The Moral Skeptic Anita M. Superson, 2009-03-13 Anita Superson challenges the traditional picture of the skeptic who asks Why be moral While holding that the skeptic's position is important she builds an argument against it by understanding it more deeply and then shows what it would take to successfully defeat it Superson argues that we must defeat not only the action skeptic but the disposition skeptic who denies that being morally disposed is rationally required and the motive skeptic who believes that merely going through the motions in acting morally is rationally permissible We also have to address the amoralist who is not moved by moral reasons he recognizes Superson argues for expanding the skeptic's position from self interest to privilege to include morally unjustified behavior targeting disenfranchised social groups as well as revising the traditional expected utility model to exclude desires deformed by patriarchy as irrational Lastly she argues that the challenge can be answered if it can be shown that it is in an important way inconsistent and therefore irrational to privilege oneself over others The Moral Skeptic makes an important contribution to both metaethics moral theory and feminist philosophy and brings feminist thinking into the larger discussion of the skeptical challenge

Kirkpatrick, 2017-11-22 This title was first published in 2003 This book develops a moral ontology for a theistic ethic that engages the work of contemporary moral and political philosophers and reaffirms the relevance of a theistic tradition of God's relation to the world reflected in the fundamental teachings of Judaism Christianity and Islam Drawing on recent thought in the non religious fields of psychology and political and moral philosophy which build around the concept of human flourishing in community Kirkpatrick argues that a theistic ethic need not be the captive of parochial or sectarian theological camps He proposes a common or universal ethic that transcends the fashionable ethnocentric incommensurate differences in morality alleged by many post modern deconstructionists In the wake of ethnic religious strife post September 11th 2001 this book argues for a common morality built on the inclusivity of love community and justice that can transcend sectarian and parochial boundaries **Women and Spirituality** Carol Ochs, 1997 Written by an acclaimed scholar to enrich and complete the vision offered by traditional Western spirituality Women and Spirituality demonstrates that women as women have a valuable contribution to make to religion This new edition is revised and updated in light of thirteen years of feminism including new biblical role models and a new chapter on women's special relationship to time Prodding readers to pay

attention to their own experiences Ochs challenges traditional religious concepts such as solitary struggle otherworldliness and the spiritual journey to a distant goal and shows how women s spirituality focuses on relationships with others commitment to this world and engagement with the present **Social Policy and the Ethic of Care** Olena Hankivsky,2004 In this book Hankivsky considers the implications of this ethic for a range of Canadian social policy issues Through a series of case studies she demonstrates the extent to which a care orientation differs from a justice orientation and provides an alternative normative framework for interpreting understanding and evaluating social policy She reveals why Canadian social policy is lacking and how it could be made more effective and robust by the inclusion of an ethic of care Jacket *The Power and Vulnerability of Love* Elizabeth O'Donnell Gandolfo,2015-02-01 Gandolfo constructs a theological anthropology that begins with the condition of human vulnerability as a site to answer why human beings experience and inflict terrible suffering This volume argues that vulnerability is a dimension of human existence that causes us great anxiety which forms the basis for violence but also affords the possibility of human openness to the redemptive work of divine love Poised paradoxically between tragic and redemptive vulnerability human beings need existential resources and empowering practices to cope with and manage our vulnerability in more compassionate ways
