The Attack Of Everything:

A Fine View of the Show Hector Jackson, Andrew Jackson, 2009 A first hand glimpse into daily life on the Western Front that is riveting informative and poignant Hector Jackson left his family's British Columbia farm in 1915 to fight in World War I. Recounted through 130 descriptive letters Jackson's idealistic adventure descended into the gritty reality of trench warfare when as a newly commissioned officer he was catapulted into the Battle of the Somme. Against the odds Jackson survived many of the great battles of the Western Front to be awarded the Military Cross for gallantry under fire at Passchendaele and rise to the rank of captain. Gassed just ten days before the war ended he joined the river of wounded flowing from the battlefield. Photographs illustrate the unique story told in these letters from Jackson's farm life through military training to the grim existence of the Western Front. Andrew Jackson's introduction and historical narrative along with helpful notes weave these letters into a dramatic chronicle.

Everything Under the Sun Spencer Steeves, 2020-08-12 Sun's Reach is in dire peril. The last war between ancient enemies Sun's Reach and Moonwatch was one hundred years ago. With the Eclipse blocking the two kingdoms from each other it truly should have been the last. But fate has its own plans. Amaru, Sunbrand's daughter of the primary goddess and Emery Redwyn, princess of Sun's Reach, are about to learn this. Amaru is swept into a trek across the Scorched Waste when her tribe is attacked, pushing the Fyroxii ever closer to extinction. As war looms, Emery is plagued by thoughts of her beloved knight missing in action, her fool of a father, and the societal duty to marry all of which may change the rest of her young life.

Battle For Air Supremacy Over The Somme: 1 June-30 November 1916 Lt-Col Thomas G. Bradbeer, 2014-08-15 Much has been written about the Battle of the Somme. From July through late November 1916 British, French, and German armies fought one of the costliest battles of the twentieth century. Well over a million casualties and only a few miles of ground gained by the Allies were the result when the battle ended. Little, however, has been written about the second battle which occurred simultaneously: this one in the skies above the Somme where for the first time in the history of warfare a deliberate attempt was made to control the sky. The British Royal Flying Corps, under the resolute command of General Sir Hugh Trenchard, fought to gain air supremacy from the German Air Service. Trenchard believed that the best way to support the ground force was to dominate and control the sky above the battlefield. This air campaign was critical because of its impact on the doctrine and theory of air warfare which followed it. This study examines the efforts of the Royal Flying Corps to gain air supremacy against the German Air Service before and during the Battle of the Somme.

Cobbett's Parliamentary Debates Great Britain. Parliament, 1834 **The Battle of the Atlantic and Signals Intelligence** David Syrett, 2018-10-24 This book contains the U-boat situations and trends written by the staff of the Admiralty's Operational Intelligence Centre during the Second World War. Based largely on communications intelligence, the U-boat situations and trends were designed to inform a small number of senior officers and high officials of the latest events and developments in the Allied war against the U-boats. The Battle of the Atlantic and the war against the U-boats was

the longest and the most complex naval battle in history In this huge conflict which sprawled across the oceans of the world the U boats sank 2 828 Allied merchant ships while the Allies destroyed more than 780 German U boats These documents relate on a weekly and in some cases a daily basis exactly what the Allies knew concerning the activities of the U boats during the Battle of the Atlantic

Battles of the Crimean War W. Baring Pemberton,2017-04-07 The Crimean War has been called the last great war to be fought without the help of modern resources of science It was also the last great war to be fought by the British army in all its splendour of scarlet and gold using weapons and tactics which would not have astonished the Prince Rupert or the Duke of Marlborough Many who fought in the First and not a few who fought in the Second World War will have known personally those who took part in such battles and heard their accounts from their own lips On the other hand no campaign should be more familiar because none has been covered more fully and more candidly The historian of the Crimean battles has then it would appear only to make a synthesis of the innumerable letters and reports and his story is complete Unfortunately this is not so With smoke from the black powder then used drifting across the battlefield lying heavily over batteries the combatant could often see and report little more than what had happened in his vicinity and even in this he is not necessarily reliable As for those who recollected in tranquillity and there were many it is enough to record the remark of a contemporary Canadian military historian Memory can play tricks upon an officer after some lapse of time especially when the officer s own interest and prejudice are engaged Beset by these difficulties the writer who surrounds every incident with reservations and qualifications will rapidly weary his readers He must on matters of moment such for example as Nolan s responsibility for the Light Brigade charge use his judgment on the evidence available and make up his own mind This I have tried to do
