
The Logic of Metaphor in Marvell's "To His Coy Mistress"

Marvell's "To His Coy Mistress" was written when Cromwell's Calvinism constrained liberty and free-will, and the poem exemplifies an unconventional assertion of love and sexual propositioning, while validating the request to yield in sexual activity with three "arguments", structured into stanzas. These segments of the poem consider what would happen if the speaker and his beloved had eternity, the reality of life's brevity and the potential joy of the sexual union. Marvell employs a range of linguistic-stylistic devices to sustain his central method of sexual imagery. The enhancement of the poem caused by his use of enigmatic metaphors in rhymed couplets within an iambic tetrameter makes us question whether Marvell is condemning deceitful male chauvinism or the coyness of females.

The Petrarchan language used by Marvell fundamentally determines the structure of "To His Coy Mistress," as the speaker commences the poem by suggesting the consequences of acquiring eternity to pursue their courtship: "Had we but world enough and time, this coyness, lady, were no crime". By applying hyperbole, metaphor and the conditional tense to this devious speculation he implies that the speaker lacks boundless amounts of time to wait for their sexual union, however he attains such a persuasive trait, through metaphor, that unlocks the emotional barrier of doubt in the "mistress". Marvell recognises that "metaphor is pervasive in language"[1] as the "listener is thrown into a state of momentary uncertainty"[2] which creates an alternate dimension to her view of reality. He suggests that this woman's "coyness" is almost criminal through the imagery fabricated by the use of the word "crime". This implies that rejecting sex automatically makes her a lawbreaker, alluding to the religious and moral expectations of 17th century society, where fornication was seen as a crime as the church morality dominated social behaviour.

The tone of the poem is rather didactic as the speaker presents the "lady" as "coy" which connotes reluctance with an underlying urge to be mischievous; it implies insincerity. The poem's title suggests then that the mistress is merely pretending that she doesn't want to participate in sex with him, and the poem goes on to explain why he labels "coyness" is a "crime." The poet's concerns transcend merely the narrator's view of the 17th century's personal or everyday moral constraints, and articulates how all readers should grab life with both hands and live every moment to the fullest without having to think about every detail therefore presenting "a very modern view of chastity". On the other hand, as the first stanza proceeds Marvell depicts the "crime" of wasting immeasurable time by implicitly criticising the seducer through "The rich brew of symbolic suggestion"[3] (24c) as he states the oxymoron "My vegetable love should grow, vaster than empires and more slow". This could be seen as associating his "love" with a startlingly erotic, exceedingly suggestive "vegetable" which may have shocked 17th century readers, but equally it could suggest how inert and bland their love would be if they were to postpone physical desire indefinitely. The overall effect of the first stanza is that the victim feels as if he is almost patronising and over-indulging her with every woman's desire of true love and that the speaker could be a potential lover, however as the second stanza progresses he outlines scenarios that easily reveal he is self-seeking and manipulative and question whether his actions are

In the second stanza, the movement of the verse is flowing and unfettered as he begins with the

The Art Of Marvell's Poetry:

The Art of Marvell's Poetry J. B. Leishman, 2021-10-29 First Published in 1966 The Art of Marvell's Poetry presents J B Leishman's appreciation of Andrew Marvell's poems by demonstrating a sensitive understanding of attitudes peculiar to the seventeenth century and to Marvell Leishman calls Marvell an inveterate imitator and experimenter His success depended on originality of combination rather than originality of invention But while such phrases as Musick the Mosaïque of the Air Desarts of vast Eternity and a green Thought in a green shade were certainly inspired by others they are distinctively and unquestionably Marvell's own Marvell's poetry is shown to be the work of a man living at a certain moment in history it is poetry which could not have been written at any other time and its affinities to the work of contemporary poets are clearly demonstrated The Art of Marvell's Poetry is a must read for scholars and researchers of English poetry English literature and European literature

The Art of Marvell's Poetry James Blair Leishman, 1966 When J B Leishman died in August 1963 this book the result of several years work was almost finished Four chapters were in their final draft and the task of editing the remaining two fell to his friend and Literary Executor Professor John Butt who has written the Preface Leishman calls Marvell an inveterate imitator and experimenter His success depended on originality of invention He could not have written his poetry if his immediate predecessors had not already written theirs But his success was no less triumphant Such ringing phrases as Musick the Mosaïque of the Air Desarts of vast Eternity and a green Thought in a green shade were certainly inspired by others but they are distinctively and unquestionably Marvell's own And if Marvell depended on the turbulence of his time the Horatian Ode is a cool acceptance of political violence Appleton House a hankering to escape from it To all such questions and to his appreciation of each poem J B Leishman brings both an acute study of the text and a sensitive understanding of attitudes peculiar to the seventeenth century and to Marvell John Butt The Art of Marvell's Poetry James Blair Leishman, 1968 *The art of Marvell's poetry, with a pref* James Blair Leishman, The Art of Marvell's Poetry James Blair Leishman, 1966 **The Art of Marvell's Poetry. The Poems of Andrew Marvell Andrew Marvell, 1969 **Andrew Marvell's Liminal Lyrics** Joan Faust, 2012-09-20 Andrew Marvell's Liminal Lyrics The Space Between is an interdisciplinary study of the major lyric poems of seventeenth century British metaphysical poet Andrew Marvell The poet and his work have generally proven enigmatic to scholars because both refuse to fit into normal categories and expectations This study invites Marvell readers to view the poet and some of his representative lyrics in the context of the anthropological concept of liminality as developed by Victor Turner and enriched by Arnold Van Gennep Jacques Lacan and other observers of the in between aspects of experience The approach differs from previous attempts to explain Marvell in that it allows multidisciplinary and multi media contexts in a broad matrix of the areas of experience and representation that defy boundaries that blur the line at which entrance becomes exit This study acknowledges that the poems discussed and by implication the entire corpus of Marvell's work and the life that

produced it derive from a refusal to draw a definite divide In analyzing a small selection of Marvell s life and lyrics as explorations of various realms of liminality in word and image readers can see a passageway to the poet s works that never really reaches a destination instead the unlimited possibilities of the journey remain Thus the in between aspects of the poet and his poetry actually define his technique as well as his brilliance *Poetry and Ecology in the Age of Milton and Marvell* Diane Kelsey McColley, 2017-03-02 The focus of this study is the perception of nature in the language of poetry and the languages of natural philosophy technology theology and global exploration primarily in seventeenth century England Its premise is that language and the perception of nature vitally affect each other and that seventeenth century poets primarily John Milton Andrew Marvell and Henry Vaughan but also Margaret Cavendish Thomas Traherne Anne Finch and others responded to experimental proto science and new technology in ways that we now call ecological concerned with watersheds and habitats and the lives of all creatures It provides close readings of works by these poets in the contexts of natural history philosophy and theology as well as technology and land use showing how they responded to what are currently considered ecological issues deforestation mining air pollution drainage of wetlands destruction of habitats the sentience and intelligence of animals overbuilding global commerce the politics of land use and relations between social justice and justice towards the other than human world In this important book Diane McColley demonstrates the language of poetry the language of responsible science and the language of moral and political philosophy all to be necessary parts of public discourse **Andrew Marvell** Robert Wilcher, 1985-04-18 This study provides a comprehensive and coherent account of all Andrew Marvell s poetry **The Oxford Handbook of Andrew Marvell** Martin Dzelzainis, Edward Holberton, 2019-03-28 The Oxford Handbook of Andrew Marvell is the most comprehensive and informative collection of essays ever assembled dealing with the life and writings of the poet and politician Andrew Marvell 1621-78 Like his friend and colleague John Milton Marvell is now seen as a dominant figure in the literary landscape of the mid seventeenth century producing a stunning oeuvre of poetry and prose either side of the Restoration In the 1640s and 1650s he was the author of hypercanonical lyrics like *To His Coy Mistress* and *The Garden* as well as three epoch defining poems about Oliver Cromwell After 1660 he virtually invented the verse genre of state satire as well as becoming the most influential prose satirist of the day in the process forging a long lived reputation as an incorruptible patriot Although Marvell himself was an intensely private and self contained character whose literary religious and political commitments are notoriously difficult to discern the interdisciplinary contributions by an array of experts in the fields of seventeenth century literature history and politics gathered together in the Handbook constitute a decisive step forward in our understanding of him They offer a fully rounded account of his life and writings individual readings of his key works considerations of his relations with his major contemporaries and surveys of his rich and varied afterlives Informed by the wealth of editorial and biographical work on Marvell that has been produced in the last twenty years the volume is both a conspectus of the state of the art in Marvell

studies and the springboard for future research **Andrew Marvell** Matthew C. Augustine, 2021-03-18 This book provides an accessible account of the poet and politician Andrew Marvell's life 1621-1678 and of the great events which found reflection in his work and in which he and his writings eventually played a part At the same time considerable space is afforded to reflecting deeply on the modes and meanings of Marvell's art redressing the balance of recent biography and criticism which has tended to dwell on the public and political aspects of this literary life at the expense of lyric invention and lyric possibility Moving beyond the familiar terms of imitation and influence the book aims at reconstructing an embodied history of reading and writing acts undertaken within a series of complex physical and social environments from the Hull Charterhouse to the coffee houses and print shops of Restoration London Care has been taken to cover the whole of Marvell's career in verse and prose even as the book places the lyric achievement at the centre of its vision Andrew Marvell, Orphan of the Hurricane Derek Hirst, Steven N. Andrew Marvell A. D. Cousins, 2016-03-02 This monograph studies how across the Folio of 1681 Marvell's poems engage not merely with different kinds of loss and aspiration but with experiences of both that were in mid seventeenth century England disturbingly new and unfamiliar It

particularly examines Marvell's preoccupation with the search for home and with redefining the homeland in times of civil upheaval. In doing so it traces his progression from being a poet who plays sophisticatedly with received myth to being one who is a national mythmaker in rivalry with his poetic contemporaries such as Waller and Davenant. Although focusing primarily on poems in the Folio of 1681, this book considers those poems in relation to others from the Marvell canon, including the Latin poems and the satires from the reign of Charles II. It closely considers them as well in relation to verse by poets from the classical past and the European, especially English, present.
