Dallas '63 Peter Dale Scott,2015-09-29 Our most provocative scholar of American power reveals the forces behind the assassination of JFK and their continuing influence over our world David Talbot Salon On November 22 1963 President John F Kennedy was gunned down in Dallas by Lee Harvey Oswald Shortly after Oswald himself was killed These events led many to believe there was a far greater plan at work with a secret cabal of powerful men manipulating the public and shaping US policies both at home and abroad for their own interests But no one could imagine how right they were Beneath the orderly facade of the American government there lies a complex network only partly structural linking Wall Street influence corrupt bureaucracy and the military industrial complex Here lies the true power of the American empire This behind the scenes web is unelected unaccountable and immune to popular resistance Peter Dale Scott calls this entity the deep state and he has made it his life s work to write the history of those who manipulate our government from the shadows Since the aftermath of World War II the deep state s power has grown unchecked and nowhere has it been more apparent than that day at Dealey Plaza In this landmark volume Scott traces how culpable elements in the CIA and FBI helped prepare for the assassination and how the deep state continues to influence our politics today As timely and important as ever in the current chaotic political climate Dallas 63 is a reality shattering frightening expos not of those who govern us but of those who govern those who govern us

Act of Retribution J.P. Phillips,2010-03-17 My quest for an answer to the riddle of President Kennedys assassination first began in April 1967 following a talk given by Warren Commission critic and best selling author Mark Lane at Michigan State University where I was a graduate student My search has lasted well over twenty years Gathering every scrap of information I could find on the assassination I have arrived at what I believe is the most credible thesis to date As a result of meticulous research I am able to identify probable suspects in what I have come to believe was a far reaching conspiracy which involved not only renegade elements from the CIA and organized crime figures but one which extended to the highest echelons of the U S government By pulling together existing knowledge of the assassination while introducing new evidence my book focuses primarily on six main principals persons of interest their motives and their activities in relation to the assassination and the links that connect them

1 LEE HARVEY OSWALD Accused by the Warren Commission In 1964 of being the sole assassin of President Kennedy 2

JACK RUBY Dallas night club owner who two days following the Presidents assassination shot and killed Oswald 3 CARLOS MARCELLO Reputed crime boss of the New Orleans Dallas Mafia during the time of the assassination 4 GENERAL CHARLES PEARE CABELL Deputy Director of the CIA from 1953 to 1962 when he was dismissed by President Kennedy along with other high ranking intelligence officials for the failure of the Bay of Pigs invasion 5 EARLE CABELL Younger brother of General Charles P Cabell who was Mayor of Dallas the day President Kennedy was assassinated 6 FRED KORTH Fort Worth businessman and banker who was Secretary of the Navy from 1962 to October 1963 when he was forced by President Kennedy to resign for his involvement in the TFX controversy

As to the motives of those individuals involved in the Presidents murder I believe that the assassination was planned and carried out with a dual purpose in mind 1 as an act of vengeance by those ex high government officials who were dismissed by the President either for alleged wrongdoing as in the case of Fred Korth or for incompetence as in General Cabells case 2 to prevent the Presidents domestic and foreign policies particularly in reference to his stand on the Vietnam conflict from being implemented

Viewed in this light the assassination of President Kennedy was an act of retribution by a group of mean spirited vengeance seeking individuals who acted in the misguided belief that by assassinating this president they were furthering the national interest

Notwithstanding his immense popularity with the American people President Kennedy was perceived by his killers to be a clear and present danger to the country and to its interests at home and abroad for several reasons for his stand on civil rights and racial equality for his attempt to closely regulate the oil and gas industry for his desire to normalize relations with Cuba for his desire to ease tensions between the superpowers through a reduction in armaments for his crackdown on organized crime for his stated intention to withdraw U S forces from Vietnam

Removing him from office by political murder therefore excused his killers in their own eyes from any wrongdoing for by killing this President they were convinced that they were acting in the national interest against the seemingly dangerous policies of a chief executive who if allowed to finish his presidency would lead the nation to ruin

A wise mind will never censure anyone for having employed any extraordinary means for preserving a kingdom

Believing like Machiavelli that they were acting to preserve and maint The American Deep State Peter Dale Scott, 2017-05-02

Now in a new edition updated through the unprecedented 2016 presidential election this provocative book makes a compelling case for a hidden deep state that influences and often opposes official U S policies

Prominent political analyst Peter Dale Scott begins by tracing America s increasing militarization restrictions on constitutional rights and income disparity since World War II

With the start of the Cold War he argues the U S government changed immensely in both function and scope from protecting and nurturing a relatively isolated country to assuming ever greater responsibility for controlling world politics in the name of freedom and democracy

This has resulted in both secretive new institutions and a slow but radical change in the American state itself

He argues that central to this historic reversal were seismic national events ranging from the assassination of President Kennedy to 9 11

Scott marshals compelling evidence that the deep state is

now partly institutionalized in non accountable intelligence agencies like the CIA and NSA but it also extends its reach to private corporations like Booz Allen Hamilton and SAIC to which 70 percent of intelligence budgets are outsourced Behind these public and private institutions is the influence of Wall Street bankers and lawyers allied with international oil companies beyond the reach of domestic law Undoubtedly the political consensus about America s global role has evolved but if we want to restore the country s traditional constitutional framework it is important to see the role of particular cabals such as the Project for the New American Century and how they have repeatedly used the secret powers and network of Continuity of Government COG planning to implement change Yet the author sees the deep state polarized between an establishment and a counter establishment in a chaotic situation that may actually prove more hopeful for U S democracy

Encyclopedia of Political Assassinations Nigel West,2017-08-07 With the recent declassification of secret documents new light has been shed on old mysteries For example we now know that what might be termed the JFK assassination conspiracy industry was deliberately fueled and manipulated by the KGB so as to distract the CIA and undermine confidence in successive U S administrations Also new evidence continues to emerge of Vladimir Putin s commitment to the extra judicial elimination of extremists overseas as legitimized by the Duma in July 2006 Controversially the legislation included a definition of extremists as those slandering the individual occupying the post of president of the Russian Federation The Encyclopedia of Political Assassinations contains a chronology an introduction and appendixes The encyclopedia section has more than 700 cross referenced entries on assassinations intelligence agencies politics and foreign relations **Forbidden**

Bookshelf's Resistance in America Collection Nancy Howell Lee,Peter Dale Scott,Bertram Gross,2017-06-13 From creeping capitalism to abortion to government corruption these three books shed light on controversial topics that are too often left in the dark Curated by NYU professor Mark Crispin Miller the Forbidden Bookshelf series resurrects books from America s repressed history All touching on bold and debated topics these three books are more relevant today than ever Friendly Fascism Bertram Gross a presidential adviser in the New Deal era explores the insidious way that capitalist politics could subvert America s constitutional democracy First published over three decades ago this book predicted the threats and realities that occur when big business and big government become bedfellows while demonstrating how US citizens can build a truer democracy The Search for an Abortionist Nancy Howell Lee s eye opening account reveals the dangerous and illegal options for women seeking an abortion before Roe v Wade Based on interviews with 114 women this groundbreaking work takes an intimate look at the abortion process Dallas 63 Peter Dale Scott exposes the deep state an intricate network within the American government linking Wall Street influence corrupt bureaucracy and the military industrial complex Since World War II its power has grown unchecked and nowhere has it been more apparent than at Dealey Plaza on November 22 1963 Scott details the CIA and FBI s involvement in the JFK assassination and shows how events like Watergate the Iran Contra affair and 9 11 are all connected to this behind the scenes web of corruption **Crime of the Century** Michael L.

Kurtz, 2025-03-14 Now a classic Michael Kurtz's *Crime of the Century* recounts the assassination of President John F. Kennedy on November 22, 1963 and provides a detailed critical analysis of the investigations of the Warren Commission and the House Select Committee on Assassinations. Kurtz outlines the major areas of controversy about the assassination and sifts all the known evidence before concluding that both official inquiries failed to evaluate the considerable evidence of an assassination conspiracy. Kurtz also examines each of the most prevalent conspiracy theories and shows how often they fail to fit the facts. This third edition includes a new introduction based on updated information about the assassination since the second edition was published in 1993, including material from the National Archives and several major recent interpretations of the events. Drawing on a variety of primary source materials from the National Archives and the FBI's and CIA's declassified assassination files, *Crime of the Century* remains a book of importance not only to students of the Kennedy assassination but also scholars of government response to political violence.
