Between Two Worlds - Society, Politics, and Business in the Philippines Rupert Hodder, 2003-08-29 This book considers the tensions and complementarities between two different attitudes towards social relationships on the one hand the attitude aspired to in the West which emphasises individualism institutional probity and the rule of law and which regards social relationships as ideals or absolutes and on the other hand the attitude often found in Asia where loyalties based on kinship local networks and places of origin are vitally important and where social relationships institutions and practices are often material for manipulation and the pursuit of ambition The book explores the nature of these different attitudes discussing the different attitudes as they are found in practice in the Philippines It considers how they are bound up with material progress and how they have a crucial impact on business politics and region centre relations

Politics and Government in Hong Kong Ming Sing, 2009 This book examines the government of Hong Kong since its handover to mainland China in 1997 focusing in particular on the anti government mass protests and mobilisations in the years since 2003 It argues that Hong Kong has been poorly governed since transferring to Chinese rule and that public frustration with governmental performance including anti subversion laws and slow democratisation has resulted in the regular and massive protests which have been rare in Hong Kong s past political development The book then assesses different explanations for Hong Kong s government problems including lack of social cohesion incomplete economic restructuring structural budgetary deficit severe social inequality intensifying cronyism and deficiencies within the political system itself It goes on to discuss the implications of poor governance for legislative elections civil society and constitutional development and considers the prospects for the future It argues that although in the short term the Hong Kong government has managed to maintain its popular support ratings in

Society and Politics in Hong Kong Zhaojia Liu, 1983-01-01 *Hong Kong and British culture, 1945-97* Mark Hampton, 2015-11-01 This book examines the British cultural engagement with Hong Kong in the second half of the twentieth century. It shows how the territory fit unusually within Britain's decolonisation narratives and served as an occasional foil for examining Britain's own culture during a period of perceived stagnation and decline. Drawing on a wide range of archival and published primary sources, *Hong Kong and British culture 1945-97* investigates such themes as Hong Kong as a site of unrestrained capitalism, modernisation and good government as well as an arena of male social and sexual opportunity. It also examines the ways in which Hong Kong Chinese embraced British culture and the competing predictions that British observers made concerning the colony's return to Chinese sovereignty. An epilogue considers the enduring legacy of British colonialism. This book will be essential reading for historians of Hong Kong, British decolonisation and Britain's culture of declinism.

Understanding the Political Culture of Hong Kong: The Paradox of Activism and Depoliticization Lam Wai-man, 2015-06-03 This book challenges the widely held belief that Hong Kong's political culture is one of indifference. The term political indifference is used to suggest the apathy, naivete, passivity and utilitarianism of Hong Kong's people toward political life. Taking a broad historical look at political participation in the former colony, Wai-man Lam argues that this is not a valid view and demonstrates Hong Kong's significant political activism in thirteen selected case studies covering 1949 through the present. Through in-depth analysis of these cases, she provides a new understanding of the nature of Hong Kong politics which can be described as a combination of political activism and a culture of depoliticization.

Governance for Harmony in Asia and Beyond Julia Tao, Anthony B. L. Cheung, Martin Painter, Chenyang Li, 2009-12-18 Harmony has become a major challenge for modern governance in the twenty first century because of the multi religious multi racial and multi ethnic character of our increasingly globalized societies Governments all over the world are facing growing pressure to integrate the many diverse elements and subcultures which make up modern pluralistic societies This book examines the idea of harmony and its place in politics and governance both in theory and practice in Asia the West and elsewhere It explores and analyses the meanings mechanisms dimensions and methodologies of harmony as a normative political ideal in both Western and Asian philosophical traditions The book argues that in Western political thought which sees politics as primarily concerned with resolving social

conflicts and protecting individual rights the concept of harmony has often been neglected In contrast since earliest times harmony or he has been a profound theme in Confucian thought and current leaders of many East Asian governments and the Chinese government have explicitly declared that the realisation of a harmonious society is their aim The book also assesses how harmony is pursued jeopardized or deformed in the real world of politics based upon empirical analysis of a variety of different cultural social and political contexts including China Hong Kong Singapore Malaysia Singapore Vietnam Denmark Latin America and the Scandinavian countries It shows how harmony as an organizing concept can help to promote new thinking in governance and overcome problems of modern day governance like distrust adversarial conflicts hyper individualism coercive state intervention and free market alienation It also discusses the potential problems posed by the pursuit of harmony in particular in the grave threat of totalitarianism and considers how these risks could best be mitigated
