Encountering the Sovereign Other Miriam C. Brown Spiers, 2021-12-01 Science fiction often operates as either an extended metaphor for human relationships or as a genuine attempt to encounter the alien Other Both types of stories tend to rehearse the processes of colonialism in which a sympathetic protagonist encounters and tames the unknown Despite this logic Native American writers have claimed the genre as a productive space in which they can critique historical colonialism and reassert the value of Indigenous worldviews Encountering the Sovereign Other proposes a new theoretical framework for understanding Indigenous science fiction placing Native theorists like Vine Deloria Jr and Gregory Cajete in conversation with science fiction theorists like Darko Suvin David Higgins and Michael Pinsky In response to older colonial discourses many contemporary Indigenous authors insist that readers acknowledge their humanity while recognizing them as distinct peoples who maintain their own cultures beliefs and nationhood Here author Miriam C Brown Spiers analyzes four novels William Sanders's The Ballad of Billy Badass and the Rose of Turkestan Stephen Graham Jones's It Came from Del Rio D L Birchfield's Field of Honor and Blake M Hausman's Riding the Trail of Tears Demonstrating how Indigenous science fiction expands the boundaries of the genre while reinforcing the relevance of Indigenous knowledge Brown Spiers illustrates the use of science fiction as a critical compass for navigating and surviving the distinct challenges of the twenty first century

After the end David L. Pike, 2024-04-09 After the End argues that the cultural imaginaries and practices of the Cold War continue to deeply shape the present in profound but largely unnoticed ways across the global North and in the global South The argument draws examples from literature and literary criticism film music the historical and social scientific record and past and present physical sites to consider the bunker as a material form an image and as a fantasy that took shape in the global North in the 1960s and that spread globally into the twenty first century After the End reminds us not only that most of the world's peoples have lived with or died from apocalyptic conditions for centuries but that the Cold War imaginaries that grew from and fed those conditions continue to survive as well

emerged out of Cherokee social history to interpret diverse texts composed in English a language embraced by many as a tool of both access and defiance Justice s analysis ultimately locates the Cherokees as a people of many perspectives many bloods mingled into a collective sense of nationhood Just as the oral traditions of the Cherokee people reflect the living realities and concerns of those who share them Justice concludes so too is their literary tradition a textual testament to Cherokee endurance and vitality Daniel Heath Justice is assistant professor of aboriginal literatures at the University of Toronto
