Sociology By Macionis 4th Canadian Edition:

Teaching Gender and Sex in Contemporary America Kristin Haltinner, Ryanne Pilgeram, 2016-04-28 This book provides innovative pedagogy theory and strategies for college and university professors who seek effective methods and materials for teaching about gender and sex to today's students. It provides thoughtful reflections on the new struggles and opportunities instructors face in teaching gender and sex during what has been called the post feminist era. Building off its predecessor *Teaching Race and Anti Racism in Contemporary America* this book offers complementary classroom exercises for teachers that foster active and collaborative learning. Through reflecting on the gendered dimensions of the current political economic and cultural climate as well as presenting novel lesson plans and classroom activities *Teaching Gender and Sex in Contemporary America* is a valuable resource for educators.

This Elusive Land Melody Hessing, Rebecca Raglon, Catriona Sandilands, 2005 This *Elusive Land* provides an introduction to the literature about women and the environment in Canada. It looks at the ways in which women integrate the social and biophysical settings of their lives and features a range of contexts in which gender mediates, inspires and informs a sense of belonging to and in this land. Drawing from geographical, historical and cultural perspectives, the volume reveals the significance of women's experiences in various landscapes. Jacket

Sweet Surrender Dennis Hiebert, 2013-07-09 Every culture has a way of perceiving and practicing marriage. Many contemporary Western Christians mistake what their culture prescribes regarding marriage with what the Bible portrays and thereby take as biblical what is merely cultural. Uncritical conformity to cultural imperatives of marriage then becomes a Christian virtue and a sweet surrender. Few recognize much less question this confusion even when its consequences are unhealthy. In *Sweet Surrender* Dennis Hiebert challenges Christians to comprehend what is cultural in their view of marriage, hold as optional what is not explicitly required by the Bible, and live out their marriages within the transcendent grace of God. Gaining greater awareness can free marriages from the control of culture for something more simply but deeply Christian. Marriages benefit when they are released from cultural directives that are not biblical callings even if they choose to retain them as cultural practices. This book is for Christians who are ready to rethink their assumptions about marriage.

Poverty Mosaics: Realities and Prospects in Small-Scale Fisheries Svein Jentoft, Arne Eide, 2011-07-15 Small scale fisheries are a major source of food

and employment around the world Yet many small scale fishers work in conditions that are neither safe nor secure Millions of them are poor and often they are socially and politically marginalized Macro economic and institutional mechanisms are essential to address these poverty and vulnerability problems however interventions at the local community level are also necessary This requires deep understanding of what poverty means to the fishers their families and communities how they cope with it and the challenges they face to increase resiliency and improve their lives for the better This book provides a global perspective situating small scale fisheries within the broad academic discourse on poverty fisheries management and development In depth case studies from fifteen countries in Latin America Europe South and Southeast Asia and sub Saharan Africa demonstrate the enormously complex ecological economic social cultural and political contexts of this sector

Conclusions for policy making formulated as a joint statement by the authors argue that fisheries development poverty alleviation and resource management must be integrated within a comprehensive governance approach that also looks beyond fisheries The scientific editors Svein Jentoft and Arne Eide are both with the Norwegian College of Fishery Science Faculty of Biosciences Fisheries and Economics University of Troms Norway

The Mandates of the Church Rich Ayo Adekoya, 2015-06-29 In this thought provoking and momentous book the author poses the questions what is the role of the church in our society and should there be any relationship between the state and the church for the development of the society and what could be the effect of such collaboration if there is any In asking on what bases is the church getting involved with the society he explores both the Biblical foundations and three major theories that have emerged about societies and social behaviour Particular attention is paid to the relationship between religion and social change to the case of the church in Lagos Nigeria as an agent of social and political change in society Using a thematic structure Richard Adekoya illustrates different roles the church can play in society especially in a democratic milieu for example humanity services educational development spiritual and moral development and social and ethical development He examines the various contributions of the churches in Nigeria right from the missionaries era to the contemporary dispensation The book basically proved that the church mandate is not limited to its evangelical obligations Its involvement in many aspects of peoples lives in society particularly the social and political aspects is part of its cultural mandate This is a challenging book rich in example and wide ranging in scope key ideas that so often appear impossible for the church to practice employment generation political leadership public enlightenment tackling corruption in the polity here practically seem possible Richard Adekoyas excellent work tackles this set of issues in a very thorough way By looking at the issues through the lens of the Bible church history and sociological analysis he makes a powerful theological case for the involvement of the church in the societies in which it finds itself called to give a witness Understandably and helpfully there is a particular emphasis on Nigeria a nation which he knows well By choosing Nigeria as

a kind of case history the broader general case is given a particular and penetrating illustration that strengthens his wider argument Dr Martin Robinson Principal ForMission College Birmingham UK **Leadership Talk** Robyn Walker,Jolanta Aritz,2014-01-31 Traditionally management theories have taken a psychological approach to leadership often assuming that it is a personality trait located within an individual In contrast the discursive approach to leadership which is the focus of this book assumes that leadership is created through communication practices As a leader this book will provide you with an in depth look at an emerging approach to the study of business leadership that focuses on language as a vehicle for communicating leadership The authors explore a new definition of leadership as the expression of ideas in talk or in action that are recognized by others as capable of progressing tasks or solving problems The practical implication of this view of leadership suggests that leaders must constantly enact and communicate their relationship to their followers in such a way as to be recognized by them as a leader Inside you and future leaders will learn how to approach leadership more effectively as a communication practice that involves and depends upon the response of potential followers **Translating Nations** Ye Tian,2024-12-30 This book critically examines the ways in which translation studies can offer a conceptual framework for understanding and researching international affairs drawing on examples from China s Belt and Road Initiative The volume encourages new conceptualisations of our understanding of culture and communication through the lens of translation re envisioning translation beyond the scope of the global circulation of cultural products Tian explores the case study of the Belt and Road Initiative to show how nation branding and soft power can be understood through a translational lens if we rethink of translation as the means by which cultures communicate and build relationships with each other while retaining their distinct dimensions In focusing on intertwining concepts across translation studies cultural studies and international relations universalism power identity and development the book showcases how it is a useful framework for understanding how translation studies can serve as a platform for multidisciplinary dialogue on a global scale This book will be of interest to scholars in translation studies cultural studies international relations and Asian studies
