Special Happenings:

Special Events Seungwon Lee, Joe Goldblatt, 2020-08-25 Recent years have seen dramatic changes to the events industry. The influence of social media and global communications technology increased focus on environmental sustainability and social responsibility and changes to the economic and cultural landscape have driven rapid expansion and increased competition. *Special Events: Creating and Sustaining a New World for Celebration* has been the event planner's essential guide for three decades providing comprehensive coverage of the theory, concepts and practice of event management. The new Eighth Edition continues to be the definitive guide for creating, organizing, promoting and managing special events of all kinds. Authors Seungwon Shawn Lee and Joe Goldblatt, internationally recognized leaders and educators in the industry guide readers through all the aspects of professional event planning with their broad understanding of diverse cultures and business sectors. This definitive resource enables current and future event leaders to stretch the boundaries of the profession and meaningfully impact individuals, organizations and cultures around the globe. Global case studies of high profile events such as the PyeongChang Winter Olympic Games and Norway's Constitution Day annual event complement discussions of contemporary issues surrounding safety, security and risk management. Each chapter includes Ecologic Techview and or Secureview mini case studies, a glossary of terms, plentiful charts, graphs and illustrations and links to additional online resources.

Special Events Joe Goldblatt, 2010-10-04 This book chronicles and champions the development, changes and challenges faced by the global celebrations industry for event planners. New interviews are included with experienced event leaders to give a better understanding of the field. New chapters are included on green events, corporate social responsibility and theoretical case studies. Event measurement, evaluation and assessment topics are integrated throughout a number of the chapters. Over 200 new Web resources and appendices show how to save money, time and improve the overall quality of an event. Event planners will also learn how technology may be harnessed to help them improve their events' financial, quality, environmental and other strategic outcomes.

Social Enterprise and Special Events Julie Olberding, 2016-11-25 During the past twenty years, the field of nonprofit management has grown significantly in terms of the number of nonprofit organizations, number of people employed and amount of funds raised. A key activity in nonprofit management has been organizing events which are generally defined as purposive gatherings of people. These purposes may include increasing awareness about the nonprofit organization and its mission, raising funds to support programs and services related to its mission, engaging and developing individuals as donors, volunteers and advocates and enhancing the image of the organization and or the broader community. Events in the modern era tend to be organized across the nonprofit, public and private sectors. While a nonprofit organization may create and manage an event, corporations and businesses often contribute financial support and technical expertise in areas such as branding, marketing and social media. Depending on the event type and size, a local government may provide the venue and public safety services including police, fire and ambulance. We can

understand more about these mission driven cross sectoral events by looking through the lens of social enterprise Social enterprise has been defined as a venture that advances a social mission using business methods or market based approaches It is typically conceptualized as spanning sectors particularly the nonprofit and private sectors Social Enterprise and Special Events focuses on how market based approaches can be used to help mission driven gatherings achieve their purposes as efficiently effectively and sustainably as possible These approaches include market research brand development cause marketing gamification liquidity cash management and clustering The book also incorporates concepts important in the nonprofit and public sectors such as collaborative governance social capital political capital community development placemaking and diversity
