**Bali and the Tourist Industry** David Shavit,2019-07-18 The island of Bali s sensational image was created by the tourists artists and scholars who visited the tiny nation between the two world wars A Dutch colony from 1908 Bali was a source of revenue for the Dutch government which began to develop its image as the ultimate vacation spot The tourism industry spread the idea of Bali as a paradise in which noble happy spiritual Balinese all prodigiously creative artists lived in innocence Sensual images of beautiful people on an enchanted isle unspoiled by modernity predominated Bali also acquired a reputation as a homosexual paradise A host of books and articles fed these images of Bali until it evolved into one of the most romantic stops on the tourist itinerary The Balinese people however made little profit from the tourist traffic This history of the development of tourism in Bali stretches from the Dutch occupation in 1906 to the Japanese occupation in 1942 After exhaustive research in published records and in unpublished letters diaries and oral histories left by many of the American and European visitors to the island as well as the Balinese residents the author explores the reasons for Bali s popularity among Westerners and their effects on the native culture

The Changing World of Bali Leo Howe,2006-06-07 The glossy guide book image of Bali is of a timeless paradise whose people are devoutly religious and artistically gifted However a hundred years of colonialism war and Indonesian independence and tourism have produced both modernizing changes and created an image of Bali as traditional Incorporating up to date ethnographic field work the book investigates the myriad of ways in which the Balinese has responded to the influx of outside influence The book focuses on the fascinating interrelationship between tourism economy culture and religion in Bali painting a twenty first century picture of the Balinese In documenting these diverse changes Howe critically assesses some of the work of Bali s most famous ethnographer Clifford Geertz and demonstrates the importance of a historically grounded and broadly contextualized approach to the analysis of a complex society

**The Last Stand of Asian Autonomies** Anthony Reid, 1997-09-12 The last century of the exuberantly diverse independence of Asia's smaller states before the colonial embrace of 1860-1900 has been dismissed as a doomed period of stagnation and reaction by colonial nationalist and Marxist historians alike. But the newest writing represented here by 17 leading specialists on the different states of Southeast Asia and Choson Korea has discovered in these states an astonishing laboratory of autonomous attempts to grapple with the pressures of modernity

**The Politics of Religion in Indonesia** Michel Picard, Rémy Madinier, 2011-05-13 Indonesia is a remarkable case study for religious politics. While not being a theocratic country it is not secular either with the Indonesian state officially defining what constitutes religion and every citizen needing to be affiliated to one of them. This book focuses on Java and Bali and the interesting comparison of two neighbouring societies shaped by two different religions: Islam and Hinduism. The book examines the appropriation by the peoples of Java and Bali of the idea of religion through a dialogic process of indigenization of universalist religions and universalization of indigenous religions. It looks at the tension that exists between proponents of local world views and indigenous belief systems and those who deny those local traditions as qualifying as a religion. This tension plays a leading part in the construction of an Indonesian religious identity recognized by the state. The book is of interest to students and scholars of Southeast Asia religious studies and the anthropology and sociology of religion

Music As Episteme, Text, Sign, and Tool Zachar Laskewicz, 2003 The primary intention of this work is to present a set of alternative approaches to musicality where the object of analysis is the process of music making rather than the product or end result. It uses as its source the concept of musicality as a way of comprehending reality rather than as a static reflection of it and Balinese music is the main cultural example

*The Indonesia Reader* Tineke Hellwig, Eric Tagliacozzo, 2009-03-13 An introduction to Indonesia's history, culture, and politics which brings together more than 150 selections including journalists' articles, explorers' chronicles, photographs, poetry, stories, cartoons, drawings, letters, and speeches

Bali Raw Malcolm Scott, 2012-05-01 Every year millions of tourists visit Bali in Indonesia but what you don't see in the glossy brochures is the rampant prostitution, the bloody turf wars waged between local gangs and the drug and alcohol-induced Western hooliganism. Tourists are robbed, raped, and murdered and get into vicious fights. In this raw and extraordinary exposé, Scott offers up a Bali choking with violent street fights, cheap sex, and aggressive crime

**The Kecak and Cultural Tourism on Bali** Kendra Stepputat, 2021 The Kecak is one of the most well-known dramatic dance performance practices on Bali. It is based on stories from the Old Indian epic Ramayana performed by

an ensemble of male and female solo dancers and accompanied by a group consisting of approximately 100 men who function both as musical accompaniment and living scenery that can be flexibly choreographed Since its genesis in the 1930s the Kecak has been almost solely performed in a tourist context This book gives a thorough analysis and description of the Kecak in its present form and explores how the Kecak became and stayed a tourist genre for more than 80 years The book is divided into two parts The first part focuses on the Kecak in its present form including musical choreographic and dramatic elements The connection between cultural tourism on Bali and Kecak performance practice is analyzed in detail including the dependency between tourism professionals and artists and ways of promoting the kecak Tourists perspectives on the Kecak are addressed separately The second part deals with the genesis and development of the Kecak from the 1930s onward

*Bridges to the Ancestors* David D. Harnish, 2006-01-01 Bridges to the Ancestors effectively reveals the Lingsar festival as a site of cultural struggle as Harnish explores how history identity and power are constructed and negotiated He addresses the fascinating interaction between music and myth and the forces of modernity globalization authenticity tourism religion regionalism and nationalism in maintaining tradition Jacket The Appropriation of Religion in Southeast Asia and Beyond

Michel Picard, 2017-08-11 This volume investigates various processes by which world religions become localized as well as how local traditions in Southeast Asia and Melanesia become universalized In the name of modernity and progress the contemporary Southeast Asian states tend to press their populations to have a religion claiming that their local indigenous practices and traditions do not constitute religion Authors analyze this religionization addressing how local people appropriate religion as a category to define some of their practices as differentiated from others whether they want to have a religion or are constrained to demonstrate that they profess one Thus religion is what is regarded as such by these local actors which might not correspond to what counts as religion for the observer Furthermore local actors do not always concur regarding what their religion is about as religion is a contested issue In consequence each of the case studies in this volume purposes to elucidate what gets identified and legitimized as religion by whom for what purpose and under what political conditions *Netherlands East Indies and British Malaya* John A. Fowler, 1923 Asia and the Secular Pascal

Bourdeaux, Eddy Dufourmont, André Laliberté, Rémy Madinier, 2022-09-20 This volume looks at the secular state in the context of contemporary Asia and investigates whether there existed before modernity antecedents to the condition of secularity understood as the differentiation of the sphere of the religious from other spheres of social life The chapters presented in this book examine this issue in national contexts by looking at the historical formation of lexicons that defined the secular the secular state and secularism This approach requires paying attention to modern vernacular languages and their precedents in written traditions with often a very long tradition This book presents three interpretive frameworks multiple modernities variety of secularisms and typologies of post colonial secular states **The Bali to Bairnsdale**

**Alignment and Earth's Reproductive Chakra** Robert Jameson, **The Cockfight** Alan Dundes, 1994-06-15 Originating

more than 2500 years ago cockfighting is one of the oldest documented sports in the world It has continued to flourish despite bans against it in many countries In *The Cockfight A Casebook* folklorist Alan Dundes brings together a diverse array of writing on this male dominated ritual Vivid descriptions of cockfights from Puerto Rico Tahiti Ireland Spain Brazil and the Philippines complement critical commentaries from the fourth century reflections of St Augustine to contemporary anthropological and psychoanalytic interpretations The various essays discuss the intricate rules of the cockfight the ethical question of pitting two equally matched roosters in a fight to the death the emotional involvement of cockfighters and fans and the sexual implications of the sport The result is an enlightening collection for anthropologists folklorists sociologists and psychologists as well as followers of this ancient blood sport
