Spell Short Stories Original Title Lumm:

Breaking the Sequence Ellen G. Friedman, Miriam Fuchs, 2014-07-14 These nineteen essays introduce the rich and until now largely unexplored tradition of women's experimental fiction in the twentieth century. The writers discussed here range from Gertrude Stein to Christine Brooke-Rose and include among others Virginia Woolf, Jean Rhys, Jane Bowles, Marguerite Young, Eva Figes, Joyce Carol Oates, and Marguerite Duras. Friedman and Fuchs demonstrate the breadth of their research first in their introduction to the volume in which they outline the history of the reception of women's experimental fiction and analyze and categorize the work not only of the writers to whom essays are devoted but of a number of others too, and second in an extensive and wonderfully useful bibliography. Emma Kafalenos, *The International Fiction Review*. After an introduction that is practically itself a monograph, eighteen essayists, too many of them distinguished to allow an equitable sampling, take up three generations of postmodernist American literature. The editors see this volume as part of the continuing feminist project of the recovery and foregrounding of women writers. Friedman and Fuchs's substantive introduction excellently synthesizes the issues presented in the rest of the volume. Patrick D. Murphy, *Studies in the Humanities*. Originally published in 1989, *The Princeton Legacy Library* uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.
