

A photograph of a bedroom at night. A bed with a white headboard and light-colored bedding is the central focus. Above the bed, a large, round, white lampshade is suspended from the ceiling. A string of warm white fairy lights is draped across the wall above the bed. To the left of the bed, a small, round, woven basket sits on the floor. To the right, a small, round, white nightstand holds various items, including a lamp and some books. A doorway is visible in the background on the right side. The overall atmosphere is cozy and intimate.

Stephenson, 2014-10-17 The Highlands of Scotland like the southern Appalachians of the United States have long been a problem area in Great Britain troubled with a fading economy and loss of population Most books about the region however are popular volumes that romanticize a bygone way of life This study of Ford a village of some 160 people in western Argyllshire thus fills a gap in the literature and provides a look at the present realities of Scottish life Although the Highlands are by no means a homogeneous region Ford in its size and makeup is perhaps a representative rural settlement John Stephenson who conducted extensive interviews in the village during 1981 focuses his study on the theme of survival on whether this particular village shows signs of enduring as a community of people bound together by common interests and situations Though necessarily tentative his conclusions are optimistic Ford has shown a recent increase in population consisting almost entirely of newcomers and though its residents have now a more varied background they seem to have a sense of place of belonging to the village This book will provide new insights not only for those interested in life in the
