The Austro German Rapprochement 1870 1879 From The Battle Of Sedan To The Dual Alliance:

The Austro-German Rapprochement, 1870-1879 Nicholas Der Bagdasarian,1975 **Military Diplomacy in the Dual Alliance** Tim Hadley,2015-12-24 This book challenges current thinking about the outbreak of World War I and the course of German foreign policy since Bismarck's chancellorship In 1914 Germany's opening offensives against France were to be accompanied by a simultaneous offensive by her ally Austria Hungary against Russia The Austrian offensive was intended to hold the Russians until Germany defeated the French six weeks no more Then the German army would turn east to support the Austrians The Austrian offensive was a catastrophic failure After only days of fighting Russia Germany was obliged to send troops to support Austria lest she capitulate while most of the German army was still in France The Austrian army's severe deficiencies were a constant drain on the German effort throughout the war After the war German memoirists and historians claimed that the German leadership had been unaware of these deficiencies before the war broke out These claims have been accepted by historians down to today The book presents recently re-discovered documentary evidence that the German general staff and Germany's political leadership had known of the Austrian army's weaknesses for decades before the war The book also reveals a new perspective of Bismarck's diplomacy beginning shortly after he engineered the Dual Alliance between the two countries in 1879 It demonstrates that as early as 1882 Bismarck became aware that the Austrian army was far weaker than assumed when he concluded the alliance It was primarily his concern about Austria's weakness that spurred Bismarck's energetic diplomacy seeking alliances and understandings with other countries in the region and which became the main consideration that guided his foreign policy from then on For if Austria suffered a defeat Germany would find itself alone between two dangerous powers France and Russia The consequences of his policies resulted in peace down to his departure in 1890 His successors for a variety of reasons addressed in the book were not as careful ignored Austria's weaknesses despite the warnings of the military attachés and permitted Austria to become involved in a war The result was tragically foreseeable **German Diplomatic Relations 1871-1945** William Young,2006-09-04 The continuity issue has been a theme in German historiography for half a century Historians have examined the foreign policy of Wilhelmine and Nazi Germany that led to two world wars Dr William Young examines the continuity of German Foreign Office influence in the formulation of foreign policy under the leadership of Otto von Bismarck 1862 1890 Kaiser William II 1888 1918 the Weimar Republic 1919 1933 and Adolf Hitler 1933 1945 He stresses the role and influence of strong German leaders in the making of policy and the conduct of foreign relations German Diplomatic Relations 1871 1945 will be of value to individuals interested in the history of Germany Modern Europe and International Relations **The Austro-German Rapprochement, 1870-1879** Nicholas Der Bagdasarian,1975 *The Rebirth of the Habsburg Army* Scott Lackey,1995-10-20 Friedrich Beck was the single most important figure in the transformation of the inept Habsburg military into the modern military state that would wage World War I He correctly perceived that only an elite body of officers responsible for war

planning and preparation could provide lasting security for the Austro Hungarian empire After firmly establishing the general staff as an institution Beck led war planning to counter threats from Russia Italy and the Balkans and spearheaded a vast rebuilding of the rail network While his rise to power marked a return to the favorite system of military administration of the early Franz Joseph period Beck proved himself a man with real military ability that revolutionized an army **Grand Strategy and Military Alliances** Peter R. Mansoor,Williamson Murray,2016-02-09 A broad ranging study of the relationship between alliances and the conduct of grand strategy examined through historical case studies **Prisoner of the Vatican** David I. Kertzer,2006-02-20 A Pulitzer Prize winner s fascinating account of the political battles that led to the end of the Papal States Entertainment Weekly From a National Book Award nominated author this absorbing history chronicles the birth of modern Italy and the clandestine politics behind the Vatican s last stand in the battle between the church and the newly created Italian state When Italy s armies seized the Holy City and claimed it for the Italian capital Pope Pius IX outraged retreated to the Vatican and declared himself a prisoner calling on foreign powers to force the Italians out of Rome The action set in motion decades of political intrigue that hinged on such fascinating characters as Garibaldi King Viktor Emmanuel Napoleon III and Chancellor Bismarck Drawing on a wealth of secret documents long buried in the Vatican archives David I Kertzer reveals a fascinating story of outrageous accusations mutual denunciations and secret dealings that will leave readers hard pressed to ever think of Italy or the Vatican in the same way again A rousing tale of clerical skullduggery and topsy turvy politics laced with plenty of cross border intrigue Kirkus Reviews starred review Bismarck and Mitteleuropa Bascom Barry Hayes,1994 His labors were often fruitless His own master Wilhelm I and the Prussian bureaucrats diplomats and courtiers with direct access to this first of Bismarck s Wilhelmian nemeses could be at least as obstructionist in Berlin as Franz Joseph and his minions in Vienna In fact all too often Bismarck s lack of control over the Prussian elites was in part responsible for the resistance of the Habsburg ruling circle Austria 1867-1955 John W. Boyer,2022-09-15 Austria 1867 1955 connects the political history of German speaking provinces of the Habsburg Empire before 1914 Vienna and the Alpine Lands with the history of the Austrian Republic that emerged in 1918 John W Boyer presents the case of modern Austria as a fascinating example of democratic nation building The construction of an Austrian political nation began in 1867 under Habsburg Imperial auspices with the German speaking bourgeois Liberals defining the concept of a political people Volk and giving that Volk a constitution and a liberal legal and parliamentary order to protect their rights against the Crown The decades that followed saw the administrative and judicial institutions of the Liberal state solidified but in the 1880s and 1890s the membership of the Volk exploded to include new social and economic strata from the lower bourgeoisie and the working classes Ethnic identity was not the final structuring principle of everyday politics as it was in the Czech lands Rather social class occupational culture and religion became more prominent variables in the sortition of civic interests exemplified by the emergence of two great ideological parties Christian Socialism and Social

Democracy in Vienna in the 1890s The war crisis of 1914 1918 exploded the Empire with the Crown self destructing in the face of military defeat chronic domestic unrest and bitter national partisanship But this crisis also accelerated the emergence of new structures of democratic self governance in the German speaking Austrian lands enshrined in the republican Constitution of 1920 Initial attempts to make this new project of democratic nation building work failed in the 1920s and 1930s culminating in the catastrophe of the 1938 Nazi occupation After 1945 the surviving legacies of the Revolution of 1918 reassembled under the four power Allied occupation which fashioned a shared political culture which proved sufficiently flexible to accommodate intense partisanship resulting by the 1970s in a successful republican system organized under the aegis of elite democratic and corporatist negotiating structures in which the Catholics and Socialists learned to embrace the skills of collective but shared self governance

Bismarck: The White Revolutionary Lothar Gall, 2019-07-03 Originally published in English in 1986 these volumes are far more than the story of the life of a powerful statesman The name Bismarck sums up the entire political social economic and intellectual development of central Europe in the second half of the 19th Century and the internal and external shape that Germany then assumed This book analyses how much of this was Bismarck's personal achievement or whether he was the man who put the nation on the disastrously wrong course that reached its fateful culmination in 1933 It examines whether Bismarck's success was precisely because he implemented policies for which the time was ripe and did so in ways that were in harmony with the historical evolution of central Europe

Historical Dictionary of Austria Paula Sutter Fichtner, 2009-06-11 Austrians today often seem to believe that they have two histories One is their republican present the other the centuries that their forebears spent as part of the multi ethnic Habsburg Empire Contemporary Austria is a fixture among Europe's democracies Yet it did not achieve this state easily World War I the unification with Germany in 1938 and World War II were catastrophes for Austria In 1995 it became part of the European Union and its government culture and egalitarian economy are far cries from the monarchical and highly stratified society of the old Empire The second edition of the Historical Dictionary of Austria has been thoroughly updated and greatly expanded Through its chronology introductory essay appendix bibliography and hundreds of cross referenced dictionary entries greater attention has been given to foreign affairs economic institutions and policies social issues religion and politics

Intentions in Great Power Politics Sebastian Rosato, 2021-04-20 Why the future of great power politics is likely to resemble its dismal past Can great powers be confident that their peers have benign intentions States that trust each other can live at peace those that mistrust each other are doomed to compete for arms and allies and may even go to war Sebastian Rosato explains that states routinely lack the kind of information they need to be convinced that their rivals mean them no harm Even in cases that supposedly involved mutual trust Germany and Russia in the Bismarck era Britain and the United States during the great rapprochement France and Germany and Japan and the United States in the early interwar period and the Soviet Union and United States at the end of the Cold War the protagonists mistrusted each other

and struggled for advantage Rosato argues that the ramifications of his argument for U S China relations are profound the future of great power politics is likely to resemble its dismal past *Ethics in an Age of Terror and Genocide* Kristen Renwick Monroe,2012 How should Augustine Plato Calvin Kant Nietzsche and Bonhoeffer be read today in light of postcolonial theory and twenty first century understandings This book offers a reader friendly introduction to Christian liberationist ethics by having scholars from the margins explore how questions of race and gender should be brought to bear on twenty four classic ethicists and philosophers Each short chapter gives historical background for the thinker describes that thinker s most important contributions then raises issues of concern for women and persons of color Successful Strategies Williamson Murray,Richard Hart Sinnreich,2014-05-29 Reveals the key factors that have contributed to the development and execution of successful military and political strategies throughout history Catalog of Copyright Entries.
