Reconstructive Surgery and Modernisation in Twentieth-Century South Africa Suryakanthie Chetty, 2023-07-28 This book traces the career of pioneering South African plastic and reconstructive surgeon Jack Penn from its beginnings during the Second World War It explores the establishment of Penn s private practice and his work in diverse countries including Gabon Japan and Israel as he sought to rectify the injury caused by conflict It also addresses his role on the President s Council established by Prime Minister P W Botha to introduce reform to the system of apartheid Penn s career is contextualised by modernisation which was a significant feature of twentieth century South Africa It was linked with race from the inception of the state in 1910 with racial segregation and paternalism Penn s work during the Second World War was part of a modernist bent by the state under Jan Smuts to take the lead in promoting science and technological development which continued during apartheid Modernisation was also fluid with state priority shifting between the two poles of development and security as apartheid policies were met with hostility both within the state and beyond its borders

Within the context of decolonisation increasing black urbanisation required a balancing act on the part of the state to uphold the ideology of racial distinction while simultaneously addressing economic challenges and this was reflected in the reform initiatives under Botha Plastic and reconstructive surgery as evident in the work of Jack Penn is intertwined with this narrative of apartheid modernisation and reform It demonstrated Western prowess with medicine and development a perceived bulwark against Communism It also served as a means for the modernising apartheid state to initiate maintain or enhance alliances with other states in the facing of mounting isolation and international condemnation The career of Jack Penn then is a lens through which the contradictions complexities and anxieties of twentieth century South Africa are exposed **Esquire** ,1937 The Facemaker Lindsey Fitzharris,2022-06-07 A New York Times Bestseller Finalist for the 2022 Kirkus Prize Named a best book of the year by The Guardian Enthralling Harrowing Heartbreaking And utterly redemptive Lindsey Fitzharris hit this one out of the park Erik Larson author of The Splendid and the Vile Lindsey Fitzharris the award winning author of The Butchering Art presents the compelling true story of a visionary surgeon who rebuilt the faces of the First World War s injured heroes and in the process ushered in the modern era of plastic surgery From the moment the first machine gun rang out over the Western Front one thing was clear humankind s military technology had wildly surpassed its medical capabilities Bodies were battered gouged hacked and gassed The First World War claimed millions of lives and left millions more wounded and disfigured In the midst of this brutality however there were also those who strove to alleviate suffering The Facemaker tells the extraordinary story of such an individual the pioneering plastic surgeon Harold Gillies who dedicated himself to reconstructing the burned and broken faces of the injured soldiers under his care Gillies a Cambridge educated New Zealander became interested in the nascent field of plastic surgery after encountering the human wreckage on the front Returning to Britain he established one of the world s first hospitals dedicated entirely to facial reconstruction There Gillies assembled a unique group of practitioners whose task was to rebuild what had been torn apart to re create what had been destroyed At a time when losing a limb made a soldier a hero but losing a face made him a monster to a society largely intolerant of disfigurement Gillies restored not just the faces of the wounded but also their spirits The Facemaker places Gillies s ingenious surgical innovations alongside the dramatic stories of soldiers whose lives were wrecked and repaired The result is a vivid account of how medicine can be an art and of what courage and imagination can accomplish in the presence of relentless horror **Fat Grafting: Current Concept, Clinical Application, and Regenerative Potential, An Issue of Clinics in Plastic Surgery** Lee L.Q.
