## **The Aura:**

**The Aura** Sarah A. Schweitzer, 2013-11-14 Life in general continually changes The aura energy field of light which surrounds every living human body is also changing Currently the dense 3rd dimensional aura field of light is being replaced with a new 5th dimensional light frequency As our planet continues to ascend and accept the 5th dimensional frequency and light within her aura field many individuals seeking enlightenment will experience an energy shift as their personal aura also accepts the higher light This shift allows the potential for transformational change to occur not only to our global planet but also in ones personal life In transformation old density threads are unwoven and are moved out of the dense aura energy field both at a global earth level and also at the personal human level This allows negative imprints blocks and emotional drama that were once stuck in density access to the higher energy frequency Although the potential to repeat old issues is ever present in any energy field old imprints cannot anchor correctly in 5th dimensional light which lessens their importance as well as their ability to stabilize Once old density issues are destabilized they become easy to process transition and remove from the aura energy field For many individuals this can feel like heaven on earth This book presents information that defines and explains the aura field of light that surrounds the human body When working to transition the density of a 3rd dimensional energy aura into a 5th dimensional frequency of light this information is necessary to know and understand As energy shifts and transitions occur insight is gained about blocks issues and negativity that have been present in density This insight triggers transformational clearing within the aura allowing one to experience wellness and empowered living

*The Aura* T. Arnold, 2009-05-28 With no true identity nor any trace of a family tree a strikingly beautiful young teenage girl by the name of Sara Lightfoot whose physical attributes reflect those of a half blooded native American Indian clings to the only comfort she s ever known That comfort is in the form of a paranormal extra sensory perception She has the ability to visibly see people s intentions Sara s ability reaches far beyond that of a typical sensory perception so much that her friends and family recognize this sense as a gift She can distinguish good intentions from evil intentions To Sara these intentions are not measured facially or verbally but rather by the appearance of alternating colors that surround each person Sara calls these colors auras given that they are as constant as they are specific to each person Though intangible this particular extra sensory perception just might possibly be the first quantifiable paranormal gift ever examined on a scientific scale in that it can be repeated with predictable results The fate of her gift and the destiny of her life come down to a single choice Her dilemma to courageously own up to the full potential of this extraordinary gift or take heed and suppress it is but a conjecture away

[How to See and Read the Aura](#) Ted Andrews, 2006 Anyone can learn to see and experience the aura more effectively Ted Andrews If you ve ever felt immediately comfortable or uncomfortable around someone you ve just met you ve probably sensed a person s aura Now you can learn to actually see the aura the energy field that surrounds the human body Popular author Ted Andrews presents simple and effective techniques for not only seeing auras but also deciphering

what the aura reveals about a person's physical, emotional, and spiritual self. Discover how to see the colors of the aura and interpret their meanings. Make simple tools to measure the aura. Cleanse, strengthen, and protect your own aura. Increase your sensitivity and intuition. Boost your energy and improve your health.

Capturing the Aura: Integrating Science, Technology, and Metaphysics C. E. Lindgren, 2008. The aura has been given many names over the centuries: chi, i, prana, karmic, and Illiaster. In fact, it has been documented for over 5,000 years. Astral lights alluded to by ancient Eastern Indians, Chinese, and Jewish mystics are attributed to a universal energy permeating all matter. The aura was described in early esoteric writings and later in those of the Rosicrucians, Zen Buddhists, Christian mystics, even in the oral traditions of the American Indians. Now *Capturing the Aura* brings the science, technology, and metaphysics of auric investigation into a concise and readable book for the 21st century, a century that will see continuing integration of science and metaphysics into the MetaScience of the future.

The Aura of the Word in the Early Age of Print (1450-1600) Jessica Buskirk, Samuel Mareel, 2017-07-05. Did the invention of movable type change the way that the word was perceived in the early modern period? In his groundbreaking essay *The Work of Art in the Age of Mechanical Reproduction*, the cultural critic Walter Benjamin argued that reproduction drains the image of its aura, by which he means the authority that a work of art obtains from its singularity and its embeddedness in a particular context. The central question in *The Aura of the Word in the Early Age of Print 1450-1600* is whether the dissemination of text through print had a similar effect on the status of the word in the early modern period. In this volume, contributors from a variety of fields look at manifestations of the early modern word in English, French, Latin, Dutch, German, and Yiddish as entities whose significance derived not simply from their semantic meaning but also from their relationship to their material support, to the physical context in which they are located, and to the act of writing itself. Rather than viewing printed text as functional and lacking in materiality, contributors focus on how the placement of a text could affect its meaning and significance. The essays also consider the continued vitality of pre-printing press kinds of text, such as the illuminated manuscript, and how new practices, such as the veneration of handwriting, sprung up in the wake of the invention of movable type.

**The Aura of Love** Kathy J. Marsh, 2006. An introduction made a new love-born society, families, and friends against it. A new power appears, a secret told, a culprit revealed. Will love survive? Will they survive? As Remy struggles to come to grips with her feelings for Jace, an Auralite of a different type, she has no idea that one of their own kind is revealing their existence in a succession of dreams to a world-renowned journalist. The hunt is on to find the culprit once the journalist reveals the dreams as a series of fictional accounts in a national magazine. Just as Remy starts to accept Jace, the guilty party is revealed to be someone they both know and love. They are now compelled to find the journalist before their ruling body, The Council, does, or the results will be disastrous. Does the hunt strengthen them, hurt them, or rip them apart?
