Callahan, Holly L. Hertberg-Davis, 2012-08-21 The field of gifted education is characterized by a confusing array of perspectives concerning such fundamental issues as definition philosophy curriculum social and emotional development and underserved populations The mission of this book is to provide a coherent framework that instructors and service providers

can use in planning effective programs providing appropriate counseling services and evaluating programs for the gifted. Most sections are organized around fundamental issues confronting the field and follow a common structure: an introductory chapter that provides historical and theoretical background and organizing questions followed by several point of view chapters written by experts that provide varied perspectives on the topic at hand. Distinguishing Features: Comprehensive Coverage. The book's forty-five manageable length chapters cover the full range of topics that must be considered in planning programs and services for gifted students both within and outside of school. Coherent Structure. Section introductions provide background information and organizing questions to guide chapter authors who provide varying views of the issue at hand. The emphasis is not on the right way or the wrong way except when clearly documented bad practice is discussed but on how best practice stems from well informed and logical decision making. Decision Making Focus. The book's introductory chapter addresses the need for a clearly developed and consistently applied set of values to guide decision making. Likewise each section introduction includes a decision making framework regarding some aspect of educating, counseling or parenting gifted students. This book is appropriate for introductory level courses in gifted education or courses in program development and planning. It is also suitable for school personnel responsible for making program planning decisions in the area of gifted education and for academic libraries with holdings in this area.

Program Evaluation in Gifted Education Carolyn M. Callahan, 2004-03-11. The expert guide to the major issues, the chief trends and the most effective models of program evaluation in gifted education. The readings in this ready reference report on specific program evaluations offer critical guidance in the development and utilization of instruments for assessing gifted and talented programs and are designed to stimulate the discussion of issues surrounding the evaluation of gifted programs. Key features include Carolyn M. Callahan's comprehensive and insightful examination of the past, present and hopeful future of gifted program evaluation. Research informed theories, practical guidelines and successful models of evaluation. Recommendations for future exploration. Program evaluation has been considered an important but neglected component of gifted education for the last three decades. Program Evaluation in Gifted Education provides much needed direction to program developers and practitioners who desire to increase the effectiveness and efficiency of their gifted programs. The ERGE Series. The National Association for Gifted Children series. Essential Readings in Gifted Education is a 12 volume collection of seminal articles from *Gifted Child Quarterly*. Put the knowledge and power of more than 25 years of research on giftedness and talent into your hands with the leading theories, studies and findings the experts in the field have to offer.
