Society Of Space A Daring Look Into What:

Societies in Space Gary Westfahl, 2025-01-21 Science fiction films and television programs about space travel have undergone a significant transformation since their inception. In contrast to the early depictions of small spaceship crews on exploratory missions, recent film and television portrayals depict much larger societies in space as well as the obstacles that arise with them. This collection of essays examines many aspects of making space travel films, from the process of screenwriting to the impact of Greek myth on modern film, with illuminating commentary on contemporary problems including class distinction, racism, and sexism. Contributors to this volume include several extensively published scholars and science fiction writers who analyze a wide variety of relevant science fiction films and television programs, ranging from Star Trek, Silent Running, the Alien films, and Japanese anime to more recent works like Battlestar Galactica, Avatar, Elysium, The Martian, Passengers, and Ad Astra.

Civil Society John Horacio Keane, 2006 Due to the rapid growth and the violent destruction of the institutions of civil society, Berlin re-emerged with renewed vitality. This volume presents a sample of essays on contemporary civil societies, their structural problems, and their uncertain future, written by scholars with a close, long-standing relationship with the city.

BOLD NEW WORLD and THE POTENTIALIST MOVEMENT Dr. Freeman Rader Ph.D., 2019-10-30 This very large 465 page book is actually 2 separate but closely related books bound together as one: an inspirational novel and a thought-provoking philosophy book. Together they tell the story of a bold and visionary group of people creating a highly advanced prototype community and way of life based upon applying a philosophy that believes in human potential rather than supernatural forces. This helps individuals self-actualize, promotes values and responsibility for SELF SOCIETY, and creates harmonious communities in which human potential flourishes. This results in happy people doing great things and achieving a tremendous sense of enjoyment and accomplishment in the process—something we all seek. As the story unfolds, a bright progressive group of people in Colorado adopt this new philosophy, become part of the Potentialist Movement, and focus on how to fund and develop this highly advanced community. To meet the challenge, the founder, Freeman Valor Smith, convinces the Hollywood producer Steven Spielman that the story would make a good film, thus ingeniously getting the producer to make the development of the project possible by funding its construction as part of the cost of production. So the project gets underway. But the powerful editor of the local newspaper, Norman Sully, has a deep grudge against the founder and plans to totally disrupt the group's efforts, so he hires an attractive undercover reporter, Serene St. Haven, to infiltrate the group and dig up as much dirt as possible. But a romance ensues between the reporter and the founder that changes the situation dramatically. So the editor takes drastic measures on his own to sabotage the project. What results is an intricate web of romance, treachery, intrigue, and inspiration. With great courage, this resourceful group of Potentialists overcomes all obstacles, and a BOLD NEW WORLD is created, which shows what people with the right
