Spectacle Of Violence Homophobia Gender And Knowledge:

The Spectacle of Violence Gail Mason, 2002 The Spectacle of Violence explores the contexts and implications of homophobia related violence and hostility asking questions about where violence comes from and the effects it has Global Perspectives on War, Gender and Health Hannah Bradby, 2016-04-22 Rendering the suffering of the marginalized visible has been an important aspect of feminist sociological studies of health illness and medicine with the subjective experience of those without access to institutional power being at the forefront of the research This volume analyzes the links between the suffering caused by the intentional violence of war and the unintentional suffering engendered by modern medicinal processes By establishing a fitting tribute to the academic and campaigning work of Meg Stacey Global Perspectives on War Gender and Health responds to her challenge of why medical sociology had not yet turned its gaze upon the health consequences of war A selection of international case studies are used to create a volume of significant interest to sociologists and those working in the fields of anthropology social policy social work peace war and security studies and international development Gender and Violence in the Middle East David Ghanim Ph.D., 2009-03-20 Gender and Violence in the Middle East argues that violence is fundamental to the functioning of the patriarchal gender structure that governs daily life in Middle Eastern societies Ghanim contends that the inherent violence of gender relations in the Middle East feeds the authoritarianism and political violence that plague public life in the region In this societal sense men as well as women may be said to be victims of the structural violence inherent in Middle Eastern gender relations The author shows that the varieties of physical violence against women for which the Middle East is notorious honor killings obligatory beatings female genital mutilation are merely eruptions of an ethos of psychological violence and the threat of physical violence that pervades gender relations in the Middle East Ghanim documents and analyzes the complementary roles of both sexes in sustaining the system of violence and oppressive control that regulates gender relations in Middle Eastern societies He reveals that women are not only victims of violence but welcome the opportunity to become perpetrators of violence in the married female life cycle of subordination followed by domination The mother in law plays a crucial role in supporting the structure of patriarchal control by stoking tensions with her daughter in law and provoking her son to commit sanctioned violence on his wife The author applies his deep analysis of gender and violence in the Middle East to illuminate the motivational profiles of male and female political suicidalists from the Middle East and the martyrological adulation that they are accorded in Middle Eastern societies Interconnecting the Violences of Men Kate Seymour, Bob Pease, Sofia Strid, Jeff Hearn, 2024-11-04 This book aims to expand and enrich understandings of violences by focusing on gendered continuities interconnections and intersections across multiple forms and manifestations of men's violence In actively countering both the compartmentalisation of studies of violence by type and form and the tendency to conceptualise violence narrowly it aims to flesh out not delimit understandings of violence Bringing together cross disciplinary indeed transdisciplinary perspectives

this book addresses how what are often seen as specific and separate violences connect closely and intricately with wider understandings of violence how there are gendered continuities between violences and how gendered violences take many forms and manifestations and are themselves intersectional Grounded by the recognition that violence is itself a form of inequality the contributors to this volume traverse the intersectional complexities across both experiences of violent inequality and what is seen to count as violence The international scope of this book will be of interest to students and academics across many fields including sociology criminology psychology social work politics gender studies child and youth studies military and peace studies environmental studies and colonial studies as well as practitioners activists and policymakers engaged in violence prevention **Crime, Violence and Masculinities** Stephen Tomsen, 2024-12-30

Providing a detailed survey of the author's work over three decades this book chronicles Tomsen's studies of interpersonal violence and masculinities which initiated new approaches and topic areas and informed related theorising These novel approaches in social science research sparked new pathways of understanding which are outlined and evaluated in discussions of contemporary research and theoretical debates regarding masculinities and violence The work reflects phases of study concerning 1 public and related private urban male violence 2 anti gay anti queer assaults and homicides hate crimes and the ambivalent official responses to these 3 the ambiguous views of violence and different masculinities that are generated and circulate in criminal justice systems and in popular film and online culture and 4 frames of understanding masculine violence that have emerged in recent decades to further explain and address the apparent intractability of much offending its relationship to related forms of social privilege or disadvantage and preventive measures and programmes that are intended to counter this Crime Violence and Masculinities provides insight into the long term production of knowledge about masculinity and gendered violence that will benefit readers engaged in researching these topics as well as those with an interest in research results and their translation into related theory more broadly Violence Against Queer People Doug Meyer, 2015-10-11 Violence against lesbians and gay men has increasingly captured media and scholarly attention But these reports tend to focus on one segment of the LGBT community white middle class men and largely ignore that part of the community that arguably suffers a larger share of the violence racial minorities the poor and women In Violence against Queer People sociologist Doug Meyer offers the first investigation of anti queer violence that focuses on the role played by race class and gender Drawing on interviews with forty seven victims of violence Meyer shows that LGBT people encounter significantly different forms of violence and perceive that violence quite differently based on their race class and gender His research highlights the extent to which other forms of discrimination including racism and sexism shape LGBT people's experience of abuse He reports for instance that lesbian and transgender women often described violent incidents in which a sexual or a misogynistic component was introduced and that LGBT people of color sometimes weren't sure if anti queer violence was based solely on their sexuality or whether racism or sexism had also played a role Meyer observes that given

the many differences in how anti queer violence is experienced the present media focus on white middle class victims greatly oversimplifies and distorts the nature of anti queer violence In fact attempts to reduce anti queer violence that ignore race class and gender run the risk of helping only the most privileged gay subjects Many feel that the struggle for gay rights has largely been accomplished and the tide of history has swung in favor of LGBT equality Violence against Queer People on the contrary argues that the lives of many LGBT people particularly the most vulnerable have improved very little if at all over the past thirty years

Homophobic Violence in Armed Conflict and Political Transition José Fernando Serrano-Amaya, 2017-08-07 This book argues that homophobia plays a fundamental role in disputes for hegemony between antagonists during political transitions Examining countries not often connected in the same research Colombia and South Africa the book asserts that homophobia as a form of gender and sexual violence contributes to the transformation of gender and sexual orders required by warfare and deployed by armed groups Anti homosexual violence also reinforces the creation of consensus around these projects of change The book considers the perspective of individuals and their organizations for whom such hatreds are part of the embodied experience of violence caused by protracted conflicts and social inequalities Resistance to that violence are reason to mobilize and become political actors This book contributes to the increasing interest in South South comparative analyses and the need of theory building based on case study analyses offering systematic research useful for grass root organizations practitioners and policy makers

identity markers such as gender and sexuality intersect with violence synthesizing the themes of gender sexuality and violence to offering a crucial and coherent framework for understanding the interrelationship between these concepts Aliraza Javaid explores how violence is experienced at a local regional and global level and considers the ways in which hegemonic masculinities are reproduced through violence Attention is given to the particular ways in which these constructions of masculinity are reflected in areas such as homophobic violence transphobic violence and violence against intimate partners Drawing on new empirical data and his own personal experiences of violence as well as identifying new areas for further research Javaid s work represents a unique study of the interconnectedness of violence gender and sexuality and of how violence is fuelled by society s attitudes towards masculinity

Gender in Spanish Urban Spaces Maria C. DiFrancesco,Debra J. Ochoa,2018-01-03 This edited collection examines the synergistic relationship between gender and urban space in post millennium Spain Despite the social progress Spain has made extending equal rights to all citizens particularly in the wake of the Franco regime and radically liberating Transición the fact remains that not all subjects particularly women immigrants and queers possess equal autonomy The book exposes visible shifts in power dynamics within the nation s largest urban capitals Madrid and Barcelona and takes a hard look at more peripheral bedroom communities as all of these spaces reflect the discontent of a post nationalistic economically unstable Spain As the contributors problematize notions of public and private space and disrupt gender binaries related with these they aspire to engender discussion around civic status the administration of space and the place of all citizens in a global world

Safe Space Christina B. Hanhardt,2013-12-04 Winner 2014 Lambda Literary Award in LGBT Studies Since the 1970s a key goal of lesbian and gay activists has been protection against street violence especially in gay neighborhoods During the same time policymakers and private developers declared the containment of urban violence to be a top priority In this important book Christina B Hanhardt examines how LGBT calls for safe space have been shaped by broader public safety initiatives that have sought solutions in policing and privatization and have had devastating effects along race and class lines Drawing on extensive archival and ethnographic research in New York City and San Francisco

Hanhardt traces the entwined histories of LGBT activism urban development and U S policy in relation to poverty and crime over the past fifty years She highlights the formation of a mainstream LGBT movement as well as the very different trajectories followed by radical LGBT and queer grassroots organizations Placing LGBT activism in the context of shifting liberal and neoliberal policies *Safe Space* is a groundbreaking exploration of the contradictory legacies of the LGBT struggle for safety in the city Queer Conflict Research Jamie J. Hagen, Samuel Ritholtz, Andrew Delatolla, 2025-06-10 Bringing together a team of international scholars this volume provides a foundational guide to queer methodologies in the study of political violence and conflict Contributors provide illuminating discussions on why queer approaches are important what they entail and how to utilise a queer approach to political violence and conflict The chapters explore a variety of methodological approaches including fieldwork interviews cultural analysis and archival research They also engage with broader academic debates such as how to work with research partners in an ethical manner Including valuable case studies from around the world the book demonstrates how these methods can be used in practice It is the first critical in depth discussion on queer methods and methodologies for research on political violence and conflict Witnessing Sadism in Texts of the American South Claire Raymond, 2019-10-28 Looking at works by Carrie Mae Weems Toni Morrison Emily Dickinson Flannery O Connor Dorothy Allison Carson McCullers and Zora Neale Hurston Claire Raymond uncovers a pattern of femininity constructed around representations of sadistic violence in American women s literature and photography from the late nineteenth and twentieth centuries Dickinson s poetry is read through its relationship to the Southern Agrarian critics who championed her work While the representations of violence found in Carrie Mae Weems s installation *From Here I Saw What Happened and I Cried* Morrison s *Beloved* Dickinson s poetry O Connor s *A View of the Woods* and *A Good Man Is Hard to Find* Allison s *Bastard* Out of Carolina McCullers *Ballad of the Sad Caf* and Hurston s *Mules and Men* are diverse in terms of artistic presentation all allude to or are set in the antebellum and Jim Crow South In addition all involve feminine characters whose subjectivity is shaped by the practice of seeing acts of violence inflicted where there can be no effective resistance While not proposing an equivalence between representing violence in visual images and written text Raymond does suggest that visual images of violence can be interpreted in context with written evocations of violent imagery Invoking sadism in its ethical sense of violence enacted on a victim for whom self defense and recourse of any kind are impossible Raymond s study is ultimately an exploration of the idea that a femininity constructed by the positioning of feminine characters as witnesses to sadistic acts is a phenomenon distinctly of the American South that is linked to the culture s history of racism **Acts of Love and Lust** Lisa Featherstone, 2014-10-02 The past six decades have seen astonishing changes in the construction of sexuality as an apparatus of knowledge and as a lived experience Australia like much of the West has undergone a veritable sexual revolution in attitudes and behavior From early sex therapy to gay marriage the juggernaut of late modern sexuality has significantly remade Australian social and cultural life This collection brings together

the work of leading historians of sexuality to consider sixty years of remarkable sexual and social change Acts of Love and Lust explores the ways both heterosexuality and homosexuality were constructed by the state through sex education in medicine by the law political activists and in the hands of the media Just as importantly contributors consider the ways sexuality was experienced not as a monolithic or imposed institution but how it was explored and enjoyed by individual bodies across different times and spaces The authors examine the pleasures and pains of living in sexual bodies and explore the manifest ways that love and lust shaped Australia s society and culture

Critical Queer Studies Casey Charles, 2016-04-22 Critical Queer Studies examines contemporary films and documentaries that dramatize the intersection of law and queer life analyzing the effects of legal doctrines jury selection unwanted sexual advance negligence hate crimes and gay marriage on the production and reception of queer film and fiction Exploring the interaction of these discourses by discussing internationally known American films the book demonstrates how the law maintains its hold over the queer subject through promoting certain ideological fictions and conversely how film and literature draw upon the material realities of queer legal status to dramatize conflicts between law and the marginalized subject Critical Queer Studies synthesizes queer studies law and literature and film studies engaging these fields to show how the struggle for gay and lesbian rights has influenced the production of film and fiction
