement that cannot fail to mean something but can fail to do what it calls for The state of the world may or may not be changed the performative statement may be happy or unhappy In economic terms this can be interpreted as some theories change the world while some do not This book argues that this possibility of failure a perspective previously missing from discussions on the subject should be at the heart of any definition of failure Taking on the question of why some theories change the world while others do not this volume will be of interest to those studying advances courses on the philosophy of economics as well as those studying and researching in the areas of the philosophy of sciences and sociology of science and economics

**The Place of Geography** Tim Unwin, 2013-12-16 The Place of Geography is designed to provide a readable and yet challenging account of the emergence of geography as an academic discipline It has three particular aims it seeks to trace the development of geography back to its formal roots in classical antiquity provides an interpretation of the changes that have taken place in geographical practice within the context of Jurgen Habermas's critical theory and thirdly describes how the increasing separation of geography into physical and human parts has been detrimental to our understanding of critical issues concerning the relationship between people and

environment      **Social Representations** Serge Moscovici, 2001 Considered the leading contemporary European social psychologist for his groundbreaking work on social influence and crowd psychology Serge Moscovici has played a definitive role in shaping the trajectory of modern social inquiry Bringing together the key texts in which he outlines and defines his benchmark theory of social representations including several essays never previously published in English his indispensable sourcebook illustrates the enormous range and scope of Moscovici's work Moscovici purports a theory of social representations remarkably distinct from the dominant themes in contemporary U S social psychology In contrast to the traditionally individualistic emphasis Moscovici's work is embedded in a broader social and cultural tradition and is passionately concerned with the social context in which meaning is constructed and lives are enacted His radical and lucid approach offers fresh and multifarious ways of seeing the world while his clear and coherent perspective provides a rich contribution to a discipline which has been notoriously fragmented Addressing contemporary social phenomena rather than being trapped within the artificial limits of laboratory experimentation Moscovici draws upon the diverse traditions of the wider social sciences making him a primary voice within the community of social theorists Sure to fascinate any researcher scholar student or practitioner of social psychology *Social Representations* provides a representative and long overdue collection of Moscovici's unique and important work      **International Handbook of Migration and Population**

**Distribution** Michael J. White, 2015-12-11 This Handbook offers a comprehensive collection of essays that cover essential features of geographical mobility from internal migration to international migration to urbanization to the adaptation of migrants in their destinations Part I of the collection introduces the range of theoretical perspectives offered by several social science disciplines while also examining the crucial relationship between internal and international migration Part II takes up methods ranging from how migration data are best collected to contemporary techniques for analyzing such data Part III of the handbook contains summaries of present trends across all world regions Part IV rounds out the volume with several contributions assessing pressing issues in contemporary policy areas The volume's editor Michael J White has spent a career studying the pattern and process of internal and international migration urbanization and population distribution in a wide variety of settings from developing societies to advanced economies In this Handbook he brings together contributors from all parts of the world gathering in this one volume both geographical and substantive expertise of the first rank The Handbook will be a key reference source for established scholars as well as an invaluable high level introduction to the most relevant topics in the field for emerging scholars      **The Progressive Era** Francis J. Sicius, 2015-05-26 This fascinating

guide documents the transformation of government from passive observer to active participant and ally of the American people during the late 19th and early 20th centuries The progressive impulse that energized the United States between 1890 and 1920 forever altered the nature of American government and its relation to its citizens This book was written to reveal the challenges Americans faced during the Progressive Era and to show how their responses helped transform the nation

Combining a narrative on the era with biographies of key participants significant primary sources and an annotated bibliography the topically organized volume offers a lively contextual guide to one of the great turning points in American history In addition to covering the major political events of the era the guide provides profiles of prominent Progressive figures such as Eugene V Debs Mother Jones Margaret Sanger Jacob Riis and W E B DuBois Teddy Roosevelt Woodrow Wilson and the National Progressive Agenda are covered as are the Muckrakers the African American struggle for equal rights the women s suffrage movement and efforts to better the conditions of factory workers The guide also details the rise of the American Empire as the United States took its place on the world stage The most recent historiography is interwoven throughout

**Exploring the 'Legal' in Socio-Legal Studies** David Cowan, Daniel Wincott, 2019-03-01 Socio legal studies have had an ambivalent relationship with the legal one of its defining aspects but at the same time one that the discipline has sought to transcend or even leave behind While socio legal studies benefit hugely from the insights methods and theories of other social science and humanity disciplines the contributions to Exploring the Legal in Socio Legal Studies illustrate the value of a focus on the legal The chapters in this book combine traditional legal materials and analyses with other ways of engaging empirically with the legal They illustrate the rich potential of the legal as a site both for theoretical and methodological reflection and for case study analysis Taken as a whole this volume demonstrates that methodological discussion is most helpful when rooted in empirical cases and that the best case studies also help us to develop our methodologies Bringing methodology and empirical analysis together offers an opportunity to reflect on socio legal studies and develop the discipline in productive new directions
