Hogg, Norman Francis Blake, Suzanne Romaine, Roger Lass, R. W. Burchfield, 1992 The volumes of The Cambridge history of the English language reflect the spread of English from its beginnings in Anglo Saxon England to its current role as a multifaceted global language that dominates international communication in the 21st century

Algeo, 1991 This book first published in 1992 is a unique repository of language use from 1941-91

The Arabic Contributions to the English Language Garland Hampton Cannon, Alan S. Kaye, 1994 The largest and most up to date collection of English words and multiword units borrowed from the Arabic directly or indirectly totalling 2338 items

All major dictionaries in English were surveyed including new word collections and college dictionaries. Each dictionary entry gives the first recorded date of the loan in English, the semantic field, variant forms, etymology, the English definitions, derivative forms, and sometimes grammatical comment. The major sources of each entry are noted along with the approximate degree of assimilation in English. A substantial part of the book is devoted to nontechnical analytical essays which treat the forty-six semantic areas so as to embrace all disciplines and throw light on the individual subject. Other essays treat the phonological and linguistic aspects of the data so as to show how languages in contact interact and ultimately influence each other's culture. This is a wide-ranging, innovative book that advances the study of comprehensive borrowing within languages over the centuries.

Research Methods in Sociolinguistics Janet Holmes, Kirk Hazen, 2013-10-14. This single-volume guide equips students of sociolinguistics with a full set of methodological tools including data collection and analysis techniques explained in clear and accessible terms by leading experts. It features project suggestions, troubleshooting tips, and data assessment across diverse languages. Explores an array of anthropological and scientific methods that cover the full spectrum of contemporary sociolinguistics from the study of style and discourse analysis to the study of phonetics. Details the types of data available and explains collection methods ranging from sociolinguistic interviews to linguistic landscapes. Provides comprehensive coverage of data analysis subdivided into segments on linguistic and socio-cultural techniques and linked to numerous languages. Includes useful summaries, seasoned advice, and troubleshooting tips, ideas for research projects, and a full directory of supplementary reading.

The Persian Contributions to the English Language Garland Hampton Cannon, Alan S. Kaye, 2001. The Persian Contributions to the English Language: An Historical Dictionary contains 811 main entries. Its major purpose is to advance the historical study of comprehensive, chiefly lexical borrowing between languages in contact. The ancillary purpose is to show how a collected corpus of loans can shed light on multiple disciplines. This wide-ranging, innovative book is the largest, most up-to-date collection of English words and multiword lexical units borrowed from Persian directly or through a mediating language such as Hindi, Urdu, Arabic, or Turkish. All general English dictionaries were searched, including electronic retrieval from the second edition of the Oxford English Dictionary. A major feature of the tome is that each dictionary entry gives its first known recorded date in written English, its semantic field, any modern variant form, and labels, etymology, including native meanings, English definitions in chronological order as could be dated, any derivative forms, including functional shifts and compounds, sometimes a grammatical note, the symbolized sources where the loan is recorded, and the degree of naturalization in English.

New Media Language Jean Aitchison, Diana M. Lewis, 2003. From newspapers and television to email, the Internet, and text messaging, there are ever-increasing media conduits for the news.

Predicting New Words Allan A. Metcalf, 2004. Examines the phenomenon of new word creation, offering criteria for predicting the success of new words and including the American Dialect Society's listing of words of the year from 1991 to 2001.

perennially interesting subject in a serious but highly engaging way illuminating the fundamental question What is Slang and defending slang and all forms of nonstandard English as integral parts of the American language The Japanese Contributions to the English Language Garland Hampton Cannon, Nicholas W.
