Les écrans sur la scène Marcel·lí Antúnez,1998 **Performing New Media, 1890-1915** Kaveh Askari,Scott Curtis, Frank Gray, Louis Pelletier,2014-05-29 Essays examining the effects of media innovations in cinema at the turn of the twentieth century affected performances on screen as well as beside it In the years before the First World War showmen entrepreneurs educators and scientists used magic lanterns and cinematographs in many contexts and many venues To employ these silent screen technologies to deliver diverse and complex programs usually demanded audio accompaniment creating a performance of both sound and image These shows might include live music song lectures narration and synchronized sound effects provided by any available party projectionist local talent accompanist or backstage crew and would often borrow techniques from shadow plays and tableaux vivants The performances were not immune to the influence of social and cultural forces such as censorship or reform movements This collection of essays considers the ways in which different visual practices carried out at the turn of the twentieth century shaped performances on and beside the screen

L'Art vivant ,1928 **Authenticity and Legitimacy in Minority Theatre** Patrice Brasseur,Madelena Gonzalez,2010-04-16 Contemporary theatre is one of the best ways for ethno cultural minorities to express themselves whether they be of indigenous origin or immigrants It is often used to denounce social injustice and discrimination and more generally it helps to air questions debated in the wider community It may also express itself thanks to the staging of collective memory for it constitutes a privileged space for the exploration of the trauma of the past colonial for example as well as providing a means of effecting the reconfiguration of a new identity or of articulating an uneasiness about that identity Should minority theatre increase its visibility in relation to the mainstream or on the contrary remain on the margins and assert its specificity This question is at the centre of French Canadian experience for example but also applies to other postcolonial societies in Europe and elsewhere In order to maintain its cultural authenticity should this type of theatre distinguish itself from a multiculturalism that runs the risk of political and social recuperation If it is unable to resist the model proposed by globalization and widespread cultural dissemination will it lose its legitimacy Can and should there be a form of popular art at the service of the community The term minority raises questions that will be examined by the articles collected in this volume What is the definition of a minority Does this term refer to experimental and avant garde art forms as well as to ethno

cultural drama Contemporary theatre is characterized by an aesthetics of hybridity in what measure is this the case for theatre outside the mainstream The exploration of this kind of theatre necessitates an examination of the very concept of theatre per se Since the development of the electronic media as the privileged vector of culture has not the theatrical genre itself become a minority art form These are some of the pressing questions that this volume will try to address thanks to a cross cultural multidisciplinary approach that aims to reveal the rich diversity of the field under study
