History and Comparative European Studies *MEDIA & MUSLIM SOCIETY (IIUM PRESS)* MOHD. YUSOF

HUSSAIN, 2021-04-16 The book contains twelve essays on topics related to the subject Media and Muslim Society. It is compiled as a textbook for students taking the course of the same title at the International Islamic University Malaysia. Thus the topics selected are those covered in the course. The topics include media at various stages in the development of a Muslim society, the role of communication in a Muslim society, media control, media effects on Muslim society, and the roles of ulamas in influencing the media. A special topic on Muslim society is also included at the beginning of the book. The contributors of these essays are experts in their field. They have also helped develop and taught the course. In this first edition, most of the examples and discussions are based on two Muslim societies, i.e. Peninsular Malaysia and Indonesia. This is understandable because most of the writers in this first edition are from the Malay world. We hope to include examples from other Muslim societies in the next edition when we get contribution from writers from other parts of the Muslim world. Finally, we welcome criticisms and suggestions to improve this book from our readers. We shall certainly consider these criticisms and suggestions in the next edition. Environmental Concerns and Sustainable Development Sakarama

Somayaji, Ganesha Somayaji, 2009-01-01 At the dawn of this 21st century, environmental concerns have received utmost attention from all segments of human society. The extreme abuse of nature and ruthless hunt for material happiness are the reasons for post-enlightenment destruction of the environment. Many consider the issues related to environmental degradation as an environmental crisis. During the last century, humans have been exploiting nature not merely for need but also for greed. Environmentally concerned individuals call for immediate action to stop being greedy and act positively. In India too, this environmental awareness is fast spreading, and the Honourable Supreme Court of India has directed the Central and state governments to introduce courses regarding environmental issues at all levels of education. This book is a compilation of research results pertaining to development, environment, and sustainable development in the form of articles.
