Water and Power William L. Kahrl,1983-11-08 It is not the purpose of this work to propose a specific format for the settlement of the city's current difficulties with the valley to resolve the environmental questions associated with Los Angeles's proposed groundwater pumping program or to promote any cause associated with the developing situation in the Owens Valley. But by performing the essential historical task of separating what happened from what did not and by distinguishing in this way the choices which have been made from those which have yet to be decided it is my hope that this effort will help to establish that common basis for understanding which is essential for the debate over specific issues to proceed most effectively. This book then is scarcely the last word on the Owens Valley conflict; the final chapter after all has yet to be written. The story that has emerged here is at once very different and more troubling than the conventional treatments of the conflict as a simplistic political morality play. Any attempt to deal with so controversial a subject however is almost certain to spark controversy itself. For that reason with the exception of a small collection of private letters this work is constructed entirely from the published documents and other materials available to the general public, anchoring the narrative in sources the reader can consult to trace the line of my argument on any point with which he or she may disagree. In addition the work as a whole has been reviewed for technical accuracy by officials of the Los Angeles Department of Water and Power although the department is in no way responsible for the content of this study or the conclusions drawn from it. *Blount County, Alabama Marriages, 1866 - 1919* Robin Sterling,2014-12-24 This book contains all the marriages which took place in Blount County, Alabama between the years 1866 and 1919. Images of the original documents from the Blount County Court House were examined page by page and transcribed. Not only was the primary information recorded but other significant details were gathered such as names of bondsmen, names of officials performing the ceremony, names and relationships of those granting permission, and the location of the ceremony. Plus volumes and page numbers were recorded to provide for better

documentation Additionally details of all licenses returned unexecuted were recorded This book also contains those marriages recorded at the satellite Blount County court house at Bangor covering the years 1893 to 1901 This book is a handy tool for those with ancestors in Blount County or those with ancestors in sections of Blount which became Cullman County
