Misiunas, Rein Taagepera, 1983 Baltic Socialism Remembered Ene Kõresaar, 2018-10-16 What does it mean to tell a life story How is one's memory of communism shaped by family profession generation and religion Do post communist Baltic states embrace similar memories The Baltic states represent not only a geographical but also a mnemonic region The mental maps of people who live on this territory are shaped by memories of Soviet socialism *Baltic Socialism Remembered* captures the workings of the memory of diverse groups of people who inhabit the region teachers officials young people women believers It comes as no surprise that their memories do not overlap but often contradict to other groups and to official narratives *Baltic Socialism Remembered* is a rare attempt to engage with the mnemonic worlds of social groups and individuals rather than with memory politics and monumental history The contributors try to chart unpredictable ways in which public and national memory affect individual memory and vice versa Understanding complexity and diversity of memory workings in such compact region as the Baltic states will enable a more nuanced policy making This book was originally published as a special issue of *Journal of Baltic Studies* **The Shadow of War** Stephen Lovell, 2011-06-24 Taking the achievements ambiguities and legacies of World War II as a point of departure *The Shadow of War* The Soviet Union and Russia 1941 to the Present offers a fresh new approach to modern Soviet and Russian history Presents one of the only histories of the Soviet Union and Russia that begins with World War II and goes beyond the Soviet collapse through to the early twenty first century Innovative thematic arrangement and approach allows for insights that are missed in chronological histories Draws on a wide range of sources and the very latest research on post Soviet history a rapidly developing field

This volume examines the role of identity formation and stages of sequencing of the steps of reconciliation which is an enduring rather than an ad hoc phenomenon RIPAR 4 asks for both the challenges to it from the domestic and international systems and the actors involved as well as for the role of history memory and remembrance either as catalysts for or obstacles to reconciliation The analyzing of the connection among the past the present and the future in actual or prospective reconciliation embraces all these topics and questions Influenced by the crisis in the former Soviet Union following the March 2014 Russian annexation integration of Crimea and the movement of Russian soldiers into Eastern Ukraine to aid Ukrainian separatists the essays in this volume were written in 2015 Reconciliation is a frequently ill defined term As an aspiration in this volume it encompasses three senses an incipient thin and minimal form amounting to passive peaceful coexistence after enmity a more elaborate intermediate and engaged form that is captured by the term rapprochement and a thick or fuller form denoting active friendship empathy trust magnanimity and ultimately amity Beyond the definitional goal the volume addresses ten themes Firstly reconciliation is being questioned as a process and or a terminal condition A view is made on the requirements for the transition from conflict to a reconciliatory process and the obstacles to beginning a process of reconciliation Its soft and hard expressions inter alia in emotional and political dimensions are also subject of the author's interest The observations about conflict and cooperation offered in this volume wish to add significantly to the burgeoning literature of reconciliation These essays demonstrate that we need a variety of disciplinary and theoretical perspectives to grapple with conflict and to promote reconciliation *The Baltic States*, 1983

Parliaments in the Late Russian Empire, Revolutionary Russia, and the Soviet Union Ivan Sablin, 2024-02-12 This book examines the meanings that were attached to the terms parliament and parliamentarism in the different historical and discursive contexts of the late Russian Empire revolutionary and Soviet Russia and the Soviet Union It discusses those institutions referred to as parliaments by contemporaries gives special attention to their functions and traces the broader debates on parliamentarism within Russia and the Soviet Union in Russian migr circles and among foreign observers It highlights that only the late imperial and perestroika assemblies can be considered legislative institutions that expressed dissensus but argues that other assemblies often referred to as rubber stamp parliaments due to their lack of legislative competence and influence over other authorities should not be dismissed The Supreme Soviet for instance provided an integrative function binding society and elites in a top down manner while its deputies engaged in information acquisition and state micromanagement through interactions with their constituents It also played an important role in interparliamentary relations and as one of the first institutions of nominal parliamentarism in an autocratic single party regime of which there were many in the twentieth century served as a model for numerous state socialist regimes By

addressing the role of parliaments in reassembling imperial spaces through political representation and the functions of nominal legislative institutions the book explores the contribution of Russian and Soviet assemblies to global political modernity

The Routledge Handbook to Music under German Occupation, 1938-1945 David Fanning, Erik Levi, 2019-12-06 Following their entry into Austria and the Sudetenland in the late 1930s the Germans attempted to impose a policy of cultural imperialism on the countries they went on to occupy during World War II Almost all music institutions in the occupied lands came under direct German control or were subject to severe scrutiny and censorship the prime objective being to change the musical fabric of these nations and force them to submit to the strictures of Nazi ideology This pioneering collection of essays is the first in the English language to look in more detail at the musical consequences of German occupation during a dark period in European history It embraces a wide range of issues presenting case studies involving musical activity in a number of occupied European cities as well as in countries that were part of the Axis or had established close diplomatic relations with Germany The wartime careers and creative outputs of individual musicians who were faced with the dilemma of either complying with or resisting the impositions of the occupiers are explored In addition there is some reflection on the post war implications of German occupation for the musical environment in Europe Music under German Occupation is written for all music lovers students professionals and academics who have particular interests in 20th century music and or the vicissitudes of European cultural life during World War II

Political Culture under Institutional Pressure L. Bennich-Björkman, 2007-12-09 Are world views once formed during childhood and adolescence stable over life or do they change when they come under pressure from new institutional contexts This book seeks the answer by revisiting an aged political generation growing up in historically unique interwar Estonia but living their adult lives in exile

Seventy Years of the Communist Revolution Warren Hasty Carroll, 1989

Parliamentary Elites in Central and Eastern Europe Elena Semenova, Michael Edinger, Heinrich Best, 2013-12-13 Legislators are entrusted with key parliamentary functions and are important figures in the decision making process Their behaviour as political elites is as much responsible for the failures and successes of the new democracies as their institutional designs and constitutional reforms This book provides a comparative examination of representative elites and their role in democratic development in post communist Central and Eastern Europe CEE It argues that as the drivers of the transformation process in CEE individual and collective parliamentary actors matter The authors provide an in depth analysis of representatives from eleven national parliaments and explore country specific features of recruitment and representation They draw on an integrated dataset of parliamentary elites for individual party family and parliamentary variables over the 20 years following the collapse of Communism and develop a common framework for the analysis of variations in democratisation and political professionalisation between parliaments and political parties party families across CEE This unique volume will be of interest to students and scholars of comparative politics elite research post communist politics democratisation legislative studies and

parliamentary representation *Lithuania* Alexandra Ashbourne, 1999-01-01 In 1990 the tiny Soviet Republic of Lithuania declared independence and began restoring the mechanisms of independent government and democracy that had been suppressed by its Soviet invaders for half a century Lithuania examines the first years of this rebirth in the face of the legacy of the Soviet occupation In addition to chronicling the lively chain of events leading to and stemming from the declaration of independence Alexandra Ashbourne studies the essential components of rebirth the creation of domestic foreign and security policies and the revitalization of an independent economy Drawing from the personal testimony of Lithuanians closely connected to these events Ashbourne appraises Lithuania s attempts to rejoin the international community and acquire an effective security guarantee She concludes that the damage caused by fifty years of Soviet domination created obstacles to the process of rebirth obstacles that are proving difficult and even impossible to overcome Readers of Lithuania will find its discussions applicable to most former Soviet republics and Eastern Bloc states The book will be invaluable to students and scholars of Lithuania Soviet history and international political policy *Global Perspectives on Amateur Film Histories and Cultures* Masha Salazkina, Enrique Fibla, 2021-01-05 For too long the field of amateur cinema has focused on North America and Europe In *Global Perspectives on Amateur Film Histories and Cultures* however editors Masha Salazkina and Enrique Fibla Gutierrez fill the literature gap by extending that focus and increasing inclusivity Through carefully curated essays Salazkina and Fibla Gutierrez bring wider meaning and significance to the discipline through their study of alternative cinema in new territories fueled by different historical and political circumstances innovative technologies and ambitious practitioners The essays in this volume work to realize the radical societal democratization that shows up in amateur cinema around the world In particular diverse contributors highlight the significance of amateur filmmaking the exhibition of amateur films the uses and availability of film technologies and the inventive and creative approaches of filmmakers and advocates of amateur film Together these essays shed new light on alternative cinema in a wide range of cities and countries where amateur films thrive in the shadow of commercial and conventional film industries **Dark Continent** Mark Mazower, 2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe s past present and future A splendid book The New York Times Book Review *Dark Continent* provides an alternative history of the twentieth century one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take Mark Mazower strips away myths that have comforted us since World War II revealing Europe as an entity constantly engaged in a bloody project of self invention Here is a history not of inevitable victories and forward marches but of narrow squeaks and unexpected twists where townships boast a bronze of Mussolini on horseback one moment only to melt it down and recast it as a pair of noble partisans the next **Small States in a Turbulent Environment** Atis Lejins, Žaneta Ozoliņa, 1997 **Occupied Economies** Hein A.M. Klemann, Sergei Kudryashov, 2013-05-09

What were the consequences of the German occupation for the economy of occupied Europe After Germany conquered major parts of the European continent it was faced with a choice between plundering the suppressed countries and using their economies to supply its needs The choices made not only differed from country to country but also changed over the course of the war Individual leaders the economic needs of the Reich the military situation struggles between governors of occupied countries and Berlin officials and finally racism all had an impact on the outcome In some countries the emphasis was placed on production for German warfare which kept these economies functioning New research presented for the first time in this book shows that as a consequence the economic setback in these areas was limited and therefore post war recovery was relatively easy However in other countries plundering was more characteristic resulting in partisan activity a collapse of normal society and a dramatic destruction not only of the economy but in some countries of a substantial proportion of the labour force In these countries post war recovery was almost impossible

Rulers and Victims Geoffrey Hosking, 2006-01-01 Many westerners used to call the Soviet Union Russia Russians too regarded it as their country but that did not mean they were entirely happy with it In the end in fact Russia actually destroyed the Soviet Union How did this happen and what kind of Russia emerged In this illuminating book Geoffrey Hosking explores what the Soviet experience meant for Russians One of the keys lies in messianism the idea rooted in Russian Orthodoxy that the Russians were a chosen people The communists reshaped this notion into messianic socialism in which the Soviet order would lead the world in a new direction Neither vision however fit the community spirit of the Russian people and the resulting clash defined the Soviet world Hosking analyzes how the Soviet state molded Russian identity beginning with the impact of the Bolshevik Revolution and civil war He discusses the severe dislocations resulting from collectivization and industrialization the relationship between ethnic Russians and other Soviet peoples the dramatic effects of World War II on ideas of homeland and patriotism the separation of Russian and Soviet culture leadership and the cult of personality and the importance of technology in the Soviet world view At the heart of this penetrating work is the fundamental question of what happens to a people who place their nationhood at the service of empire There is no surer guide than Geoffrey Hosking to reveal the historical forces forging Russian identity in the post communist world
