The Art Of The Renaissance In Eastern Europe:

The Art of the Renaissance in Eastern Europe Jan Białostocki, 1976 Little has been written about the influence of Italian Renaissance art in eastern Europe even though the Florentine artists who were invited to Buda or Cracow brought with them a more refined and more original form of their art than the Lombards took to France and Germany This handsome volume which contains more than 350 illustrations describes how Hungary Bohemia and Poland succumbed to the irrepressible new style Concerned primarily with architecture sculpture and architectural decoration Professor Białostocki concentrates on the direct impact of Tuscan and North Italian artists known to have worked in various eastern European cities and courts Taking a functionalist approach he considers the historical background of patronage and humanism and he discusses the most typical artistic projects of the time the castle the chapel the tomb and the town His concluding chapter deals with the period when late Renaissance mannerism and early baroque coexisted to form a hybrid style A comprehensive bibliography offers previously uncollected material in several eastern European languages An outstanding contribution to Renaissance studies this book should not only encourage the exploration of new areas of comparative study but also make enlightening reading for nonexperts interested in the art of the Renaissance *The Carved Wooden Torah Arks of Eastern Europe* Bracha Yaniv, 2017-08-01 Monumental carved wooden Torah arks were an outstanding feature of east European synagogues between the seventeenth and the nineteenth centuries yet virtually none survived the Second World War Bracha Yaniv therefore breathes a new life into a lost genre with this extensively researched meticulously documented and richly illustrated book She is the first to paint a vivid portrait of their history and to offer a detailed explanation of the motifs that adorned them *East Central Europe* Lawrence D. Orton, 1989 **The Princely Court** Malcolm Vale, 2001-12-20 In this fascinating new book Malcolm Vale sets out to recapture the splendour of the court culture of western Europe in the thirteenth and fourteenth centuries Exploring the century or so between the death of St Louis and the rise of Burgundian power in the Low Countries he illuminates a period in the history of princes and court life previously overshadowed by that of the courts of the dukes of Burgundy Taking in subjects as diverse as art patronage and gambling hunting and devotional religion Malcolm Vale rediscovers a richness and abundance of artistic literary and musical life He shows how despite the pressures of political fragmentation unrest and a nascent awareness of national identity a common culture emerged in English French and Dutch courts societies at this time The result is a ground breaking re evaluation of the nature and role of the court in European history and a celebration of a forgotten age *The Eclectic Visual Culture of Medieval Moldavia* Alice Isabella Sullivan, 2023-05-25 Winner of the 2023 Early Slavic Studies Book Prize from the Early Slavic Studies Association ESSA Best book Medieval Moldavia which was located within present day northeastern Romania and the Republic of Moldova developed a bold and eclectic visual culture beginning in the 15th century Within this networked Carpathian Mountain region art and architecture reflect the creativity and diversity of the cultural landscapes of Eastern Europe Moldavian objects and

monuments ranging from fortified monasteries and churches enveloped in fresco cycles to silk embroideries delicately carved woodwork and metalwork as well as manuscripts gifted to Mount Athos and other Christian centers negotiate the complex issues of patronage and community in the region. The works attest to processes of cultural contact and translation revealing how Western medieval Byzantine and Slavic traditions were mediated in Moldavian contexts in the post Byzantine period.

Winner of the 2023 Early Slavic Studies Book Prize awarded by the Early Slavic Studies Association ESSA for the best book published between Sept 1 2021 and August 31 2023 in the field of Early Slavic Studies pre 1800. The awarding committee praised the volume as the first English monograph to provide a comprehensive overview of Moldavia's artistic and architectural landscape during the 15th and 16th centuries locating the region as a significant facet in the global map of art history. Official ESSA announcement.

Patronage and Humanist Literature in the Age of the Jagiellons Jacqueline Glomski, Senior Research Fellow Jacqueline Glomski, 2007-01-01. Every epoch has its artists, thinkers and creators and behind many of these people there is a patron waiting in the wings. *Patronage and Humanist Literature in the Age of the Jagiellons* looks at the relationship between humanist scholars and their patrons in east central Europe during the early sixteenth century. It is the first study in English specifically to address literary patronage as it existed in this particular time and place. Drawing on the writings of three itinerant scholar poets associated with the courts of Cracow, Buda and Vienna, Jacqueline Glomski argues that even while they supported the imperial pretensions of the Jagiellonian monarchs, the humanist scholars of east central Europe also created effective propaganda for themselves by representing their own role in the conferring of fame upon their patrons. Using a wide array of source material from dedicatory letters to panegyric and political literature, Glomski describes how important patronage was to the scholar poets and analyzes the process by which conventions of Renaissance humanism spread across Europe. *Patronage and Humanist Literature in the Age of the Jagiellons* is an insightful historic account that is accessible to anyone interested in patronage at the time of the European Renaissance.

Toward a Geography of Art Thomas DaCosta Kaufmann, 2004-03-14. Art history traditionally classifies works of art by country as well as period, but often political borders and cultural boundaries are highly complex and fluid. Questions of identity, policy and exchange make it difficult to determine the place of art and often the art itself results from these conflicts of geography and culture. Addressing an important approach to art history, Thomas DaCosta Kaufmann's book offers essays that focus on the intricacies of accounting for the geographical dimension of art history during the early modern period in Europe, Latin America and Asia. *Toward a Geography of Art* presents a historical overview of these complexities, debates contemporary concerns and completes its exploration with a diverse collection of case studies. Employing the author's expertise in a variety of fields, the book delves into critical issues such as transculturation of indigenous traditions, *mestizaje*, the artistic metropolis, artistic diffusion, transfer, circulation, subversion and center and periphery. What results is a foundational study that establishes the geography of art as a subject and forces us to reconsider assumptions about the place of art that underlie the

longstanding narratives of art history *Central Europe as a Meeting Point of Visual Cultures* Autori

Vari,2021-11-08T17:39:00+01:00 The end of World War I in 1918 meant a radical transformation of Central Europe the multicultural space of former empires became divided into individual nation states This altered all spheres of life deeply impacting the discipline of art history as well The cosmopolitan vision of art history developed by figures from the Vienna School such as Franz Wickhoff and Alois Riegl was gradually replaced by new self referential narratives This nationalist tendency was reinforced by the division of Europe after World War II In the wake of Ji Kroupa s pioneering studies this volume takes a truly transcultural approach to art produced in the Central European region from the 12th to the 20th century Freed from national prejudices a region shaped by the constant movement of people ideas and objects emerges

The Price of Freedom Piotr S. Wandycz,2017-07-05 The Price of Freedom surveys and explains the fascinating and intricate history of East Central Europe the present day countries of the Czech Republic Hungary Poland and Slovakia Taking a thematic approach the author explores such issues and controversies as the tension between the industrial developed West and the agrarian East Central Europe the rise of modern nationalism democracy and authoritarianism and Communism While the countries of East Central Europe have differed dramatically from one another the author asserts that they have been bound by a certain community of fate These comparisons are traced through the Middle Ages and the Early Modern era to the nineteenth and twentieth centuries This exploration reveals that it is no accident that the Czech Republic Hungary and Poland were the first among the former Soviet bloc nations to be admitted to NATO and are likely to become the first members of the expanded European Union Thus an understanding of their experiences contributions and their place within the European community of nations vastly enriches our knowledge of Europe s past and present The second edition of this distinguished book brings the history of the region up to date It discusses the events of the post communist decade of the 1990s and the problems resulting from the transition to democracy and market economy **Pro refrigerio animae: Death**

and Memory in East-Central Europe Angela Jianu,Gheorghe Lazăr,2023-08-04 The historiography of death memory and testamentary practices is already abundant in Western Europe and a fairly large number of extra European regions For East Central Europe there are many short studies in various regional languages mainly on anthropological ethnographic aspects of the funeral rituals This is an edited collection of studies by international scholars on the interlocking themes of attitudes and discourses on death commemorative practices and inheritance testamentary strategies in the Balkans and East Central Europe These and other related themes are addressed comparatively and cover areas including Albania Bulgaria Romania Greece and areas of the former Yugoslavia Hungary and Austria from the perspective of imperial Ottoman and Habsburg legacies Pro refrigerio animae Death and Memory in East Central Europe contributes to this subject by linking anthropological religious cultural approaches to death to the legal economic aspects of inheritance commemoration adding a still absent East Central European and Habsburg Balkan and Ottoman dimension to the study of death memorialization and

testaments and presenting an abundant primary and secondary material in English translation and thus placing research on death and testaments by East Central and Greek scholars within the international scholarly circuit Atlas of World Art John Onians,2004 Combines a survey of world art with maps showing the associations and dissemination of culture across the globe *Globalizing East European Art Histories* Beáta Hock,Anu Allas,2018-05-30 This edited collection reassesses East Central European art by offering transnational perspectives on its regional or national histories while also inserting the region into contemporary discussions of global issues Both in popular imagination and to some degree scholarly literature East Central Europe is persistently imagined as a hermetically isolated cultural landscape This book restores the diverse ways in which East Central European art has always been entangled with actors and institutions in the wider world The contributors engage with empirically anchored and theoretically argued case studies from historical periods representing notable junctures of globalization the early modern period the age of Empires the time of socialist rule and the global Cold War and the most recent decades of postsocialism understood as a global condition Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office,2007 **Library of Congress Subject Headings** Library of Congress,2011 **A History of Eastern Europe** Robert Bideleux,Ian Jeffries,2007-09-12 This welcome second edition of A History of Eastern Europe provides a thematic historical survey of the formative processes of political social and economic change which have played paramount roles in shaping the evolution and development of the region Subjects covered include Eastern Europe in ancient medieval and early modern times the legacies of Byzantium the Ottoman Empire and the Habsburg Empire the impact of the region s powerful Russian and Germanic neighbours rival concepts of Central and Eastern Europe the experience and consequences of the two World Wars varieties of fascism in Eastern Europe the impact of Communism from the 1940s to the 1980s post Communist democratization and marketization the eastward enlargement of the EU A History of Eastern Europe now includes two new chronologies one for the Balkans and one for East Central Europe and a glossary of key terms and concepts providing comprehensive coverage of a complex past from antiquity to the present day **A Heretical History of Architecture** Andrzej Piotrowski,2024-12-09 A Heretical History of Architecture challenges the conventional understanding of significant developments in Western architecture as a series of alignments among dominant ideologies and artistic programs arguing instead that the most consequential changes in the evolution of artistic and design practices across Europe between the fifth and seventeenth centuries were motivated by tensions between local religious or cultural traditions and centralized power This groundbreaking study richly demonstrates the processes through which heterodox beliefs that persisted within numerous diverse communities resulted in design experimentation so syncretic that it has heretofore eluded scholars employing conventional Euro centric taxonomies of architectural styles **Jews in Eastern Europe** Katarzyna Kornacka-Sareło,Waldemar Szczerbiński,2016-01-14 The problem of being a stranger is present in every culture In this context the Jewish question is often discussed since the Jews have been present in other nations for

centuries constituting the social and cultural minority and being almost always perceived as strangers This volume presents a detailed analysis of Jewish self perceptions and attitudes often very complex towards other societies and communities living in the same lands The contributors to this book explore the lengthy discussions between both the supporters and adversaries of assimilation within the Jewish environment and also between the assimilated Jews and non Jews which often further complicate this issue As the authors show here the methods of assimilation of eastern European Jews were not straightforward but were rather often rather complicated and rough Many Jewish people were trying to find the best solution to their own Jewish question and adapt themselves reasonably to the gentile environment and to the changing realities of the world in which they had to exist regardless of their will or in which they freely chose to live having made autonomic and personal decisions As such this volume explores Jewish assimilation issues from a wide and multifaceted perspective
