Women in Journalism at the Fin de Siècle F. Gray,2012-03-13 As the nineteenth century drew to a close women became more numerous and prominent in British journalism This book offers a fascinating introduction to the work lives of twelve such journalists and each essay examines the career writing and strategic choices of women battling against the odds to secure recognition in a male dominated society

[Of Victorians and Vegetarians](#) James Gregory,2007-06-29 Nineteenth century Britain was one of the birthplaces of modern vegetarianism in the west and was to

become a reform movement attracting thousands of people From the Vegetarian Society's foundation in 1847 men women and their families abandoned conventional diet for reasons as varied as self advancement via personal thrift dissatisfaction with medical orthodoxy repugnance towards animal cruelty and the belief that carnivorousism stimulated alcoholism and bellicosity They joined in the pursuit of a more perfect society in which food reform combined with causes such as socialism and land reform James Gregory provides an extensive exploration of the movement with its often colourful and sometimes eccentric leaders and grass roots supporters He explores the rich culture of branch associations competing national societies proliferating restaurants and food stores and experiments in vegetarian farms and colonies Of Victorians and Vegetarians examines the wider significance of Victorian vegetarians embracing concerns about gender and class national identity race and empire and religious authority Vegetarianism embodied the Victorians complicated response to modernity While some vegetarians were averse to features of the industrial and urban world other vegetarian entrepreneurs embraced technology in the creation of substitute foods and other commodities Hostile like the associated anti vivisectionists and anti vaccinationists to a new priesthood of scientists vegetarians defended themselves through the new sciences of nutrition and chemistry Of Victorians and Vegetarians uncovers who the vegetarians were how they attempted to convert their fellow Britons and the world beyond to their bloodless diet and the response of contemporaries in a variety of media and genres Through a close study of the vegetarian periodicals and organisational archives extensive biographical research and a broader examination of texts relating to food dietary reform and allied reform movements James Gregory provides us with the first fascinating foray into the impact of vegetarianism on the Victorians In doing so he gives revealing insights into the development of animal welfare other contemporary reform movements and the histories of food and diet

Terrorism in the Late Victorian Novel Barbara Arnett Melchiori, 2016-07-28 First published in 1985 this book looks at the ways in which the spate of terrorist activity in the 1880s was reflected in the novels of the time Oscar Wilde George Gissing Henry James and George Bernard Shaw among others gave the terrorist venture a position in one or more of their novels This book examines what these novelists made of terrorism and the way they presented it to their readers Not all of these novels are high literature or take a committed line on the outrages they describe nevertheless they accept the assumption that terrorism and social protest were synonymous This book aims to explain how such a view could be held in the context of Victorian society

Mountain Republic Philippa Harrison, 2021-06-10 An affectionate but meticulously researched history of one of the most beautiful and best loved corners of England Crosthwaite Parish nestling deep within the mountains and valleys of the Lake District A unique contribution to English history Hunter Davies A delightful refreshingly written book attentive to social detail and telling the only story that matters history Simon Jenkins A wonderful book Margaret Drabble A completely fresh perspective on the Lakes and Lake Poets I hugely enjoyed it Andrew Marr Bounded by the peaks of Scafell Skiddaw and Helvellyn and embracing such well known landmarks as Borrowdale Derwentwater and Keswick it lies within the heart of the

Lake Poets landscape and its rugged terrain excites passion in all those who know it The Parish also boasts a remarkable history Its 90 square miles were governed from medieval times by eighteen annually chosen customary tenants ancestors of the people who later prompted Wordsworth s portrayal of the area as a perfect Republic of Shepherds and agriculturalists His fellow poet Robert Southey lived within the Parish for forty years was an active parishioner and rests in St Kentigern s churchyard Here he is given his rightful position as a Lake Poet In the nineteenth century the Victorian state killed off the old parish system sweeping away the egalitarian rule of the Eighteen Men But a degree of redemption was at hand Canon Rawnsley vicar of Crosthwaite from 1883 pledged to defend the Lake District for future generations So the Parish was at the heart of the creation of the National Trust and blazed a trail for a wider movement to preserve the English landscape Writing with a historian s rigour and bearing aloft the banner of the Lake District statesmen Philippa Harrison has produced a magisterial and fascinating record of a parish with a unique social cultural and aesthetic resonance in English history
