The Baffler No 11:

New York Magazine ,1995-09-25 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea [The Baffler 11](#) ,1999 *Taking Back Desire: A Psychoanalytic Approach to Queerness and Neoliberalism on Screen* James Lawrence Slattery,2025-05-13 Taking Back Desire studies film television and video art texts through a Lacanian prism to restore a sense of queer as troubling identity and resistance to neoliberal forms of inclusion James Lawrence Slattery illuminates how the framing of desire identity enjoyment resistance and knowledge contribute to the investment in neoliberal formations of being and success despite the corrosive effects neoliberalism has had for much of society The book does not read queerness on screen as a discernible group of characters or narrative formulas but as a point that meaning fails in the visual and temporal field Examining the interrelation of the real the imaginary and the symbolic in contemporary politics and contemporary media Slattery investigates how a diverse selection of moving image texts forge queerness as a relationship to the lack while crucially resisting the creation of a new or definitive canon Taking Back Desire will be essential reading for academics and scholars of Freudian and Lacanian psychoanalysis queer theory late capitalism film television and media studies sexuality studies critical race theory cultural studies and feminist theory [With Amusement for All](#) LeRoy Ashby,2006-05-12 With Amusement for All contextualizes what Americans have done for fun since 1830 showing the reciprocal nature of the relationships among social political economic and cultural forces and the ways in which the entertainment world has reflected changed or reinforced the values of American society [Being Possible](#) Stephen Dozeman,2020-12-16 In April 2019 Canadian psychologist Jordan B Peterson sat down with Slovenian philosopher and psychoanalyst Slavoj i ek for a debate that would collect higher ticket prices than the local Toronto Maple Leafs game The debate was considered by many to be something of a dud with both figures largely appearing to talk past each other but to ignore it would be a mistake Instead the fact that a major public event put the Communist vs Capitalist question back into play speaks to larger cultural trends that are occurring an old consensus seems to be bursting at the seams and it s unclear if the center will hold or be moved Taking on the existentialism of Martin Heidegger as their starting point Stephen Dozeman argues that understanding this debate means starting with the individual subject and understanding its increasingly confused and precarious place in a disenchanted world Wandering in between philosophical theory history popular culture and back to philosophy again this book tries to explore why so many feel compelled to call ancient wisdom into question and what it might mean to take responsibility for our lives **Official Gazette of the United States Patent Office** United States. Patent Office,1904 **Punk Rock** Mindy Clegg,2022-08-01 Punk Rock examines the history of punk rock in its totality Punk

became a way of thinking about the role of culture and community in modern life Punks forged real alternatives to producing popular music and built community around their music This punk counterpublic forged in the late Cold War period spanned the globe and has provided a viable cultural alternative to alienated young people over the years This book starts with the rise of modernity and places the emergence of punk as a musical subculture into that longer historical narrative It also reveals how punk itself became a contested terrain as participants sought to imbue the production of music with greater meaning It highlights all styles of punk and its wide variety of creators around the world including from the LGBTQ feminist and alternative communities Punk was and remains a transnational phenomenon that influences music production and shapes our understanding of culture's role in community building

Algorithms of Resistance Tiziano Bonini, Emiliano Trer, 2024-02-06 How global workers influencers and activists develop tactics of algorithmic resistance by appropriating and repurposing the same algorithms that control our lives Algorithms are all around us permeating more and more aspects of our daily lives While accounts of platform power tend to come across as bleak and monolithic Algorithms of Resistance shows how people can resist algorithms across a variety of domains Drawing from rich ethnographic materials and perspectives from both the Global North and South authors Tiziano Bonini and Emiliano Trer explore how people appropriate and reconfigure algorithms to pursue their objectives in three domains of everyday life gig work cultural industries and politics They reveal how forms of algorithmic agency and resistance are endemic and mundane and how the platform society is a contested battleground of contrasting forces Bonini and Trer begin by outlining their key theoretical framework of moral economies This framework argues that algorithms exist on a continuum At its two extremes are two competing moral economies the user moral economy and the platform moral economy From here Algorithms of Resistance chronicles the various inventive ways that individuals can work to achieve agency and resist the ubiquitous power of algorithms Casting a wide net with a diverse range of case studies Bonini and Trer reveal the moral imperative for all of us from delivery drivers to artists to social movements to resist algorithms

The Quiet Violence of Empire Wesley Attewell, 2023-04-11 How the U S empire state transformed post 1945 Afghanistan into a key site for reimagining development Established in 1961 by President Kennedy the United States Agency for International Development USAID is often viewed as an extension of the security state playing a constant role on the ground in Afghanistan since the early sixties The Quiet Violence of Empire traces USAID's long and bloody history of development work in the region revealing an empirically rich account of the transnational entanglements of imperialism and racial capitalism Wesley Attewell carefully analyzes three chronological moments of development as counterinsurgency in action the Helmand Valley Project the Soviet Afghan conflict and the post 9 11 occupation in Afghanistan These case studies expose how USAID's very public commitment to bringing seemingly inclusionary forms of self help technical assistance and market development to Afghanistan has been undergirded by longer standing infrastructures of race war and racial management Attewell exposes how one of the net effects of USAID's

development mission to Afghanistan has been to constrain the life chances of Afghan beneficiaries while simultaneously diverting development capital back to U S contractors deftly underscoring the notion of development as a form of slow violence The Quiet Violence of Empire asks the critical question how might we refuse the ruse of USAID and its endlessly deferred promise of development Thinking relationally across the fields of human geography global studies and critical ethnic studies it uncovers the explicitly racial underpinnings of international development theory and praxis Because of Sex Gillian Thomas,2016-03-08 Meticulously researched and rewarding to read Thomas is a gifted storyteller The New York Times Book Review Best known as a monumental achievement of the civil rights movement the 1964 Civil Rights Act also revolutionized the lives of America s working women Title VII of the law made it illegal to discriminate because of sex But that simple phrase didn t mean much until ordinary women began using the law to get justice on the job and some took their fights all the way to the Supreme Court Among them were Ida Phillips denied an assembly line job because she had a preschool age child Kim Rawlinson who fought to become a prison guard a man s job Mechelle Vinson who brought a lawsuit for sexual abuse before sexual harassment even had a name Ann Hopkins denied partnership at a Big Eight accounting firm because the men in charge thought she needed a course at charm school and most recently Peggy Young UPS truck driver forced to take an unpaid leave while pregnant because she asked for a temporary reprieve from heavy lifting These unsung heroines victories and those of the other women profiled in Gillian Thomas Because of Sex dismantled a Mad Men world where women could only hope to play supporting roles where sexual harassment was just the way things are and where pregnancy meant getting a pink slip Through first person accounts and vivid narrative Because of Sex tells the story of how one law our highest court and a few tenacious women changed the American workplace forever American Gas-light Journal and Chemical Repertory ,1921 **The Rhetorical Invention of America's National Security State** Marouf Hasian Jr.,Sean Lawson,Megan D. McFarlane,2015-07-29 The Rhetorical Invention of America s National Security State examines the rhetoric and discourse produced by and constitutive of America s national security state Hasian Lawson and McFarlane illustrate the importance of rhetoric to the expansion of the American national security state in the post 9 11 era through their examination of the global war on terrorism enhanced interrogation techniques drone crew stress activities of Edward Snowden rise of Special Forces and popular representations of counterterrorism The coauthors contend this expansion was not the result of lone imperial executives or a nefarious state within a state but was co produced by elite and non elite Americans alike who not only condoned but also in many cases demanded the expansion of the national security state This work will be of interest to scholars in communication studies and political science Twilight of the American Century Andrew J. Bacevich,2018-11-15 Andrew Bacevich is a leading American public intellectual writing in the fields of culture and politics with particular attention to war and America s role in the world Twilight of the American Century is a collection of his selected essays written since 9 11 In these essays Bacevich critically examines the U S response to the

events of September 2001 as they have played out in the years since radically affecting the way Americans see themselves and their nation's place in the world Bacevich is the author of nearly a dozen books and contributes to a wide variety of publications including Foreign Affairs The Nation Commonweal Harper's and the London Review of Books His op eds have appeared in the New York Times Washington Post and the Wall Street Journal among other newspapers Prior to becoming an academic he was a professional soldier His experience as an Army officer informs his abiding concern regarding the misuse of American military power and the shortcomings of the U S military system As a historian he has tried to see the past differently thereby making it usable to the present Bacevich combines the perspective of a scholar with the background of a practitioner His views defy neat categorization as either liberal or conservative He belongs to no school His voice and his views are distinctive provocative and refreshing Those with a focus on political and cultural developments and who have a critical interest in America's role in the world will be keenly interested in this book

An Intergenerational Feminist Media Studies Jessalynn Keller, Jo Littler, Alison Winch, 2019-10-23 Feminism and generation are live and ideologically freighted issues that are subject to a substantial amount of media engagement The figure of the millennial and the baby boomer for example regularly circulate in mainstream media often accompanied by hyperbolic and vitriolic discourses and effects of intergenerational feminist conflict In addition theories of feminist generation and waves have been and continue to be extensively critiqued within feminist theory Given the compelling criticisms directed at these categories we ask why bother examining and foregrounding issues of generation intergeneration and transgeneration in feminist media studies While remaining skeptical of linearity and familial metaphors and of repeating reductive heteronormative and racist versions of feminist movements we believe that the concept of generation does have critical purchase for feminist media scholars Indeed precisely because of the problematic ways in which it is used and its prevalence as a volatile yet only too palpable organizing category generation is in need of continual critical analysis and is an important tool to be used with care and nuance when examining the multiple routes through which power functions in order to marginalize reward and oppress This book covers a range of media forms film games digital media television print media and practices of media production intervention and representation The contributors explore how figures at particular stages of life particularly the girl and the aging woman are constructed relationally and circulate within media with particular attention to sexuality The book emphasizes exploring the ways in which the category of generation is mobilized in order to gloss sexism racism ageism class oppression and the effects of neoliberalism The chapters in this book were originally published as a special issue of Feminist Media Studies

The Place It Was Done Šárka Bubíková, Olga Roebuck, 2023-03-03

Locations play an important role in every story but in British and American contemporary crime fiction they are often inextricable from the narrative This work examines the city the countryside and the wilderness as places ripe with literary significance and symbolism Using works by authors like Robert Galbraith Ian Rankin Denise Mina Chris Brookmyre John Knox Peter Robinson Linda Barnes Dana Stabenow Nevada Barr Les Roberts Philip R Craig and others this work offers a fresh assessment of how place and space are employed in contemporary crime fiction Highlighted are similarities and differences among the authors approaches to setting and how they relate to the history of crime fiction and to the general literary representation of place Going beyond mere literary geography the book engages the sociocultural dimensions of the communities affected by crime Chapters also analyze the reader s perception recognition and appreciation of place and community

Come With Me If You Want to Live Michael Harris, 2023-11-02 If our near future sometimes feels like a dystopian sci fi movie that s because it is In *Come With Me If You Want to Live* The Future as Foretold in Classic Sci Fi Films Michael Harris reveals the hidden in plain sight meanings of the

greatest science fiction films of the past fifty years the ways in which they predicted the future that we are increasingly living in but how we can still avoid the worst of what they warned us about The 1970s saw the start of a new wave of science fiction that predicted environmental destruction out of control technology and escalating political crises These were not the fantastical imaginings of filmmakers they were based on rising environmental consciousness and solid scientific research The explanation of why we didn't heed these warnings might be the most important story of our time and now our future Each chapter focuses on a classic sci fi film among them Blade Runner Terminator 2 12 Monkeys Brazil Soylent Green and the Back to the Future series these films are used to consider our likely environmental technological and political future But taking sci fi seriously again could help us to regain our power to create different tomorrows guided by practical utopianism and to imagine new science fictions for a better world If you're wondering what the future holds maybe you've already seen it
