The kitchen as political symbol and material reality in the cold war years Richard Nixon and Nikita Khrushchev's famous kitchen debate in 1958 involved more than the virtues of American appliances Both Nixon and Khrushchev recognized the political symbolism of the modern kitchen the kind of technological innovation represented in this everyday context spoke to the political system that produced it The kitchen connects the big politics of politicians and statesmen to the small politics of users and interest groups Cold War Kitchen looks at the kitchen as material object and symbol considering the politics and the practices of one of the most famous technological icons of the twentieth century Defining the kitchen as a complex technological artifact as important as computers cars and nuclear missiles the book examines the ways in which a range of social actors in Europe shaped the kitchen as both ideological construct and material practice These actors from manufacturers and modernist architects to housing reformers and feminists constructed and domesticated the technological innovations of the postwar kitchen The home became a mediation junction in which women users and others felt free to advise producers from the consumer's point of view In essays illustrated by striking period photographs the contributors to Cold War Kitchen consider

such topics as Soviet consumers ambivalent responses to the American dream kitchen argued over by Nixon and Khrushchev the Frankfurter Kitchen a European modernist kitchen of the interwar period and its export to Turkey when its designer fled the Nazis and the British state subsidized kitchen design so innovative that it was mistaken for a luxury American product The concluding essays challenge the received wisdom of past interpretations of the kitchen debate **House & Garden**, 1912 *New York Magazine*, 1995-02-06 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea
