**The Barbarian Conversion** Richard A. Fletcher, 1999 An investigation of the process by which large parts of Europe accepted the Christian faith between the fourth and the fourteenth centuries and of some of the cultural consequences that flowed therefrom In a work of splendid scholarship that reflects both a firm mastery of difficult sources and a keen intuition one of Britain's foremost medievalists tells the story of the Christianization of Europe It is a very large story for conversion encompassed much more than religious belief With it came enormous cultural change Latin literacy and books Roman notions of law and property and the concept of town life as well as new tastes in food drink and dress Whether from faith or by force from self interest or by revelation conversion had an immense impact that is with us even today The Barbarian Conversion Richard A. **The Conversion of Europe (TEXT ONLY)** Richard Fletcher, Charles Henry Robinson, 1917 The story of how Europe was converted to Christianity from 300AD until the barbarian Lithuanians finally capitulated at the astonishingly late date of 1386 It is an epic tale from one of the most gifted historians of today This remarkable book examines the conversion of Europe to the Christian faith in the period following the collapse of the Roman Empire to approximately 1300 when the hegemony of the Holy Roman Empire was firmly established One of the book's great strengths is the degree to which it shows how little was inevitable about this process how surrounded by uncertainties What was the origin of the missionary impulse Who were the activists who engaged in this work the toilsome often unrewarding sometimes dangerous work of evangelisation and how did they set about putting over this faith How did a structure of ecclesiastical government come into being Above all at what point can one say that an individual or a society has become Christian Fletcher's range lucidity and mastery of his sources brings the answers to these and many other questions as far within our grasp as they probably ever can be Like Alan Bullock and Simon Schama Fletcher is a historian with the true gift of a storyteller and a wide general readership ahead of him Fletcher's previous book *The Quest for El Cid* won both the Wolfson History Prize and the Los Angeles Times Book Award for History This book is even better the most impressive achievement so far of this strikingly gifted historian Contesting Christendom James L. Halverson, 2008 The pervasiveness of the Christian religion has long been treated as one of the key features of medieval society Indeed Europe in the Middle Ages is often described simply as a Christian culture Yet what do we mean when we say that medieval Europe was a Christian society and what did it mean to be a Christian in the Middle Ages These questions are fundamental to any understanding of the Middle Ages yet the variety of theoretical approaches and conclusions represented in this carefully selected and provocative collection of key works in the field highlights the complexity of the answers Introducing students to medieval Christianity James L Halverson presents a rich array of readings that offers a variety of ways to study the history of religion within a chronological setting His opening chapter and introductions to each section and selection frame the essays and provide a strong conceptual framework to build upon Making it clear that scholars have approached religion from many

perspectives and used many different methodologies this collection presents some of the best scholarship of religion as culture and practice emphasizing the ongoing attempt to understand the social and cultural aspects of medieval Christianity Contributions by Rudolf Bell Constance Brittain Bouchard Peter Brown Marcus Bull Caroline Walker Bynum Mark R Cohen Georges Duby Eamon Duffy Joan Ferrante Richard Fletcher Katherine L French Thomas A Fudge Herbert Grundmann James L Halverson Karen Louise Jolly Lester Little Rob Means Bernd Moeller Andrew P Roach Jane Tibbets Schulenburg Keith Thomas and Ian Wood

**Christianization and Commonwealth in Early Medieval Europe**  
 Nathan J. Ristuccia, 2018-03-01

Christianization and Commonwealth in Early Medieval Europe re-examines the alterations in Western European life that followed widespread conversion to Christianity, the phenomena traditionally termed Christianization. It refocuses scholarly paradigms for Christianization around the development of mandatory rituals. One prominent ritual, Rogationtide, supplies an ideal case study demonstrating a new paradigm of Christianization without religion. Christianization in the Middle Ages was not a slow process through which a Christian system of religious beliefs and practices replaced an earlier pagan system. In the Middle Ages, religion did not exist in the sense of a fixed system of belief bounded off from other spheres of life. Rather, Christianization was primarily ritual performance. Being a Christian meant joining a local church community. After the fall of Rome, mandatory rituals such as Rogationtide arose to separate a Christian commonwealth from the pagans, heretics, and Jews outside it. A Latin West between the polis and the parish had its own institution, the Rogation procession, for organizing local communities. For medieval people, sectarian borders were often flexible, and rituals served to demarcate these borders. Rogationtide is an ideal case study of this demarcation because it was an emotionally powerful feast which combined pageantry with doctrinal instruction, community formation, social ranking, devotional exercises, and bodily mortification. As a result, rival groups quarrelled over the holiday's meaning and procedure, sometimes violently, in order to reshape the local order and ban people and practices as non-Christian.

**Migration and the Making of Global Christianity**  
 Jehu J. Hanciles, 2021-03-16

A magisterial sweep through 1500 years of Christian history with a groundbreaking focus on the missionary role of migrants in its spread. Human migration has long been identified as a driving force of historical change. Building on this understanding, Jehu Hanciles

surveys the history of Christianity's global expansion from its origins through 1500 CE to show how migration more than official missionary activity or imperial designs played a vital role in making Christianity the world's largest religion. Church history has tended to place a premium on political power and institutional forms thus portraying Christianity as a religion disseminated through official representatives of church and state. But as Hanciles illustrates this top-down perspective overlooks the multifarious array of social movements, cultural processes, ordinary experiences, and non-elite activities and decisions that contribute immensely to religious encounter and exchange. Hanciles's socio-historical approach to understanding the growth of Christianity as a world religion disrupts the narrative of Western preeminence while honoring and making sense of the diversity of religious expression that has characterized the world Christian movement for two millennia. In turning the focus of the story away from powerful empires and heroic missionaries, *Migration and the Making of Global Christianity* instead tells the more truthful story of how every Christian migrant is a vessel for the spread of the Christian faith in our deeply interconnected world.

In his famous argument against miracles David Hume gets to the heart of the modern problem of supernatural belief We are apt says Hume to imagine ourselves transported into some new world where the whole form of nature is disjointed and every element performs its operation in a different manner from what it does at present This encapsulates observes Peter Harrison the disjuncture between contemporary Western culture and medieval societies In the Middle Ages people saw the hand of God at work everywhere Indeed many suppose that belief in the supernatural is likewise fundamental nowadays to religious commitment But dichotomising between naturalism and supernaturalism is actually a relatively recent phenomenon just as the notion of belief emerged historically late In this masterful contribution to intellectual history the author overturns crucial misconceptions myths about secular modernity challenging common misunderstandings of the past even as he reinvigorates religious thinking in the present
