The Culture of Singapore English Jock O. Wong, 2014-06-12. This book provides a fresh approach to Singapore English by focusing on its cultural connotations. The author, a native Singaporean, explores a range of aspects of this rich variety of English including address forms, cultural categories, particles and interjections, and links particular words to particular cultural norms. By using the Natural Semantic Metalanguage (NSM) approach, which is free from technical terminology, he explains the relationship between meaning and culture with maximal clarity. An added strength of this study lies in its use of authentic examples and pictures which offer a fascinating glimpse of Singaporean life. Through comparisons with Anglo-English, it also explores some difficulties associated with Standard English and cultural misunderstanding. Lending a unique local perspective and written with an incisiveness that makes it ideal for both academic and non-academic readers, this book will appeal to all those interested in Singapore English and its cultural values.

The Field of Chinese Language Education in the U.S. Vivian Ling, 2018-02-13. This book will be the first account of the development of Chinese as a foreign language in the U.S. as it interacts with the relevant entities in China and beyond. There are virtually no systematic retrospective reflections on the field outside of the greater China region, and yet over the past decades the field has grown by leaps and bounds, and it is critical now that we pause to reflect on what has happened and what we can learn from the past. The contributors are among some of the most influential pioneers in the field whose entire academic lives have been dedicated to its development. *The Field of Chinese Language Education in the U.S. A Retrospective of the 20th Century* is aimed at those who are currently engaged in Chinese language education as teachers or as students.

Media and Communication in the Chinese Diaspora Wanning Sun, John Sinclair, 2015-09-16. The rise of China has brought about a dramatic increase in the rate of migration from mainland China. At the same time, the Chinese government has embarked on a full-scale push for the internationalisation of Chinese media and culture. Media and communication have therefore become crucial factors in shaping the increasingly fraught politics of transnational Chinese communities. This book explores the changing nature of these communities and reveals their dynamic and complex relationship to the media in a range of countries worldwide. Overall, the book highlights a number of ways in which China's going global policy interacts with other factors in significantly reshaping the content and contours of the diasporic Chinese media landscape. In doing so, this book constitutes a major rethinking of Chinese transnationalism in the twenty-first century.

How Chinese Are You? Andrea Louie, 2015-08-07. Chinese adoption is often viewed as creating new possibilities for the formation of multicultural cosmopolitan families. For white adoptive families, it is

an opportunity to learn more about China and Chinese culture as many adoptive families today try to honor what they view as their children's birth culture. However, transnational transracial adoption also presents challenges to families who are trying to impart in their children cultural and racial identities that they themselves do not possess while at the same time incorporating their own racial, ethnic, and religious identities. Many of their ideas are based on assumptions about how authentic Chinese and Chinese Americans practice Chinese culture. Based on a comparative ethnographic study of white and Asian American adoptive parents over an eight-year period, *How Chinese Are You* explores how white adoptive parents, adoption professionals, Chinese American adoptive parents, and teens adopted from China as children negotiate meanings of Chinese identity in the context of race, culture, and family. Viewing Chineseness as something produced rather than inherited, Andrea Louie examines how the idea of ethnic options differs for Asian American versus white adoptive parents as they produce Chinese adoptee identities while reworking their own ethnic, racial, and parental identities. Considering the broader context of Asian American cultural production, Louie analyzes how both white and Asian American adoptive parents engage in changing understandings of and relationships with Chineseness as a form of ethnic identity, racial identity, or cultural capital over the life course. Louie also demonstrates how constructions of Chinese culture and racial identity dynamically play out between parents and their children and for Chinese adoptee teenagers themselves as they come of age. *How Chinese Are You* is an engaging and original study of the fluidity of race, ethnicity, and cultural identity in modern America.

Cultural Education - Cultural Sustainability Zvi Bekerman, Ezra Kopelowitz, 2008-02-06 This volume is a path-breaking contribution to the study of efforts of diaspora indigenous and minority groups broadly defined to use education formal and informal to sustain cultural continuity while grappling with the influences and demands of wider globalizing, nationalizing, or other homogenizing and assimilatory forces. Particular attention is given to groups that use educational elements other than second language teaching alone in programs to sustain their particular cultural traditions. The focus of the book on cultural sustainability changes the nature of questions posed in multicultural education from those that address the opening of boundaries to issues of preserving boundaries in an open yet sustainable way. As forced and elective immigration trends are changing the composition of societies and the educational systems within them, bringing a rich diversity of cultural experience to the teaching-learning process, diaspora indigenous and minority groups are looking more and more for ways to sustain their cultures in the context of wider socio-political influences. This volume is a first opportunity to consider critically multicultural efforts in dialogue with educational options that are culturally particularistic but at the same time tolerant. Academics will find this an excellent reference book. Practitioners will draw inspiration in learning of others' efforts to sustain cultures and will engage in critical reflection on their own work vis-à-vis that of others. Teachers will realize they do not stand alone in their educational efforts and will uncover new strategies and methodologies through which to approach their work.

A Study of Attitudes of Dialect Speakers Towards the Speak Mandarin Campaign in Singapore Patrick Chin Leong Ng, 2017-01-19 This book makes an original contribution to the fields of sociolinguistics language planning policy and Chinese language studies It examines the effectiveness of the Singapore s Speak Mandarin Campaign in changing the language use of dialect speakers towards Mandarin Singapore may be only a small red dot and barely visible on the world s map However its complex and dynamic linguistic diversity and its quadrilingual educational system make it a unique and fascinating research site for examining deliberate language planning on the part of governmental authorities 2017 marks the 38th anniversary of the Speak Mandarin Campaign a focused language planning policy aimed at changing the deeply entrenched sociolinguistic habits of Chinese Singaporeans who are used to speaking Chinese dialects This book provides a revealing update on dialect speakers attitudes towards the campaign by including discussions and other related issues such as the recent call for the revitalisation of Chinese dialects by younger dialect speakers Chinese students attitude towards learning Mandarin in schools the encroachment of English in the home environment the spread and dominance of English in the local linguistic landscape and the challenges of maintaining Mandarin as a language of use and preference
