The Credential Society Randall Collins, 2019-05-28 The Credential Society is a classic on the role of higher education in American society and an essential text for understanding the reproduction of inequality Controversial at the time Randall Collins's claim that the expansion of American education has not increased social mobility but rather created a cycle of credential inflation has proven remarkably prescient Collins shows how credential inflation stymies mass education's promises of upward mobility An unacknowledged spiral of the rising production of credentials and job requirements was brought about by the expansion of high school and then undergraduate education with consequences including grade inflation rising educational costs and misleading job promises dangled by for profit schools Collins examines medicine law and engineering to show the ways in which credentialing closed these high status professions to new arrivals In an era marked by the devaluation of high school diplomas outcry about the value of expensive undergraduate degrees and the proliferation of new professional degrees like the MBA The Credential Society has more than stood the test of time In a new preface Collins discusses recent developments debunks claims that credentialization is driven by technological change

and points to alternative pathways for the future of education **Audience Transformations** Nico Carpentier, Kim Christian Schrøder, Lawrie Hallett, 2013-07-31 The concept of the audience is changing In the twenty first century there are novel configurations of user practices and technological capabilities that are altering the way we understand and trust media organizations and representations how we participate in society and how we construct our social relations This book embeds these transformations in a societal cultural technological ideological economic and historical context avoiding a naive privileging of technology as the main societal driving force but also avoiding the media centric reduction of society to the audiences that are situated within Audience Transformations provides a platform for a nuanced and careful analysis of the main changes in European communicational practices and their social cultural and technological affordances
