United States Steel Corporation United States. Congress. House. Committee on Investigation of United States Steel Corporation,1912 *Options and Agency* John T. Maier,2022-09-21 This book develops an original theory of agentive modality the kind of modality that is distinctive to agents The central thesis is that the idea of an option should be taken as primitive and that other agentive notions such as ability skill and free will should be understood in terms of options The main contributions of this book are twofold First it resolves many of the outstanding questions in the metaphysics and semantics of agentive modality In doing so it develops original accounts of topics that have been central to philosophy since Aristotle It also contributes to a lively contemporary literature on these topics Second it articulates an austere and uncompromising form of compatibilism about free will termed simple compatibilism Simple compatibilism is so called because it rejects both the reductive theses endorsed by traditional compatibilists and the sophisticated proposals of many contemporary compatibilists Instead it turns precisely on insisting that options are analytically simple Arguments for incompatibilism are shown to rest on auxiliary principles that should in light of the book s general account of options be rejected *Bibliotheca Orientalis* Luzac &co,1928 *The Dignity of Nations* John Fitzgerald,Sechin Y.S. Chien,2006-08-01 Contributors to this book argue that everyday struggles for dignity and equality in the states of East Asia provide much of the impetus driving East Asian nationalism They examine China Japan Korea and Taiwan which occupy one of the most volatile regions in the world today Each of them harbors an historical grievance dating back half a century or more which limits its full or effective sovereignty China seeks to recover Taiwan Taiwan presses for de jure recognition of its de facto autonomy Neither of the two Koreas is satisfied to remain separated from the other indefinitely and Japan is divided over constitutional limits on the sovereign right to wage war Each of these historical grievances is structured into the politics of the region and into its international relations They are also embedded in popular memories that periodically spark pride shame and resentment whether over a rocky outcrop a history textbook or an alleged US intervention on a sensitive issue of national sovereignty Everyday struggles for dignity and equality the contributors argue should not be overlooked in any search for explanations of nationalist pride and resentment 2025-26 RRB Technician Engineering Mathematics Solved Papers.
