Speak Scotch Or Whistle:

Speak Scotch Or Whistle Albert David Mackie, 1979 **The Mainstream Companion to Scottish Literature** Trevor Royle, 2012-01-06 The Mainstream Companion to Scottish Literature is the most comprehensive reference guide to Scotland's literature covering a period from the earliest times to the early 1990s. It includes over 600 essays on the lives and works of the principal poets, novelists, dramatists, critics, and men and women of letters who have written in English, Scots, or Gaelic. Thus, as well as such major writers as Robert Henryson, William Dunbar, Gavin Douglas, Allan Ramsay, Robert Fergusson, Robert Burns, Walter Scott, Robert Louis Stevenson, and Hugh MacDiarmid, the Companion also lists many minor writers whose work might otherwise have been overlooked in any survey of Scottish literature. Also included here are entries on the lives of other, more peripheral writers such as historians, philosophers, diarists, and divines whose work has made a contribution to Scottish letters. Other essays range over such general subjects as the principal work of major writers, literary movements, historical events, the world of printing and publishing, folklore, journalism, drama, and Gaelic. A feature of the book is the inclusion of the bibliography of each writer and reference to the major critical works. This comprehensive guide is an essential tool for the serious student of Scottish literature as well as being an ideal guide and companion for the general reader.

Text Types and the History of English Manfred Görlach, 2008-08-22 The history of modern European languages has been largely determined by the range of functions they have acquired, particularly after 1500. This development necessitated a notable expansion of their syntax and lexis but is most characteristically reflected in the conventionalization of text types. Starting from the German concept of *Textsorte* as developed from the 1960s onwards, the present account is a first comprehensive attempt at charting the field for the history and present-day situation of the English language. In text types, a designation is linked with a more or less stable form which guides the writer's production as well as the reader's expectation, permitting one to recognize straightforward uses as well as deliberate misuses. Some two thousand of such designations are here listed with minimal definitions and dates for first occurrences. The discussion then concentrates on selected types which are seen as especially illustrative for English: book dedications, cooking recipes, advertisements, church hymns, lexical entries, and jokes. Their functions and development over time are treated in correlation with their specific linguistic characteristics and adaptations to different period styles and social changes in the readership. The functional range of text types in traditions outside England and the consequences of the export of English categories are exemplified by the history of Scots, Scottish English, and of English in India. The arguments are accompanied by a lavish supply of textual excerpts and more than fifty pages of facsimiles which are especially relevant for insights derived from typographical features. A full bibliography and indices are provided at the end. The book will prove useful for decisions on the constitution of representative text corpora and stimulate research into a greater number of individual text types as well as contrastive analyses at least among European languages.

A Bibliography of Writings on Varieties of English,

1965-1983 ,1984-01-01 After the growth of English and American dialectology since the 1930 s and the expansion of sociolinguistics since the 1960 s the study of world English has emerged in recent years to join these other disciplines This bibliography is intended to reflect what has been achieved in this area and to serve as an indispensable research tool for further investigations The bibliography is divided into three parts each one is preceded by a preface which explains the procedures followed and each of the sections is followed by an index It classifies the items according to specific areas ethnic groups or similar topics
