Sociological Thought From Comte To Sorokin:

Sociological Thought M. Francis Abraham, John Henry Morgan, 1989 *Classical Theorists in the Social Sciences* Dejo Abdulrahman, 2023-05-05 This book is a useful companion to every social science student who desires an understanding of classical theoretical developments in and evolution of the disciplines The Socio-Intellectual Foundations of Malek Bennabi's Approach to Civilization Badrane Benlahcene, 2011-01-01 Since the publication of Samuel Huntington's *The Clash of Civilizations* concern about civilization has been reintroduced into the debate on the world order Malek Bennabi 1905 1973 prominent Algerian thinker and great Muslim intellectual intently focused on unraveling the causes of Muslim decline and the success of Western civilization and culture The key problem he theorized lay not in the Qur'an or Islamic faith but in Muslims themselves The author investigates Bennabi's approach to civilization and the fundamental principles drawn using metatheorizing methodology In doing so he sheds further light on perhaps one of the more intriguing elements of Bennabi's theory that civilization is governed by internal external and social intellectual factors and that an equation can be generated for civilization itself This equation of Man Soil Time Civilization and of which religion according to Bennabi forms the all important catalyst is explained and its significance in terms of the reversal of Muslim decline evaluated What is clearly apparent is that for Bennabi Man is the central force in any civilizing process and without him the other two elements are of no value With regard to outcomes Bennabi's unerring conviction that unless Muslims changed their spiritual condition they could not affect any far reaching meaningful change in society is echoed in the Qur'anic verse Verily never will Allah change the condition of a people until they change what is in themselves 13 11 Pitirim A. Sorokin Barry V. Johnston, 1995 Pitirim A Sorokin 1889 1968 was one of the most original important and controversial figures in American sociology His spectacular rise from a peasant childhood in Czarist Russia to the Olympian heights of Harvard University provides an unlikely and fascinating lens for examining the history of an entire discipline And as Barry Johnston shows his equally dramatic fall from favor and unexpected resurrection illuminate both Sorokin's life and the tempestuous world of academic politics An outspoken revolutionary and secretary to Alexander Kerensky Sorokin was imprisoned and ordered executed by Lenin then reprieved and exiled During the 1920s he flourished as a teacher and scholar at the University of Minnesota where he published several pioneering books on the Russian Revolution social mobility sociological theory and rural sociology Harvard president A Lawrence Lowell was so impressed that he recruited Sorokin to chair the university's first department of sociology From 1930 to 1944 the department prospered under Sorokin's leadership attracting an entire generation of young scholars who in their own right would have a profound impact on the discipline In this period Sorokin published several volumes of his magnum opus *Social and Cultural Dynamics* and became embroiled in a bitter battle with rival Talcott Parsons for control of the department Parsons ultimately deposed Sorokin and transformed sociology into the Department of Social Relations Sorokin nevertheless stayed on at Harvard where he established the Center for Creative Altruism but otherwise

continued to work in relative obscurity Finally in 1963 after years in eclipse Sorokin was recognized for his accomplishments when he was elected president of the American Sociological Association During a long and distinguished career Sorokin amassed an amazingly diverse and substantial body of work much of which set the standard for the field At the same time he broke with the conventions of sociology frequently ridiculing and taunting his less adventurous colleagues For his heresy the flamboyant Sorokin was condemned and driven to the periphery of a profession anxious for legitimacy as a science As a result Sorokin's ideas have been consistently ignored and misunderstood for more than a quarter century Based on exhaustive research in Sorokin's papers and the Harvard archives as well as interviews with Sorokin's surviving family members former students and colleagues this biography restores Sorokin to his rightful place in the pantheon of American intellectuals

Agricultural Economics Literature United States. Bureau of Agricultural Economics. Library, *The Waves of Time* K. R. Dark, 2016-10-06 Since the end of the Cold War analysts of international politics have given much greater attention to issues of change It has become increasingly clear to specialists from many fields that any understanding of large scale political change must encompass far longer timescales than has been usual in the study of world politics and must incorporate multi disciplinary perspectives This book evaluates and draws on relevant theoretical approaches from other disciplines such as sociology economics geography history anthropology and archaeology as well as evolutionary theory and the mathematical study of complexity Using an epistemological framework Dark sets out a theory of long term world political change the theory of Macrodynamics This is then applied to historical anthropological and archaeological data to explain the changing forms of political organization from the earliest human societies to the late twentieth century The resulting analysis is a reinterpretation of the processes of global political change in the past and present This in turn opens new areas of enquiry in the study of international relations and has profound
