Thomlinson, 1981-08-26 *Sociological Concepts and research* Ralph Thomlinson, 1967 *Sociological Concepts and Research* , 1965 *Survey Methods in Social Investigation* C.A. Moser, G. Kalton, 2017-03-02 This book provides a comprehensive account of the methods used in social surveys All the stages of a survey are covered from the original planning to the drafting of the final report Throughout the emphasis is on the underlying principles with particular attention being given to sampling a subject which often troubles students and research workers The book will be of great value to students in social sciences as well as research workers and people concerned with social surveys in government and the business world *Sociological Analysis* , 1965 **Business Decisions, Human Choices** Lloyd C. Williams, 1996-07-17 Dr Williams contends that over the last 20 years a change has occurred in organizations that has created a syndrome of dysfunctions that are neither good for businesses nor for the people who work in them Williams sees businesses as living entities and argues that how they act and react will have an impact on their employees and often a devastating impact In much the same way as businesses make decisions people make choices and seldom are these decisions and choices congruent Unless disparate self interests and goals can be reconciled unless a partnership can be restored between people and their organizations not only will employees be damaged but the success of their organization upon which they depend for their livelihoods will be jeopardized How this dangerous situation came about what it means and how it can be remedied is the subject of Dr Williams book Research based and always in touch with the realities of commerce Dr Williams will make business people aware that organizations and their people must become reunited and then show them how it can be done Dr Williams makes clear he is not simply speculating or theorizing His goal is to make management aware of the dysfunctions that are damaging their organizations and how these are reflected in the behaviors of their employees When he calls for a focus on humanity spirit and context Dr Williams is actually offering a workable real world strategy to breathe new life into organizations of all kinds a strategy he calls The Trinity Process Its purpose to help management restore the essential partnership between organizational entities and the people who make them succeed or fail In Part One he shows what it means to be part of any organization and with anecdotes and cases from his own research helps readers grasp the dynamics of their own organizations In Part Two he proposes new or reframed paradigms that provide an underpinning for the reestablishment of equality between organizations and their employees Then in Part Three he presents The Trinity Process itself The result is a remarkably lucid readable engrossing exploration of organizational life today important reading for decision makers in all types of organizations public as well as private and for academics concerned with how organizations behave **Survey Methods Soc Inv 2nd** Sir Claus Adolf Moser, Sir Claus Moser, Graham Kalton, 1972-06-19 *American Book Publishing Record Cumulative, 1950-1977* R.R.
