Rapport Emily Alison,Laurence Alison,2020-07-30 Laurence Alison is one of my academic heroes He does what every writer longs to do He makes the difficult clear without losing his rigour Malcolm Gladwell They are quietly revolutionising the study and practice of interrogation Their findings are changing the way law enforcement and security agencies approach the delicate and vital task of gathering human intelligence Guardian Get what you want from even the most difficult characters All of us have to deal with difficult people Whether we re asking our neighbour to move a fence or our boss for a pay rise we can struggle to avoid arguments and get what we want Laurence and Emily Alison are world leaders in forensic psychology and they specialise in the most difficult interactions imaginable criminal interrogations They advise and train the police security agencies the FBI and the CIA on how to deal with extremely dangerous suspects when the stakes are high After 30 years work and unprecedented access to 2 000 hours of terrorist interrogations they have developed a ground breaking model of interpersonal communication This deceptively simple approach to handling any encounter works as well for teenagers as it does for terrorists Now it s time to share it with the world Rapport reveals that every interaction follows four styles Control the lion Capitulate the mouse Confront the Tyrannosaur and Co operate the monkey As soon as you understand these styles and your own goals you can shape any conversation at will And you ll be closer to the real secret how to create instant rapport

On Heidegger's Being and Time Simon Critchley, Reiner Schürmann, 2020-04-15 On Heidegger's Being and Time is an outstanding exploration of Heidegger's most important work by two major philosophers Simon Critchley argues that we must see Being and Time as a radicalization of Husserl's phenomenology particularly his theories of intentionality categorial

intuition and the phenomenological concept of the a priori This leads to a reappraisal and defense of Heidegger s conception of phenomenology In contrast Reiner Sch rmann urges us to read Heidegger backward arguing that his later work is the key to unravelling Being and Time Through a close reading of Being and Time Sch rmann demonstrates that this work is ultimately aporetic because the notion of Being elaborated in his later work is already at play within it This is the first time that Sch rmann s renowned lectures on Heidegger have been published The book concludes with Critchley s reinterpretation of the importance of authenticity in Being and Time Arguing for what he calls an originary inauthenticity Critchley proposes a relational understanding of the key concepts of the second part of Being and Time death conscience and temporality **Not**

Aftershock Matthew Green, 2015-10-01 Over the last decade we have sent thousands of people to fight on our behalf But what happens when these soldiers come back home having lost their friends and killed their enemies having seen and done things that have no place in civilian life In Aftershock Matthew Green tells the story of our veterans journey from the frontline of combat to the reality of return Through wide ranging interviews with former combatants including a Royal Marine sniper and a former operator in the SAS as well as serving personnel and their families physicians therapists and psychiatrists Aftershock looks beyond the headline grabbing statistics and the labels of post traumatic stress disorder to get to the heart of today's post conflict experience Green asks what lessons have been learned from past wars and explores the range of help currently available from traditional talking cures to cutting edge scientific therapies As today's battle scarred troops begin to lay their weapons down Aftershock is a hard hitting account of the hidden cost of conflict And its message is one that has profound implications not just for the military but for anyone with an interest in how we experience trauma and survive
