The Sacred Life of Modernist Literature Allan Kilner-Johnson, 2022-06-16 Probing the relationship between modernist literary experimentation and several key strands of occult practice which emerged in Europe from roughly 1894 to 1944 this book sets the work of leading modernist writers alongside lesser known female writers and writers in languages other than English to more fully portray the aesthetic and philosophical connections between modernism and the occult Although the early decades of the twentieth century the era of cocktails motorcars bobbed hair and war are often described as a period of newness and innovation many writers of the time found inspiration and visionary brilliance by turning to the mysterious occult past This book's principle intervention is to reimagine the contours and boundaries of literary modernism by welcoming into the conversation a number of significant female writers and writers in languages other than English who are often still relegated to the fringes of modernist studies Well remembered poets and novelists such as Ezra Pound W B Yeats and Aleister Crowley were tied to occult beliefs and this book sets these leading figures alongside less well remembered but equally splendid modernists including Paul Brunton Mary Butts Alexandra David Neel Florence Farr Dion Fortune Hermann Hesse and Rudolf Steiner From the little magazines where occultism and Fabianism were comfortable companions to consulting rooms of psychoanalysts where archetypes were revealed to be both mystical and mundane to the forbidden mountain trails that led to formidable spiritual teachers the conditions of modernism were invariably those conditions which inspired a return to the occult traditions that many thinkers believed had long evaporated Indeed in many ways these traditions were the making of the modern world By uncovering hidden hopes and anxieties that faced a newly modern Western Europe this book demonstrates how literary modernists understood occultism as a universal form of cultural expression which has inspired creative exuberance since the dawn of civilisation
