Byrd, 1992 ESL Basal Series Second half of level 1 in a six level series □□□□ **A Basic Course in English and Poetry** □□□□ Elizabeth Libby Wong, 2012 Why this book This is a companion book for boys and girls in secondary schools and a reference book for parents and teachers The book has come about because of the scarcity of the type of books I want to use to teach the essentials of English to secondary school students who are learning English as a second language in an environment in which contact with the English language is minimal This is a book with a difference it is reader friendly and uncluttered It has illustrations in Chinese to flag ideas of special interest to help readers to avoid the types of errors commonly made by students It aims to help them grasp the basics of English and the practical aspects of its usage Poetry being the soul of any language part of this book discusses poetic measures the appreciation of poetry and what is new in poetry today This book a labour of love is also about caring and sharing To promote the practical use of good English is what I care about I think Hong Kong will be a better place for it It shares with readers my knowledge of English learned from and attributable to my English teachers in schools and universities all those years ago It shares with my readers my experiences gathered over many years in teaching English and using English in the work place both during the colonial years in Hong Kong and during my long periods of sojourn overseas in English speaking countries No language is ever static either in its influence or usage Consider how the former Prime Minister of Australia Kevin Rudd delivered his speech at Beijing University in fluent Mandarin Consider also how the 1st Vice Premier of China Li Keqiang ended his speech at Hong Kong University in fluent English All this tells me that no matter who we are or where we come from we are linked by culture in one way or another Thus in preparing the contents of this book regard has been taken of the variations and changes to the language that have taken place through globalization and advances in modern technology and the various innovations currently on the market As shown in the contents each of the easy to read chapters in the book focuses on specific areas of interest Enjoyment of any language is the beginning of a good thing Enjoy A Basic Course in English and Poetry A Basic Course in English and Poetry *A Dictionary of the English Language* Samuel Johnson, 1799 *Corpora in Applied Linguistics* Nikola Dobrić, Eva-Maria Graf, Alexander Onysko, 2016-08-17 This volume brings together contributions from the Klagenfurt Conference of Corpus Based Applied Linguistics CALK14 in order to extend corpus linguistic research in different areas of applied linguistics The studies gathered here explore the opportunities that both spoken and written corpora offer for answering questions in different domains of applied linguistics such as second language learning language testing comparative linguistics learner pragmatics and specialised discourses At the same time the contributions also give insight

into possible limitations and further challenges of corpus based research in these areas *Designing and Implementing Multimodal Curricula and Programs* J. C. Lee, Santosh Khadka, 2018-01-19 This volume presents a comprehensive overview of multimodal approaches to curriculum and programmatic implementation across a diverse range of teaching environments and across geographic and cultural boundaries Featuring contributions from scholars within and across both disciplines the book examines the ways in which new technologies link to expanding definitions of literacy and building on this how multimodal approaches might most effectively address the unique opportunities and challenges instructors face in contemporary classrooms and professional development programs Chapters draw on case studies from both existing scholarship and findings from the authors own experiences in practice including examples from writing rhetoric and composition courses open online learning courses and interdisciplinary faculty training programs The final section of the book showcases how the conversation might be further extended to address increasingly multilingual classrooms by exploring how multimodality has been implemented in transnational settings Engaging with key questions at the intersection of programmatic and curricular development and multimodal studies this book is a fundamental resource for graduate students and scholars in multimodality rhetoric studies language education applied linguistics and communication studies
